The City of Madison, in partnership with the University of Wisconsin-Madison, is developing design plans for the reconstruction of the 700 & 800 Blocks of State Street and Library Mall. The focus of the design is to create a special place at the intersection of two recently constructed iconic Madison corridors, State Street and East Campus Mall.

The meeting will begin promptly at 7 pm with a short presentation outlining the history of the space, current and future development planned around the space, and the role of stakeholder input in the process the design team will use to design the space. The public will be provided opportunity to comment and give input on how they use and view this special place in Madison.

Persons who would like more information, are unable to attend the meeting, or have written comments regarding the project can contact Jason DiPiazza at MSA Professional Services:
