How to Connect to VPN

NOTE: You must have a certificate installed on your CITY-owned laptop/tablet <u>prior</u> to using VPN. The certificate has to be installed while your computer is connected to the City network. The certificate is setup per user, per computer, so even if you have used VPN previously on one computer, you will need a certificate installed on any additional computer you may use.

If you need a certificate installed on your device, please contact the Helpdesk. Otherwise, you can follow the steps below to connect.

1. Go to <u>https://myvpn.cityofmadison.com</u> or double-click on your desktop shortcut that should look something like this:

2. You should see a "Confirm Certificate" dialogue box > Click OK

Windows Security				
Confirm Certificate				
Site myvpn.cityofmadison.com needs your credentials:				
	ittlm@cityofmadison.co	om		
L	Issuer: City Of Madison Root CA1			
	Valid From: 1/28/2019 to 1/10/2021			
	Click here to view certificate properties			
-				
	OK	Cancel		

3. Once you click OK, you should see the login screen. Your username and password are your network credentials – the same username and password you use to login to your computer.

<u>()</u>	Login			
Please enter your username and password.				
GROUP:	CityEmployee	~		
USERNAME:				
PASSWORD:				
	Login			

4. Once you login, you will see the box below; click "Continue"

WARNING: This is a private network. Unauthorized access is prohibited. Unauthorized attempts to access or login, will be reported to law enforcement authorities. Use of this system constitutes your consent to interception, monitoring, and recording for official purposes of information related to such use, including criminal investigations.
Cancel Continue

5. Once you're successfully connected, you should see the following message:

6. You can now close the webpage.
