PUBLIC MEETING: SITING A REPLACEMENT WELL FOR WELL 3

Project Description:

The East Side Water Supply project reviewed the long term drinking water supply needs of the east side. The study recommended that Well 3 be replaced to ensure adequate water supply to the east side for long term domestic water supply needs and community fire protection.

Next Steps:

The first step in the process is to conduct a property search considering land use and system needs.

Study Area:

Generally from the Yahara River on the west to I-90 on the east, to Northport Drive on the north to Cottage Grove Road on the south.

A quorum of the Water Utility Board may be present at this meeting.
