Comments: (Indicate Subject)

(1) Continue the ice skating area in the neighborhood such area. I skate there a lot and the great majority of skaters are Middle + early high school age boys. They, more than most, need a structured area to recreate (that they can walk to.) The other users seen to be Kids + their parents.

(2) The soft ball diamonds are very heavily used. If these diamonds are eliminated, it will be important to have them replaced by a funded complex before they are eliminated.

(3) After hearing discussion tonight, I believe that a four diamond softball complex should remain @ Olbrich Park + that the Gardens expansion should be made smaller or go north of the railroad tracks.

Comments: (Indicate Subject) re: development and dog park:

I would love to see a smallish off-leash dog park in the north area of Garver - bound by Fair Oaks + Starkweather Creek - OR in O.B. Sherry park. Love the bridge connecting Garver + Dawes St.

In general - part of the reason I moved to Thorp St. was the "country in the city" feel. This doesn't just mean natural landscape, it means wild, unmanaged spaces where there aren't throngs of people on paved paths. Secret urban pockets of nature make our neighborhood interesting - don't make the area gentrified!

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

Softball Complex: Strongly! reject expansion + loss of the 2 softball diamonds

- Complex is only valuable as a 4-plex, reduces use w/ reduction
- No guarantee for Reindahl + displaces problems to another community!
- Hurts ability to host local, state, national tournaments
- Displaces a highly used softball conference away from the community that uses it.
- No guarantee on for funds or space for relocation
- Loss of income to community/local businesses due to loss of diamonds

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

Softball fields need to stay - as a person who plays 4 nights a week (3 of them at Olbrich), but moving one of the fields to the "in-between" space would be fine with me - there is a lot of space not being utilized there. It would be a much more efficient use of funds & space to do so. Also, dog park - don't really care one way or the other. Expansion of the gardens can happen in several areas at once, without gaining a huge acreage at once.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

Address: 610 Clemons City: Madison Zip: 53704

Representing: Self

(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) This is a beautiful and unique location, especially on the shore side. It should NOT be used for ball fields or DOG PARK – there can go anywhere. (I do support a near east side dog park, just not here.)

Olbrich Gardens is a wonderful city, states and national resource which not only supplies opportunities for natural beauty + contemplation for all but a setting for educating our kids about the natural world and a laboratory for demonstrating urban forestry and landscaping.

p.s. I like the alternate plan with more native landscaping providing a corridor for wildlife – further enhancing Starkweather as a natural resource.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

Can we park people elsewhere & bus them in?

To the Parks Commission / Park Staff re: Olbrich Park Master Plan:

My husband and I are residents of the Schenk-Atwood-Starkweather neighborhood and frequent users of many of Olbrich Park's facilities. I urge you to consider the following comments as you continue to revise the Olbrich Park Master Plan.

1) Dog Park - Please find a place for a dog park in Olbrich Park. I have 2 dogs and would love to be able to go to a dog park without having to drive. Right now my husband and I use the area behind the Garver building to exercise our dogs. I pick up after my dogs and keep them under control, like all of the other dog owners who we have encountered using this area. By providing an off leash dog area you could minimize the amount of driving that myself and many fellow east-side residents have to undertake to exercise our dogs. The area behind Garver would be ideal to serve neighborhoods on both sides of Starkweather Creek.

2) Softball Fields - Please continue to maintain softball fields in Olbrich Park. I have been playing there for several years on both slow pitch and fast pitch teams. This location is convenient for my teammates and I. The fields are well developed and, from what I can see, heavily used. If these fields need to be reconfigured to better serve the overall park system, I can support that. However, please do not cut back on the number of overall fields as they serve a dedicated group of players.

3) Olbrich Gardens - Please find additional space for this jewel of Madison and Dane County to expand. This is a great regional draw and should be allowed to expand if at all possible.

I do not envy the challenge that you face as you continue to refine the plan and move into the implementation phase. Thank you for your efforts in serving the Madison Park System.

Karen Hinz

Comments: (Indicate Subject) Garver building + ecological planning

I strongly support the development of the Garver building for arts use. I also would like to see expansion with as much natural area preservation as possible and as little new parking as possible (both paved and grass). I am neutral on the dog park but if there is one, I'd prefer it to be located in an area that does not disturb wildlife like herons. I do not care about softball and would like to see more garden than softball, but I am fine with the redevelopment of a softball fields 1+2 to include a third field if that is necessary.

Comments: (Indicate Subject) Subject: Olbrich area Master Plan

#1 concern: Softball fields → must have a GUARUNTEE to have them built maintained and ~~budget~~ in the budget to be built as good as olbrich (ie. ~~for~~ clay dirt). Also, the women's teams appreciate the short fence, makes for more homeruns (which are fun).

#2 concern: Dog park. As a local, it is my sincere recomendation to locate this in OB Sherry park, where no one uses the "baseball diamond" or the playground equipment (very much).

#3 → Keep Garver as wild as possible

Subnote ↓

PS → my ~~fiancee~~ would have to drive to Reindall to play (like he does 1x a week, me & the dog walk to watch.)

Comments: (Indicate Subject) Would like to see Garver bldg be part of the gardens, with public access, garden plant sales, expanded gift shop / cafeteria. One member of our group suggested an aquaculture / indoor agriculture area in the Garver building. As a volunteer with the children's garden, I could see this as an attractive expansion of children's programming / urban aquaculture / agricultural component. Also, could the dog park be on the north part of the map, in part of the park area. We like the expansion of gardens along Atwood, but only if the 2 diamonds would still be adequate to meet the current demands of softball users. The idea of reconfiguring the diamonds to accomodate at least 3 diamonds, with less expansion, or some expansion around the Garver building, would work.

We also discussed back entrance / east side entrances to outdoor gardens, with bike parking, so people wouldn't have to always walk through the front before entering gardens.

* Landscaping on the street side (Atwood) of the Softball diamonds would be nice, to beautify the Atwood corridor.

Comments: (Indicate Subject) ① Parking, ② Natural Areas

Parking needs to be far less intrusive in the natural area. I wonder why you need the parking overflow in a place that conflicts with natural landuse function. The area along Atwood, next to the RR, and in the road coming next to Kessenich's is possible for parking. See me for our plan from F&C. I don't see a linear parking plan and one should be used to protect the opportunity for natural land. enjoyment. The importance of protecting the vista with trees (parking as one is (west) toward Fair Oaks. Important not to put parking there.

I would reduce proposed expansion to retain 3 baseball diamonds. Keep parking for boats as is. Don't expand

Basic Q unanswered for me is why OBS needs so much expansion? No one has answered that for me.

Comments: (Indicate Subject) The proposed alternative plan is good. I'd like to see the Gardens have the opportunity to develop the "natural area" north of the railroad tracks so it reflects the quality of the Gardens & compliments the Arts Center. I am concerned that Olbrich Gardens doesn't have enough space for maintenance and our leaf mulch production, which saves Madison money, saves the environment, & provides purchasers with a very green product, and raises money for the Gardens.

Comments: (Indicate Subject) ~~GARVER~~ ALT PLAN, SOFTBALL, DOG PARK

I like the Garver Alternate Plan with the garden maintenance area at the NW end of the Garver Building.

Softball has lots of users and should not be displaced until other diamonds are built in a similarly accessable location - NOT REINDAHL.

There should be a dog park somewhere in the park.

Could we have zip-lines to cross the RR tracks?

Why aren't there snacks at these meetings?

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: PAUL WILLIAMS Date: 082608

Address: 610 Orchard Dr City: Madison Zip: 53711

Representing: Olbrich Board & self
(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) Favor future expansion of formal gardens across Starkweather west north to Garver property. Favor Garver to be bordered by natural areas with creative naturalization of Token Creek as wild life habitat with 'view windows' along creek. set back from natural creek bank area -
- Favor bikepath relocation plan
- Improve connectivity of Garver Property & Olbrich Gardens.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: PAUL JOST Date: 8/26/'08

Address: 3106 ATWOOD City: Madison Zip: 53704

Representing: self

(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject)

B. Non-motorized Starkweather creek boat launch

no expanded parking for boats

Keep natural areas free of dogs

Keep Natural areas

Reduce paved parking areas

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: David Carpenter Date: 8-26-08

Address: 53 Cherokee Circle City: Madison Zip: 53704

Representing: Self

(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) The Park Planning Staff is to be commended for masterfully accomodating many interests in a positive and workable plan. I would support the Alternate Plan as presented this evening and encourage its adoption. Thank you.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: Linda Karr Date: 8-26-08

Address: 4205 Elinor St. City: Madison Zip: 53716

Representing: self
(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) (1) Against Dog Park: consider dog killing at Dog Park in Middleton recently. Dog presence discourages birds, turtles, other native species. Strange Dogs interacting is not benign. Dog rescue organizations require owner to have fenced yard for well-being of dog. Don't anthropomorphize dogs. If dog park consider 1 for dogs less than 40 pounds, 1 for dogs over 40 pounds for safety of small dogs. Immediate clean up of dog parks should be by owners.

(2) Pro expansion of Olbrich Gardens into 1/2 of softball fields ~~or all of Softball fields~~. Gardens make money, fit in aesthetically with beach across street. This location's beauty should be used for gardens, not generic softball that could be put up many areas of city. Gardens make rerenue.

(3) Have no objection to keeping boat launch way it is or having weekend grass parking.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

(4) Would like to have Arts Complex at Garver Feed Mill.

or e-mailed to: swidstrand@cityofmadison.com

(5) Keep shoreline as is, ~~or~~ Could lose a few trees to expand playing fields, ~~but ta~~

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: Liz Dannenbaum Date: 8/26/08

Address: 4313 Major Avenue City: Madison Zip: 53716

Representing: self
(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject)

Truthfully, I like Olbrich as is. Lovely garden which I visit once or twice every month. I'm a member. But I don't think expansion is essential. If it's a foregone conclusion, then I suggest allowing Olbrich to expand into softball diamond #3; leaving softball #4 to the softballers.

Alternately: expand Olbrich gardens into the natural landscape and behind Garver.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: Beverly Speer Date: 8-26-08

Address: 62 Farrell St City: Madison Zip: 53714

Representing: Self
(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) If garden expansion has to happen (which I don't believe it ~~does~~ has to)

* Redesign existing softball complex to maintain site where it is. Suggest slightly smaller expansion area of garden in this area to allow for this. Move parking only to Walter St corner and spin diamonds of central area You can spend money to redesign if you can do so to relocate. Keep paved area to a minimum! Reduce parking.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: Marlene Hardick Date: 8/25/08

Address: _____ City: Madison Zip: _____

Representing: self
(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) _____

1. A dog park with safe areas for large & small dog is needed & would be heavily used, with lights
2. Natural areas for wildlife are important
3. A boat dock/stop for MSCR Pontoon
4. Handicapped Accessible Play ground
5. More Flowers/flowering trees in all city parks, not only Olbrich

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: Jess Smith Date: 8-26-08

Address: 4829 Dream Ln City: Madison Zip: 53718

Representing: Self
(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject)

Eastern expansion of the gardens makes sense but looses connectivity of Garver Building. Olbrich is losing the opportunity to be a visible part of this development, ie cafe or laboratories for students who are exploring the garden

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: Kaighte Orshak Date: 08.26.08

Address: 2307 Atwood Ave City: Madison Zip: 53704

Representing: Self

(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) dont care about softball diamonds, dont care about dog parks, want to make sure Garver facility moves forward with minimal eyesore maintenance bldgs for Olbrich, dont care about bike paths, like the idea of another community garden/flowers somewhere, No train from Chicago/Milwaukee to here!! one again, dont care about softball/baseball, I like the idea of a parking structure but make it a rooftop garden and do it environmental like Epics style, like the idea of putting 3 softball diamonds together, keep dog walking/running areas separate than the pedestrian paths. I'd like walking on the path but not if there are dogs around.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Please Print: Name: Mary Thornton Date: 8/26/08

Address: 3728 Orin Rd City: Madison Zip: 53704

Representing: Self and softball team (coach) umpire on Olbrich #3
(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) (1) Do NOT extend Olbrich Gardens to Eat Up (A) Softball diamonds #3 + 4 or Any of the Sport Areas on Either Side of Atwood. Leave 4 diamond here!

(2) No Dog Parks Here — Dog Owners Can go any where around town to other open No Leach Areas + Walk Dogs Along Here. (3) All the time ~~Already~~ Leave the tennis Cts + Basketball + Soccer Areas Alone, Local Kids + Adults Utilize these Areas.

(4) The team I coach is over 90% No N-Visual disabled people. The organization is based on East Gorham. It is Already difficult to get transportation for our group + South or West Field + We paid $150 + 22 x 15 this years for East side diamonds

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

When We Were @ Warner + Mallard game presents we had to drop of equipment + players + fans c̄ physical disabilities (over)

REGISTRATION OF POSITION AT THE MEETING FOR THE OLBRICH MASTER PLAN

Address: 515 Dunning St. City: Madison Zip: 53704

Representing: SELF

(Indicate "Self" if representing yourself or list name of organization)

Comments: (Indicate Subject) TO MOVE SOFTBALL FIELDS is Not in line with Madison's Green Space philosophy. I have played on these diamonds for 30 years, and I feel it's a huge part of the neighborhood culture. I don't want people driving their cars to a remote site; more gas, traffic, and dangerous for our children to ride their bikes to. GREEN SPACE, a neighborhood softball field, which is the best IN the city, should Remain forever.

Please note written comments may be mailed to the Parks Division, P. O. Box 2987, Madison, WI 53701-2987

or e-mailed to: swidstrand@cityofmadison.com

If we phase out half our fields today, the other half will be gone tomorrow.
