**Subject:** Grandview commons town Center

I just received a flyer on my mailbox depicting a proposed town Center. No where does it say who produced this piece of paper so I cannot question them. there is no time frame mentioned anywhere, Has someone agreed to this? who is building it? when? I thought all this land was still zoned for agriculture only and zoning changes would have to be made. the grocery store is still a major concern for everyone around here. The one proposed is way too big for the area. My neighbors and I thought that it was going to be th size of a Quick Trip which the neighborhood could handle. What is on the table is too hug e and not even needed. A Sentry store is down the hill less than 2 miles and a Piggley Wiggley is out in Cottage Grove about 5 miles out. And then there's a Woodmans over by the Post Office and another one out Sprecher Rd. in Sun Prairie, 5 miles away. who even thought up this not needed idea? My alderperson is handing out misinformation about meetings and is not listening to the neighborhood anymore so we have a problem. Help!
