To: Waidelich, Michael Subject: Grandview Commons

To Whom It May Concern:

I am writing in regard to the proposed grocery store development in Grandview Commons. This is a new and vital neighborhood surrounding this proposed site and a grocery store and other amenities would be a welcome addition. There is a large population within walking distance in the various housing developments and most would welcome a store nearby. I live in the new independent living facility (The Arbors) that is a part of Oak Park Place and everyone here would welcome a store within walking distance or a short ride by our bus.

I'm sure that most people would welcome a grocery store somewhere but "not in their back yard"! This Grandview Commons parcel of land is an ideal location and with proper landscaping would be a fine asset to this area. I feel that with careful planning and supervision t this location could be an viable location for most everyone in the east wide of Madison. I wish that those opposed to this store would walk the proposed site, as I have done, and visualize how a commercial building could be incorporated into this site. I urge you to vote for the issuing of a permit for the grocery store to be built in Grandview Commons.

Sincerely,
