### Occupational Health Standards

#### A. History and Physical Exam:

1. Complete review of history and physical systems including skin, extremities, head/neck, EENT (eyes, ears, nose and throat), respiratory, cardiovascular, abdomen, genitourinary, musculoskeletal, and neurological systems.
2. Vital signs, vision screening (near, far, depth perception, peripheral, color vision).
  - Vision Standards:
    - **If Examinee has Glasses:**  
The examinee has distant vision and near vision, without corrective lenses, of at least 20/100; with corrective lenses of at least 20/30.
    - **If Examinee has Contact Lenses:**  
The examinee has distant vision and near vision, with corrective lenses, of at least 20/30.
    - **Color Vision (Ishihara 14-plate):**
      - ≈ Candidates who fail the Ishihara and pass the Farnsworth D-15 are acceptable.
      - ≈ Candidates who fail the Ishihara AND the Farnsworth D-15 are not acceptable.
    - **Fields of Vision** of at least 85 degrees in the horizontal meridian in each eye.
3. TB skin test (If previous positive test, do not do. Instead, physician to consider chest x-ray or Quantiferon Gold test.)
4. Fitness to use Respirator questionnaire/evaluation  
Note: Maximum clearance = 5 years
  - **Only if necessary, per physician discretion:**
    - PFT
    - Chest X-ray, 1 view

#### B. Audiogram (Hearing Test):

- Hearing Standards:
  - Job placement precluded if:  
Hearing in best aided ear is greater than 25 dB in three of four speech frequencies (500, 1000, or 2000 and 300 Hertz)

#### C. Laboratory Tests:

- Complete Blood Count (CBC)
- Urinalysis (U/A)
- Comprehensive Metabolic Panel
- Urine Drug Screen collection/processing:  
Non-DOT 10 panel  
Alere Labs Facility #273923  
No MRO review; results will be sent to department

#### D. Optional Tests, as determined by physician:

- Pulmonary Function Test (if indicated, based on history)
- EKG
- Cardiac Stress test
- Tetanus-Diphtheria or T-dap (Tetanus/Diphtheria/Pertussis) immunization
- Chest x-ray, 1 view
- Quantiferon Gold test (for previous positive TB skin tests)
