Proposal

As a resident in this area, living on Malvern Hill Drive, I strongly oppose the implementation of such a large store in this area. I believe that many people will not have access to this store as bus service is not available in this area and we have a large grocery store at Woodmans. A lot of people would lose the ability to walk to a grocery store such as Sentry which would most certainly not survive with the advent of another large grocery store in the area. This plan also contradicts the objectives, goals and policies contained in the City's Comprehensive Plan and will have an adverse effect on our community.
