

Albany, NY

What is your total fixed-route bus fleet size?	Approximately 250
What mix of heavy-duty bus sizes do you use?	Six 30 ft, the rest are 40 ft
Do you use non-heavy duty buses in your fixed-route bus fleet?	We use 18 shuttle type (body on chassis such as IHC) buses and 32 cutaways (fords) for paratransit
Has your transit system done a study on proper fleet size (i.e. 40 foot vs. smaller options)?	No. However, we are looking to utilize 30ft buses in place of shuttle type, assuming similar maneuverability with greater seating capacity.
Does your system have a “Friends of Transit” or a similar organization that helps with fund-raising and awareness of transit in your community?	Not at this time
Does your system use non-traditional revenue sources to help fund the system, such as parking revenues?	Advertising on buses and shelters, local agreements with universities.
