Comments:

- Indian Hills is too close to traffic on University Ave, so I'm hesitant to grow food due to pollution
- Do NOT turn Indian Hills Park into garden plots. People can garden in their yards. Leave open space for all to use as a park. Turning Indian Hills into garden plots is NOT progress
- All three locations would be important
- I prefer another park over Indian Hills. The traffic doesn't seem suitable for area
- I prefer Indian Hills, but will take what I get

Question 6: Bordner, Indian Hills, and Rennebohm Parks are feasible sites for a community garden. The locations and sizes for consideration should not require removal of park amenities but in some cases the amenities would need to be relocated to accommodate the garden. It is anticipated that access to water can be provided. Please describe pros and cons for establishing a community garden at these city parks. Please comment on accessibility, parking, or other barriers that would need to be addressed. (200 character limit). Total respondents (n=109)
