REQUEST FOR PROPOSALS FOR DESIGN SERVICES

Portage Road / Eastpark Multi-Use Path Bike/Ped Bridge Project No. 11785 and Eastlawn Plat Multi-Use Path Bike/Ped Bridge Project No. 11338

Section 1: Summary and General RFP Administrative Information

1.1. Summary of Services Requested

City of Madison is seeking Engineering Services consisting of structural design, plans and specifications for two (2) new multi-use (bicycle and pedestrian) bridges over storm channels within the City of Madison. The construction of these two structures is in connection with construction of two (2) multi-use paths, the first known as the Portage Road/Eastpark Path and the second known as the Eastlawn Plat Path. A Project Location Map showing both bridge locations is attached as Exhibit 1.

1.2. Project Description

Portage Road/Eastpark Path (Bridge No. 1)

The overall Portage Road/Eastpark Path project consists of construction of approximately 1,950 feet of multi-use path adjacent to Portage Road and Hayes Road at 4603 Di Loreto Avenue in the City of Madison. The path will begin at the northeast corner of the Portage Road and Hayes Road intersection and extend east and then north to Di Loreto Avenue. A connection to the path from Hayes Road will also be provided through a City owned storm water management parcel located at 4662 Hayes Road. The proposed bridge will be located partially on the City parcel at 4662 Hayes Road and will span across the existing storm water channel along the north side of the parcel. The path will generally be on road right-of-way, City owned property or permanent easement on adjacent properties. See the attached Project Overview Map No. 1 and Preliminary Plan & Profile - Bridge No. 1, which shows the location, orientation and approximate span of Bridge No. 1 in greater detail.

Bridge No. 1 will be pre-fabricated steel truss bridge with a concrete deck. Abutments for Bridge No. 1 will be cast-in-place concrete. Short wingwalls will also be required to retain fill at each quadrant of the bridge. Steel railings incorporating aesthetic features will be extended along the path beyond the abutments of the bridge.

Eastlawn Plat Path (Bridge No. 2)

The Eastlawn Plat Bike/Ped Bridge portion of the project consists of installing a new bridge on existing abutments that were constructed in 2010. The abutments were constructed as part the initial phase of construction of the Eastlawn Plat. Now, additional Development of the Plat requires that the bridge be installed in order for the Developer to complete construction of the path. The attached Project Overview Map No. 2 and Preliminary Plan & Profile - Bridge No. 2 shows the location, orientation and approximate span of Bridge No. 2 in greater detail.

Bridge No. 2 will be a pre-fabricated steel truss bridge with a concrete deck. Bridge No. 2 will be placed on existing concrete abutments. Steel railings incorporating aesthetic features will extend beyond the abutments for the bridge.

The overall project will be designed and let by City of Madison using local funds. The Consultant will prepare plans, special provisions and estimates for both bridges and those plans, special provisions and estimates will then be inserted into the bidding documents prepared by City Engineering staff. Construction is planned for the spring of 2019.

1.3. Communication and Inquiries

Direct all questions and inquiries to:

1.4. Evaluation of Proposals

Proposals will be reviewed by a Selection Committee chosen by the City Engineer. Proposals will be ranked separately based on qualifications (Section 3.2, questions 1-5) and by costs.

Madison has a local preference purchasing policy that grants a 5% scoring preference for firms based in Dane County. Proposers seeking to obtain local preference must register online prior to the proposal due date at:

<http://www.ci.madison.wi.us/business/localPurchasing/index.cfm>

Qualification factors for rating of Proposals will be weighted as shown.

Company Capability	15%
Project Team	25%
Similar Projects by Company	15%
Similar Projects by Project Engineer	20%
Project Understanding and Approach	20%
Local Preference	<u>5%</u>
 Total	 100%

The Selection Committee will review and rank cost proposals separately. It will select the proposal which best combines the necessary qualifications with value for expenditure of public funds. The Committee will recommend to the City Engineer, who will approve the selection.

1.5. Disclosure of Contract Failures, Litigations

Prior to selection, the City may request that one or more proposers disclose any significant prior or current contract failures, contract breaches or civil or criminal litigations pending within the last three (3) years which involve your firm.

1.6 . Willingness to Execute City Purchase of Services Contract

Firms proposing will be assumed to be willing to execute the standard City of Madison Contract for Purchase of Services. A sample contract is attached to this RFP. Any exceptions to this contract should be stated in the Proposal.

Section 2: Scope of Services

2.1. General Description of Scope

The Contractor shall design and provide plans, details, construction Special Provisions and estimate of probable cost for two (2) new pre-fabricated steel multi-use bridges. The current concept is for two (2) pre-fabricated steel H-section bridges made of unpainted weathering steel. Abutments for Bridge No. 1 will be cast-in-place concrete. Existing concrete abutments will be utilized for Bridge No. 2. Steel railings incorporating aesthetic features will extend beyond the abutments for both bridges.

It is anticipated that the Contractor’s plans and Special Provisions will be inserted into the overall plans, to be let by the City as a single construction contract.

2.2. Field Survey, Alignments, Right of Way and Utilities

Survey data collection has been completed by a consultant for City of Madison. The City will supply the survey data to Contractor as a CADD topographic base map and digital terrain data. The City’s current design software is InRoads / Microstation V8i (Select Series).

City of Madison will design the final horizontal alignment in the areas of the bridges and provide that information to the Contractor. The bridges will be located within City-owned property or on permanent easement.

Existing utilities are shown on the City's topographic mapping based on field locates. The Contractor shall alert the City of any identified discrepancies or omissions and shall identify any suspected conflicts with the proposed structures. The City will conduct the necessary coordination with utilities for any necessary relocations.

2.3. Soil Borings

Soil borings and subsurface investigation will be completed by a separate consultant for the City. This will consist of one deep boring for each new abutment location, with typical soil analysis parameters needed for the structure design. The results of the soils investigation are expected to be available by May 31, 2018.

2.4. Permits

A WDNR Chapter 30 permit will be required for Bridge No. 1 (and minor wetland impacts in other locations of the project). The project also requires a permit, or coverage under a general permit from the USACOE. The City of Madison has applied for these permits and permit approval is expected prior to start of construction. The Contractor will provide the City with plans, elevations, other exhibits or technical data for the bridges as needed in support of the permit applications and/or requests for information by permitting authorities. The City will provide low steel and floodway requirements for the bridges based on existing stream and pond modeling.

2.5. Meetings and Coordination

The City anticipates holding one (1) public information meeting for this project. The Contractor will not be required to attend, but shall provide CADD-based preliminary plans and elevations to the City for use in preparing meeting exhibits. No detailed renderings or visual modeling is required.

The Contractor will attend periodic design review and coordination meetings with the City over the course of the project. It is anticipated this will include up to three (3) progress meetings, one (1) pre-final design review meeting and one (1) pre-construction meeting.

The Contractor will be expected to generally remain in close coordination with the City via periodic phone or emails to insure that the structure designs are properly coordinated with the overall project.

2.6. Shop Drawing Review

It is anticipated that the bridge superstructure will be a pre-fabricated steel truss designed by the bridge supplier. The Contractor shall review shop drawings from the suppliers for conformance with the geometric and loading requirements and general design intent represented in the Contractor's final plans and Special Provisions.

2.7. Construction Phase

City of Madison personnel will provide inspection and supervision during construction. The Contractor will be expected to respond to questions which may arise during construction specifically related to their design work, plans or Special Provisions.

2.8. Design and Plans for Portage Road/Eastpark Path Bridge (Bridge No. 1)

- c. Substructure plans shall consist of all sheets required to detail cast-in-place footings or pile cap, abutments, wing walls, and concrete approach slabs.
- d. It is anticipated that short segments of railing will be required beyond the ends of the pre-fabricated superstructure at all four corners. The Contractor shall design and detail the railings in accordance with general guidelines provided by the City.
- e. The bridge superstructure will be a pre-fabricated half H-shape truss. The deck will be cast-in-place concrete. The top of top chord or a separate railing extending the full length of the bridge shall be a minimum of 48 inches above the deck. Structure shall be designed by LRFD methods for a live load of 90 PSF or an H-10 (20,000 pound) vehicle. The design shall also be checked for the minimum capacity to carry, for single, infrequent trips, a City of Madison “Vactor” truck with a gross weight of 65 kips. City will supply the axle spacing and weight distribution for this vehicle. Clear width on the bridge shall be 14 feet and the span is estimated to be approximately 108 feet.

The phrases "request for proposal," "invitation for bids," "request," "invitation," and "solicitation" shall also be synonymous.
As applied to the winning or selected bidder, the words "bid," "proposal," and "contract" are synonymous.
2. **Entire Agreement, Order of Precedence.** These standard terms and conditions shall apply to any Purchase Order issued as a result of this Request for Bid/Proposal, except where expressly stated otherwise in the RFP or in a written instrument covering this purchase signed by an authorized representative of the City and the Contractor, in a form approved by the City Attorney (a "Separate Contract"). If a Separate Contract is not executed, these Standard Terms and Conditions, the City's request for proposals, the version of the vendor's bid that was accepted by the City, and the City's Purchase Order (if any) shall constitute a contract and will be the entire agreement.
Order of Precedence: If there is a conflict between this Section A and any terms in the vendor's accepted bid or proposal, this Section A shall control unless the parties expressly agree to another order of precedence, in writing. If there is a conflict between this Section A and a Separate Contract, the terms and conditions of the Separate Contract shall control.
- I. TERMS FOR SUBMISSION OF BIDS: The following section applies to the bid/selection process only.**
3. This invitation for bids does not commit the City to award a contract, pay any costs incurred in preparation of bids, or to procure or contract for services or equipment. The bidder shall be responsible for all costs incurred as part of his or her participation in the pre-award process.
The City reserves the right to accept or reject any or all bids submitted, in whole or in part, and to waive any informalities or technicalities which at the City's discretion are determined to be in the best interests of the City. 5. **Price Proposal.** All bidders are required to identify the proposed manufacturer and model, and to indicate the proposed delivery time on the attached Proposal Form. Failure to do so may cause the bid to be considered not responsive. If desired, the bidder may include product literature and specifications. The price quoted will remain firm throughout each contract period. Any price increase proposed shall be submitted sixty (60) calendar days prior to subsequent contract periods and shall be limited to fully documented cost increases to the bidder which are demonstrated to be industry-wide.
