**Subject:** LRTP Committee Meeting / Grandview Commons

Hello Long Range Transportation Planning Committee Members: My name is Dean Matuszak, resident of Grandview Commons, and I am opposed of the amendments place before you tonight on December 15, 2011, regarding Grandview Commons.

I oppose this because of the increased traffic this size of store will bring through our subdivision and on Sharpsburg. We also will be faced with congestion on Cottage Grove Road. As you may be aware roundabouts control traffic not pedestrians, with a number of them throughout Grandview Commons, and the increase of vehicular traffic, scares my family as we walk throughout the neighborhood. All because the Grandview Commons was not designed to handle the volume of traffic brought by a big box store.

Furthermore, having three of Roundy's semis and ten to fifteen other semis/large trucks per day turning passed the proposed library site will cause another potential danger to our smallest residents.

Sincerely,

Dean Matuszak 738  
McLean Drive
