

Hoyt Park Area Joint Neighborhood Plan Neighborhood Walkabout Worksheet

One of the best ways to learn more about a neighborhood is to explore it on foot. Please explore the neighborhood, either with a group or on your own, record your observations and ideas, and provide this worksheet to your guide, or mail/deliver it to Jason Valerius at 232 West Sunset Ct. *Worksheets are due by October 17.*

Members of the Planning Committee will be leading the following group walkabouts:

- Sunday, September 18, 4:00 PM, meet at Mineral Point and Glenway in front of Moore's Service (Judy Olson)
- Thursday, September 22, 6:00 PM, meet at the corner of Hillcrest Dr. and Owen Dr. (Jason Valerius)
- Saturday, September 24, 8:30 AM, meet at Lucia Crest Park at the drinking fountain (Ray White)
- Saturday, September 24, 10:00 AM, meet at the corner of Bluff Street and Palamino Lane (Ray White)
- Sunday, September 25, 1:00 PM, meet in front of Hoyt School (Glenn Christians)
- Monday, September 26, 5:30 PM, meet at Regent St. and Midvale Blvd, fire station corner (Jean MacCubbin)
- *[no host yet]* Tuesday, September 27, 5:30 PM, meet at the corner of Chamberlain Ave. and Franklin Ave.

You may focus on the areas you see during your walkabout, and you may also describe other parts of the neighborhood with which you are familiar.

And bring a camera! We're collecting a photo inventory of the neighborhood, and we'd like more material. See <http://www.vanchamasshe.org/photo-galleries/hoyt-park-area-neighborhood-inventory/> for instructions on how to submit photos.

- 1) Our neighborhood is constantly changing in small ways, including renovations and expansions of single-family homes. Identify some examples of home additions that you like, that you think are appropriate to the home and to the neighborhood. Provide an address and/or a picture if you can. What do you like about these additions?

Also, find additions that you don't like as well and describe what you don't like about them.

- 2) Identify any places in the neighborhood that you especially like, or that you think makes the neighborhood special or unique. Describe what and why you like this place.
