2 DESCRIPTION OF SERVICES/COMMODITIES

2.1 Introduction

The City of Madison Metro Transit Division is requesting proposals for architectural and engineering design services for this project. The Project is an existing building condition assessment, a mechanical, electrical, plumbing systems evaluation, and evaluation of processes and process equipment. It includes an assessment of safety issues, a major capital improvement plan – prioritizing these projects – ranking from non-critical to critical, creating a conceptual phasing plan to determine how improvements would be made while the building is fully-operational, development of a on-going, long-term facility maintenance and capital budget plan, costs estimates for all planned capital improvements and a life-cycle analysis of the improvement(s).

2.2 General Information

Metro Maintenance Facility, located at 1101 E. Washington Avenue in Madison, Wisconsin. The building is around 282,500 square feet on a 10.3 acre site. The Metro Maintenance Facility provides bus operations and repair spaces for approximately 250 City buses and fleet vehicles, as well as administration offices, parts storage, bus fueling and wash. The building site is zoned Commercial, TE (Traditional Employment).

The existing Metro Maintenance Facility located on East Washington Avenue is outdated and undersized for the number of the vehicles being serviced at the property, buses are challenging to maneuver into and throughout the building, and limitations within the existing building make access and maintenance difficult, safety is of utmost concern. Major renovations to, and a maintenance plan for this facility are desired to improve operational efficiencies.

Architectural programming and master planning services for upgrades, modification and an addition to this property were completed in 2006. The completed master plan study includes space needs programming, equipment programming, preparation of various master site plan concepts, conceptual schematic floor plan designs, and preliminary cost estimating. It includes phased facility expansions which will no longer be part of this project. However a portion of the study, Section Four: Facility Assessment will form the basis of work included in this RFP. Copies of the completed master plan study reports, and additional information, can be found on the City's website at <http://www.cityofmadison.com/engineering/projects/metro-bus-barn>.

2.3 Scope of Services

The scope of services for the consultant for this project will include existing facility and safety assessment and evaluation including, the building, MEP systems, spaces and all equipment. Architectural and engineering services will also include pre-design and programming/conceptual services to determine needed major capital upgrades and cost estimating for these upgrades, development of an on-going, long-term, comprehensive facility maintenance plan, and development of a multi-year capital budget plan – including a life-cycle analysis. Architectural and engineering services may include architectural, structural, mechanical (HVAC), and electrical power, lighting, and communications, and similar engineering services.

The existing Metro Maintenance Facility will be analyzed in order to document the condition of the facility and adequacy to meet future needs (at least 20 years). An assessment of maintenance associated with the underlying building conditions - both routine on-going costs and major periodic repairs -- will be a critical component of the assessment. A life-cycle costing methodology is to be used.

The architect consultant shall provide a local Madison area 3rd party general building contractor/cost estimator to prepare construction cost estimating services as the architect's sub consultant. The

construction cost estimates shall be at the component level, organized by CSI division, include quantities and unit costs, and at a level of detail appropriate to the project phase.

The Project is scheduled for 2017.

The City anticipates hiring a consultant in February 2017.

The primary consultant shall be an Architect licensed design professional. A copy of the basic Owner-Consultant (Architect) contract that the City anticipates using for this contract attached as Appendix B. The City does not anticipate making changes to the language in the purchase of services contract.

3.1 Prequalification Requirements

A. Purpose

It is the policy of the U. S. Department of Transportation/Federal Transit Administration (USDOT/FTA) that disadvantaged business enterprises (DBE) as defined in 49 CFR Part 26 shall have the maximum feasible opportunity to participate in the performance of contracts financed in whole or in part with Federal funds. Consequently, the DBE requirements of 49 CFR Part 26 applies to this contract.

B. DBE Obligation

The Contractor agrees to ensure that DBEs as defined in 49 CFR Part 26 have the maximum feasible opportunity to participate in the performance of contracts and subcontracts financed under this project. In this regard, all bidders shall take all necessary and reasonable steps in accordance with 49 CFR Part 26 to insure that DBEs have the maximum feasible opportunity to compete for and perform contracts. The Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of USDOT/FTA-assigned contracts.

C. DBE Utilization Goal

For this contract Madison Metro has assigned a DBE goal of ten percent (10%).

Each bidder shall meet or show adequate good faith efforts to meet the DBE project goal. DBE firms may participate as subcontractors, suppliers or in joint ventures. **The bidder shall meet or exceed or demonstrate that it could not meet the goal despite its best efforts or the bid will be considered non-responsive.**

D. DBE Certification

In order to be considered a DBE firm, the firm must be certified by the Wisconsin Unified Certification Program at the time of bid submittal. The DBE Directory is available at the following link:

<http://wisconsindot.gov/Pages/doing-bus/civil-rights/dbe/certified-firms.aspx>

E. Definitions And Certification Requirements

For the purposes of this program, a Disadvantaged Business Enterprise (DBE) is a small business concern:

Which is at least fifty-one (51) percent owned by one or more socially and economically disadvantaged individuals, or, in the case of any publicly owned business, at least fifty-one (51) percent of the stock of which is owned by one or more socially and economically disadvantaged individuals; and

Whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

The Contract Compliance Officer has a list of DBE firms who are certified as meeting these definitions.

F. Good Faith Efforts/Waiver Of DBE Goal

If a bidder finds it impossible to fully meet the DBE goal of a contract, the bid shall include a signed petition on the bidder's letterhead, for grant of relief from the DBE goal requirements, **accompanied by documentation demonstrating that all reasonable good faith efforts were made toward fulfilling the goal. See Appendix D.5 which must be completed for all Good Faith Efforts Waiver Requests.**

To demonstrate sufficient reasonable efforts to meet the DBE contract goal, a bidder shall document as stated in Appendix D.5 the steps it has taken to obtain DBE participation, including but not limited to the following:

1. Obtaining information about DBEs in specific subcontracting areas by:
 - a. Developing and maintaining the Contractor's own file of certified DBEs;
 - b. Consulting the list of certified DBEs from the Wisconsin Unified Certification Program Directory.
 - c. If necessary, assisting an uncertified firm to obtain certification by the City of Madison Department of Civil Rights. The Civil Rights Department will provide the necessary forms at the bidder's request.
2. Contacting DBEs sufficiently in advance of the bid deadline so that they can prepare a bid and engage in negotiations:
 - a. Advertising in general circulation media, trade association publications, and minority-focus media for at least twenty (20) calendar days before bids are due. If twenty (20) days are not available, publication for a shorter reasonable time is acceptable, and
 - b. Written notification to DBEs that their interest in the contract is solicited.
3. Selecting portions of the work, to be performed by DBEs to increase the likelihood of achieving the DBE project goal.
4. Negotiating directly with DBEs, including DBEs who contact the bidder to volunteer a quote for participating as a subcontractor/sub consultant.
5. Outlining efforts to negotiate with DBEs for specific sub-bids including at a minimum the names, addresses, and telephone numbers of DBEs that were contracted; a description of the information provided to DBEs regarding the plans and specifications for portions of the work to be performed; and a statement of why additional agreements with DBEs were not reached:
 - a. If the DBE is unavailable, a detailed statement from the bidder of the reasons for that conclusion;
 - b. If the bidder considers the DBE to be unqualified, a detailed statement of the reasons for that conclusion;

- c. If the DBE refused to or was unable to offer a price which the bidder could reasonably agree to pay, a detailed statement of the reasons for that decision; and
 - d. Any other reasons why agreements with DBEs could not be reached.
- 6. Efforts made to assist the DBEs contacted with needed assistance in obtaining bonding or insurance required by the bidder or the City.
 - 7. Attendance at the pre-bid conference is not mandatory, but it is recommended.

Bidders that fail to meet DBE goals and fail to demonstrate sufficient reasonable efforts shall not be eligible to be awarded the contract.

A bidder will not be considered to have made a good faith effort to meet the DBE project goal if he or she rejects the bid of an otherwise qualified and competent DBE on the basis of price alone, unless it is shown that no reasonable price can be obtained from a DBE. A DBE's bid for the subcontract will be presumed to be unreasonable if the DBE's price exceeds the average price quoted by more than five (5) percent.

- 8. If a bidder's Good Faith Efforts Waiver is denied by the Department of Civil Rights, the bidder may exercise its appeal rights and submit a written request to the Department of Civil Rights for a reconsideration hearing as provided in Appendix D.6.

G. Counting DBE Participation

A bidder may count towards his or her attainment of the DBE goal only those expenditures to DBEs that perform a commercially useful function. For purposes of evaluating a bidder's responsiveness to the attainment of the DBE goal, the contract participation by a DBE is based on the percentage of the total base bid proposed by the Contractor. The total base bid price is inclusive of all amendments, modifications and change orders.

Work performed by a DBE firm in a particular transaction can be counted toward the goal only if it involves a commercially useful function. As provided in Section 26.55 (c) (1) a DBE performs a commercially useful function if the DBE firm in accordance with industry practices performs a useful role in the transaction. Under Section 26.55 (c)(2) a DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project to enable a prime contractor to pass through funds in order to obtain the appearance of DBE participation. If, in Metro's judgment, the firm does not perform a commercially useful function in the transaction, no credit towards goals may be awarded, and the firm's participation cannot be counted towards the attainment of the DBE Goal.

It should be noted that the question of whether a firm is performing a commercially useful function is completely separate from the question of whether the firm is an eligible DBE. A firm is eligible if it meets the definitional criteria and ownership and control requirements, as set forth in the City of Madison's DBE Program.

The City of Madison (Metro Transit) will determine whether or not a firm is performing a commercially useful function on a project. If the commercially useful function is that of a dealer, then the City of Madison (Metro Transit), in accordance with Section 26.55(e) (2)(i) may count 60% of the value of the product supplied towards the DBE goal.

As provided in Section 26.55 (e)(2)(ii) a regular dealer must be engaged in selling the product in question to the public and must be in regular trade with a variety of customers. This is an important distinguishing characteristic which defines whether or not a firm is acting as a regular

dealer. If a firm performs supplier-like functions on an ad-hoc basis or for only one or two contractors with whom it has a special relationship, the firm will not be performing commercially useful function since it is not considered a regular dealer.

Section 26.55(e)(2)(ii)(A) allows a supplier of bulk goods to qualify as a regular dealer without owning, operating or maintaining a place of business if the supplier both owns and operates distribution equipment for the products. With respect to the distribution equipment; e. g., a fleet of trucks, the term "and operates" is intended to cover a situation in which the supplier leases the equipment on a regular basis for its entire business through a long-term lease agreement and not on an ad-hoc basis by simply providing drivers for trucks owned or leased by another party; e. g., a prime contractor, or leases such a party's trucks on an ad-hoc basis for a specific job.

If the commercially useful function being performed is not that of a regular dealer, but rather that of delivery of products, for example, a business that simply transfers title of a product from manufacturer to ultimate purchaser; e. g., a sales representative who re-invoices a steel product from the steel company to the City of Madison (Metro Transit), or a firm that puts a product into a container for delivery, or a firm that expedites transactions would not be considered a regular dealer under provisions of Section 26.55(e)(2)(ii) (C).

Section 26.55 (e)(3) concerns the use of services that help the City of Madison (Metro Transit) obtain needed supplies, personnel, materials or equipment to perform a portion of the contract. If a DBE is acting as a broker or manufacturer's representative in the procurement of supplies, facilities, or materials, etc., only the fee received by the service provider could be counted toward goals. For example, use of a minority sales representative or distributor for a steel company, if performing a commercially useful function at all, would entitle the City of Madison (Metro Transit) receiving the steel to count only the fee paid to the representative or distributor toward the goal.

A similar provision contained in Section 26.55 (a)(2) would also govern fees for professional, technical, managerial and other services obtained expressly and solely to perform work relating to a specific contract or program function such as procurement of personnel. The counting rules of 49 CFR Part 26.55 (a)(2) would apply and only the commission will be counted towards the DBE goal.

Section 26.55 (a)(2) requires the application of the same principle to bonding and insurance matters. Contractors often are required to obtain bonding and insurance concerning their work in USDOT-assisted contracts. When a contractor obtains a bond or an insurance policy from a DBE agent, the amount allowable toward goals is not any portion of the face value of the policy or bond or the total premium, but rather the fee received by the agent for selling the bond or insurance policy.

Section 26.55(d) concerns credit for participation by trucking firms and management of transportation services. If a DBE trucking company picks up a product from a manufacturer or regular dealer and delivers the product to the City of Madison (Metro Transit), the commercially useful function it is performing is not that of a supplier, but simply that of a transporter of goods. Unless the trucking company is itself the manufacturer or a regular dealer in the product, credit cannot be given based on a percentage of the cost of the product. Rather, credit would be allowed for the cost of the transportation service.

The City is aware that the rule's language does not explicitly mention every kind of business that works in USDOT/FTA financially assisted programs. In administering 49 CFR Part 26, the City will, on a case-by-case basis, determine the appropriate regulatory provision to apply in a particular situation.

I. DBE Award Notification

Whenever a prime Contractor is awarded a contract by the City of Madison (Metro Transit), the DBE subcontractor will be notified in writing by the DBE Liaison Officer that a contract has been awarded in which they were identified as a DBE subcontractor. A copy of the Letter of Notification will also be sent to the prime Contractor and the Transit General Manager.

3.2 Requirements of a Successful Bidder

A. DBE Substitutions

Arbitrary changes by the Contractor of DBEs identified in his or her bid is strictly prohibited. Further, without prior approval by the DBE Liaison Officer, the Contractor may not terminate a subcontract agreement, reduce the scope of work nor decrease the proposed price to the DBE.

In instances where the Contractor finds it necessary to request substitution of a DBE for reasons such as default on the part of the DBE or poor work performance, the Contractor shall submit, in writing, to the DBE Liaison Officer, the reasons justifying release of prior approved DBEs and receive approval from the City of such change prior to subcontracting with another certified DBE.

The Contractor's notification shall, follow prior notice to the DBE proposed for termination (with a copy to the DBE Liaison Officer) including the specific reasons for the proposed substitution and in accordance with 49 CFR § 26.53(f). Stated reasons which would be acceptable include any of the following examples:

1. A previously committed DBE was found not to be able to perform;
2. A committed DBE was found not to be able to produce acceptable work;
3. A committed DBE was later discovered not to be bona fide; and
4. A DBE previously committed to a given price later demands an unreasonable escalation of price.

The Contractor's position in these cases shall be fully explained and supported with adequate documentation. Stated reasons which will not be acceptable include:

1. A replacement firm has been recruited to perform the same work under terms more advantageous to the Contractor;
2. Issues about performance by the committed DBE were disputed (unless every reasonable effort has already been taken to have the issues resolved or mediated satisfactorily); and
3. DBE has requested reasonable price escalation which may be justified due to unforeseen circumstances; i. e., change in scope of DBE's work.

The Contractor's notification should include the name, address, and principal official of any proposed substitute DBE and the dollar value and scope of work of the proposed subcontractor. The same DBE affidavits, documents, and Letter of Intent which are required of bidders should be attached.

The DBE Liaison Officer will evaluate the submitted documentation and respond within fifteen (15) working days to the request for approval of a substitution. The response may be in the form of requesting more information, or requesting an interview to clarify or mediate the problem. The response may also be in the form of a rejection of the proposed DBE substitution with the reasons therefore included in the City's response. In the case of an expressed

emergency need to receive the necessary decision for the sake of job progress, the City will instead respond as soon as practicable.

Actual substitution of a DBE to fulfill contract requirements should not be made prior to City approval. Once notified of City approval, the substitute DBE subcontract shall be executed within five (5) working days, and a copy of the DBE subcontract, with signatures of both parties to the agreement, should be submitted to the DBE Liaison Officer.

The City will not approve extra payment for escalated costs incurred by the Contractor when a substitution of subcontractors becomes necessary in order to comply with DBE contract requirements.

In the case where an enterprise under contract was previously considered to be a DBE but is later found not to be, or whose work is found not to be creditable toward the DBE goals fully as planned, the City will consider the following criteria in evaluating a waiver request:

1. Whether the Contractor was reasonable in believing the enterprise was a DBE or that eligibility or "counting" standards were not being violated, and
2. The adequacy of unsuccessful efforts taken to obtain a substitute DBE.

B. Contract Monitoring

To ensure DBE compliance on all contracts regardless of dollar amount, the DBE Liaison Officer will contact the Contractor and the DBE subcontractor when the project reaches the 50% mark of completion. The Contractor will receive a request for status of DBE subcontractor payment. The request will identify the names of DBEs proposed by the Contractor, the proposed goods or services the DBE subcontractor was to provide and the proposed subcontracted DBE dollar amount. The Contractor will be requested to supply, within ten (10) working days, proof of payment for each of the DBEs listed in order to verify the year-to-day DBE participation.

The DBE subcontractor will be requested to provide an affidavit for DBE subcontractor participation/payment attesting to the work performed and the amount paid to date to the subcontractor.

C. Non-Compliance And Liquidated Damages

The City shall have the discretion to apply suitable sanctions to the Contractor if the Contractor is found to be in non-compliance with the DBE requirements. Failure to comply with the DBE terms of a contract or failure to use DBEs as stated in the Contractor's bid constitutes a material breach of this contract, and may lead to the suspension or termination of this contract in whole or in part; furthermore, continued eligibility to enter into future contracting arrangements with the City of Madison (Metro Transit) may be jeopardized as a result of non-compliance. In some cases, monthly progress payments may be withheld until corrective action is taken.

Therefore, in such cases of non-compliance, the City will deduct as liquidated damages cumulative amounts computed as follows: for each one (1) percent (or fraction thereof) of shortfall toward the DBE goal, one (1) percent of the base bid for this contract shall be surrendered by the Contractor to the City in payment as liquidated damages, if such damages are assessed.

When work is completed, in the event that the City has determined that the Contractor was not in compliance in the fulfillment of the required DBE goals, and a grant of relief of the

requirements was not obtained, the City will thereby be damaged in the failure to provide the benefit of participation to DBEs to the degree set forth in the contract.

D. Opportunities For The Use Of Banks Owned & Controlled By DBEs

The City of Madison encourages its prime contractors to use banks owned and controlled by minorities and women in Wisconsin whenever feasible.

E. Prompt Payment Requirement

The contractor is required to pay its subcontractors performing work related to this contract for satisfactory performance of that work no later than 30 days after the contractor's receipt of payment for that work from the City of Madison, as provided for in 49 CFR Part Section 26.29. In addition, the contractor is required to return any retainage payments to those subcontractors within 30 days after the subcontractor's work related to this contract is satisfactorily completed.

4 PROPOSAL EVALUATION AND SELECTION

To be considered complete, RFP's shall include all required submittals listed in the checklist (Form B) and shall be signed and dated. In the event that all proposers do not meet one or more of the requirements, the City of Madison reserves the right to continue the evaluation of the proposals that most closely meet the requirements of this RFP.

Proposers shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing Proposers. If best and final offers are requested, they will be evaluated against the stated criteria, scored and ranked. The City reserves the right to negotiate the terms of the contract, including the award amount, with the selected proposer(s) prior to entering into a contract. If contract negotiations cannot be concluded successfully with the highest scoring proposer(s), the City may negotiate a contract with the next highest scoring proposer.

4.4 Clarification of Proposals

During the evaluation of proposals, the City reserves the right to contact any or all Proposers to request additional information for purposes of clarification of RFP responses, reject proposals which contain errors, or at its sole discretion, waive disqualifying errors or gain clarification of errors or information.

4.5 Consideration of Proposals

In making their selection under this RFP, the City and the RFP Selection Panel will consider the submittals, consultant interviews, general qualifications, prior history of performance as well as the selection criteria set forth in this RFP.

4.8 Communication with Selection Committee

Proposers may not contact members of the Selection Committee at anytime during the evaluation process, except at the City of Madison Purchasing request.

4.9 Basis for Evaluation and Award

The City will have sole discretion as to the methodology used in making the award. The award will be made to the responsible and responsive Proposer who offers the best combination of addressing the following criteria.

The following criteria will be used to evaluate the proposals. The criteria are listed in order of importance but some criteria may not be given equal weight:

- Approach to Facility Assessment and Evaluation
- Approach to Facility Maintenance Plan
- Sub-consultants
- Approach to Capital Budget Plan

4.10 Conditional Proposal

Conditional proposals, which contain exceptions to the scope of work attached hereto, may be considered nonresponsive and may be rejected. Note that volume pricing shall be considered as a conditional proposal.

4.11 Price and/or Cost Analysis

The City reserves the right to conduct a price and/or cost analysis to determine if the price is fair and reasonable. If only one responsive proposal is received, a detailed price and/or cost analysis may be requested of the single proposer. The second form will be submitted to the Department no later than one year after the date on which the first form was required to be provided.

The Contractor further agrees that, for at least twelve (12) months after the effective date of this Contract, it will notify the Department of each of its job openings at facilities in Dane County for which applicants not already employees of the Contractor are to be considered. The notice will include a job description, classification, qualifications, and application procedures and deadlines, shall be provided to the City by the opening date of advertisement and with sufficient time for the City to notify candidates and make a timely referral. The second form will be submitted to the Department no later than one year after the date on which the first form was required to be provided.

The Contractor further agrees that, for at least twelve (12) months after the effective date of this Contract, it will notify the Department of each of its job openings at facilities in Dane County for which applicants not already employees of the Contractor are to be considered. Under public works contracts, if a subcontractor is in noncompliance, the City may recover liquidated damages from the prime Contractor in the manner described above. The preceding sentence shall not be construed to prohibit a prime Contractor from recovering the amount of such damage from the noncomplying subcontractor.

ARTICLE VIII

(This Article applies to public works contracts only.)

The Contractor shall take such action with respect to any subcontractor as necessary to enforce such provisions, including sanctions provided for noncompliance.

APPENDIX C: PROCUREMENT PROTEST PROCEDURE

In response to Federal Transit Administration (FTA) Circular 4220.1F, "Third Party Contracting Guidelines," it is Metro Transit's policy to consider all protests or objections regarding the award of a contract, whether submitted before or after award. Furthermore, this procedure shall be included or referenced in all solicitation documents. If referenced, the procedure shall be provided immediately upon request, barring copying restrictions.

PROTESTS

Any protests by an interested party i.e., Offeror or adversely affected sub-contractor; regarding this procurement shall be made in accordance with the procedures listed below. After such administrative remedies have been exhausted, an interested party may file a protest with the Federal Transit Administration (FTA) of the U.S. Department of Transportation pursuant to the procedures provided in FTA C 4220.1F. Allegations of violations of certain federal requirements may require the use of a separate complaint procedure. See, for example, Buy America Requirements, 49 CFR 661 (Section 661.15) and Participation by Disadvantaged Business Enterprise in Department of Transportation Programs, 49 CFR 26 (Section 26.101). Failure to comply with the procedures, listed below, will render a protest untimely and/or inadequate and shall result in its rejection.

Pre-award Protests Protest Procedure

In all cases, the services, equipment, parts, or materials furnished under a contract shall fully comply with the plans, specifications, and scope of services attached to the request for proposals.

All pre-proposal or pre-award protests by interested parties, based upon restrictive or unclear scopes of work, the procurement process, alleged improprieties, or similar situations shall be received by Metro Transit, in writing, at the address listed in the solicitation document. If the protest is made orally, timely written confirmation of the protest shall be required. Any protest must be fully supported with technical data or other pertinent information as evidence. Metro Transit will not consider a protest, if it is insufficiently supported or if Metro Transit does not receive it within the specified time limits.

With respect to any protest considered by Metro Transit, the Project Administrator will respond in detail to each substantive issue raised. This written response will be postmarked or transmitted at least five (5) business days prior to the bid/proposal due date.

Pre-award Protests Appeals Procedure

An Offeror or an adversely affected subcontractor is eligible to file an appeal from the decision of Metro Transit's Project Administrator. All appeals shall be filed, in writing, not more than five (5) business days from the date of determination, by 4:30 PM local time, with the Transit Service Manager, at 1245 East Washington Ave., Suite 201, Madison, WI 53703 or FAX 608/267-8778. At minimum, the appeal shall include the name and address of the appellant; the telephone and FAX numbers of the appellant; the action, which is the subject of the appeal; the reason for the protest; and a statement of the remedy sought.

With respect to any protest considered by Metro Transit, the Transit Service Manager will respond in detail to each substantive issue raised. Metro Transit's final decision will be postmarked not less than five (5) business days prior to the bid/proposal due date.

Award Protest Procedure

An Offeror or an adversely affected subcontractor may protest the selected, responsible Offeror designation of any individual or organization by Metro Transit. All protests shall be filed, in writing, within five (5) business days of the bid award, by 4:30 PM local time, with the Transit General Manager, at 1245 East Washington Ave., Suite 201, Madison, WI 53703 or FAX 608/267-8778.

At a minimum, the protest shall include the name and address of the protesting party; the telephone and FAX numbers of the protesting party; the action, which is the subject of the protest; the reason for the protest; and a statement of the remedy sought. The letter should include all information available to the protestor relevant to a determination of whether the protested party is in fact the selected, responsible Offeror. The protest should be specific.

Metro Transit will not consider a protest, if it is insufficiently supported or if it is not received within the specified time limits.

The Transit General Manager shall determine, on the basis of information provided by the protestor, whether there is reason to believe that the protested party should not have been awarded the contract.

If the Transit General Manager determines that there is no reason to believe that the protested party should not have been awarded the contract, Metro Transit shall so inform the protestor in writing. In this letter, Metro Transit shall respond, at least generally, to each material issue raised in the protest.

If the Transit General Manager determines that there is reason to believe that the protested party should not have been awarded the contract, Metro Transit shall begin a proceeding to re-evaluate the bid/proposal award.

Metro Transit shall notify all involved or affected Offerors, in writing, that the contract award has been protested. The notice may identify the protesting party and summarize the grounds for protest. The notice shall also require the protested party to provide Metro Transit, within a reasonable period of time, any information necessary to permit Metro Transit to evaluate the protested party's designation as the selected, responsible Offeror.

The Transit General Manager shall evaluate the information available and make a determination. Metro Transit shall notify the parties of this determination in writing, within ten (10) business days of the conclusion of the determination, setting forth the reason for the determination.

In the event the Transit General Manager determines that the protested party should not have been awarded the contract, Metro Transit, at its discretion, may re-evaluate the evaluation process with the remaining Offerors or re-announce the RFP.

Award Protest Appeals Procedure

Any aggrieved person who was a party to the above award protest, or any person who possesses a direct financial interest in the determination, is eligible to file an appeal.

All appeals should be filed, in writing, within five (5) business days of the date of determination, during normal working hours, with the City Comptroller, City of Madison, 210 Martin Luther King Jr. Blvd., Room 406, Madison, WI. 53710 or FAX 608/267/8705.

At minimum, the appeal shall include the name and address of the appellant; the telephone and FAX numbers of the appellant; the action which is the subject of the appeal; the specific reason for the appeal; a statement of the remedy sought; and a copy of Metro Transit's determination. The City Comptroller will not consider a protest, if it is insufficiently supported or if it is not received within the specified time limits.

Upon receipt of an appeal, the City Comptroller shall fix a place, date, time, and designated officer to investigate the appeal, which shall be within five (5) business days of the date of receipt of the appeal.

The designated officer shall serve notice in writing, by telephone, or by other satisfactory means, to inform the parties of any information needed from them in order to respond to the appeal.

Within ten (10) business days of the conclusion of the review, the City Comptroller shall prepare a factual summary of the review and a final determination. In the report, all material issues raised in the protest shall be addressed in detail. This report shall be delivered to Metro Transit, with copies to the parties. This determination shall be final.

FTA Oversight

FTA will only review protests that allege failure of the City of Madison (Metro Transit) to have written protest procedures or failure to follow such procedures, or its failure to review a complaint or protest; or violation of Federal Law or regulations. A protest to the USDOT/FTA must be filed in accordance with FTA Circular 4220.1F., currently in effect or amended time to time.

Alleged violations on other grounds, to the extent that they are justifiable, are under the jurisdictions of the appropriate federal, state or local administrative or judicial authorities. A concurrent copy of the protest must be sent to Madison Metro Transit.

The USDOT/FTA's remedy for City's failure to have written protest procedures or failure to follow such procedure is limited to requiring the City of Madison (Metro Transit) to develop such procedures, if necessary, and to follow such procedures in reviewing the protest at issue if Metro Transit desires USDOT/FTA financial participation in the contract in question.

Appellants shall file a protest with the USDOT/FTA not later than five (5) business days after the appellant knows or has reason to know of the violation.

In general, the protest filed must include the name and address of the appellant; identify Metro Transit, the project (grant) number, and the number of the contract solicitation; contain a statement of the grounds for the protest and any supporting documentation; and a copy of the local protest filed with the City of Madison and a copy of City's decision, if any.

Post-Award Procedure

The City of Madison shall not award a contract for five (5) business days following its decision on a procurement protest or if a protest has been filed with the FTA, during the pendency of that protest, unless Madison Metro Transit has determined that:

1. The items or services to be contracted for are urgently required;
2. Delivery or performance will be unduly delayed by failure to make the award promptly; or
3. Failure to make prompt award will otherwise cause undue harm to the Madison Metro Transit or the Federal Government.

In the event that City of Madison (Metro Transit) determines that the award is to be made during the five (5) business day period following the local protest decision or the pendency of a protest, the project file shall be documented by Metro Transit, explaining the basis for the award. In addition, Metro Transit shall notify the FTA prior to making such an award. Written notice of the decision to proceed with the award shall also be sent to the protester and all other interested or aggrieved parties, including the selected Offeror.

Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information, the Contractor shall so certify to the City or to the USDOT/FTA, as appropriate, and shall set forth what efforts it has made to obtain the information.

6. Incorporation of Provisions: The Contractor shall include the provisions of this entire section entitled "Civil Rights" in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Contractor shall take such action with respect to any subcontract or procurement as the City or the USDOT/FTA may direct as a means of enforcing non-compliance. Provided, however, that in the event a Contractor becomes involved in, or is threatened with litigation with a subcontractor or supplier as a result of such direction, the Contractor may request the City to enter into such litigation to protect the interest of the United States.

7. Penalties: Failure by the Contractor to carry out these requirements is a material breach of the Contract, which may result in the withholding of payments to the Contractor under the contract until the Contractor complies; cancellation, termination or suspension of this Contract; ineligibility for future Contracts; or such other remedy as the City or USDOT/FTA deems appropriate in order to assure compliance with applicable civil rights standards as required by law.

7. Disadvantaged Business Enterprise:

The Contractor shall carry out applicable requirements of 49 C.F.R. Part 26 in the award and administration of any subcontracts entered into in its performance of this contract.

c. Penalty: Failure by the Contractor or its subcontractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or such other remedy as the City deems appropriate.

8. Reservation of the Right to Inspect Work: At any time during normal business hours and as often as the City may deem necessary, the Contractor shall permit the authorized representatives of the City to review and inspect all materials and workmanship at anytime during the duration of this proposed contract, provided, however, the City is under no duty to make such inspections, and any inspection so made shall not relieve the Contractor from any obligation to furnish materials, workmanship or professional services strictly in accordance with the instructions, Contract requirements and specifications.

9. Audit and Inspection of Records:

a. The Contractor shall maintain intact and readily accessible all data, documents, reports, records, Contracts, and supporting materials relating to this proposed contract during the course of this contract and for three (3) years after City makes final payments and all other pending matters are closed.
