Strand Associates, Inc.—Jon Lindert (*UW-Madison*)  
Town & Country Engineering, Inc.—Brian Berquist, John Jenkins (*Shorewood Hills, McFarland*)  
Vierbicher Associates, Inc.—Sarah Church (*Town of Middleton, DeForest*)

### **RE: MINUTES for the Madison Area Municipal Storm Water Partnership Meeting**

**DATE:** May 3, 2011

**TIME:** 1:00 PM

**LOCATION:** DANE COUNTY FEN OAK RESOURCE CENTER - 1 FEN OAK COURT

(Note: some agenda items were taken out of order)

1. Dane County Stormwater Ordinance changes  
Josh Harder, Dane County LCD, gave a quick summary of the updates to the Dane County ordinance. The Dane County Board recently adopted an ordinance amendment regarding the Infiltration Standard in Chapter 14 of the Dane County Code of Ordinances. The amendment creates a uniform 90% predevelopment infiltration requirement for all sites, regardless of use. This ordinance change was effective county-wide March 16th, 2011.

Municipalities are expected to enforce this ordinance immediately and to update their own ordinances as soon as possible. When municipalities make these changes to reflect the county

update, they should also be sure to include changes to NR151 language regarding in-fill development and road reconstruction requirements.

[It is available online:  
<http://danedocs.countyofdane.com/webdocs/PDF/coboard/OA331011.pdf>]

2. At this time, DNR staff is unable to make any assumptions regarding the status of the 40% TSS removal requirements by MS4 communities. However, “there is language in the current budget that appears to be targeting the 40% TSS reduction in MS4 communities, but [DNR staff] hopes to get clearer language in the future.” Therefore, until further notice, municipalities should operate like the 40% reduction requirement is not changing or being delayed.
3. The current rumor that new NR151 language may prohibit more restrictive local codes cannot be confirmed or denied at this time.
4. Status and requirements of Rock River TMDL  
Various interest groups have formed within the Rock River Recovery Plan group, though not every group has met at this time. Several members of MAMSWaP plan to attend the municipal sector meetings when they are held.

No responses to public comments on the current TMDL language have been posted. It is possible that another round of public listening sessions will be held before finalizing the language.

5. Marcia Hartwig will submit the Information & Education update separately.
