RE: Approval of a conditional use to allow construction of personal storage facility at 7065 Manufacturers Drive (Don Stenbroten).

Dear Mr. Klaas;

At its August 11, 2014 meeting, the Plan Commission found the standards met and **approved** your client's conditional use for a personal storage facility at 7065 Manufacturers Drive subject to the conditions of approval in the following sections, which shall be satisfied prior to issuance of building permits for the project.

Please contact Janet Schmidt of the City Engineering Division at 261-9688 if you have questions regarding the following ten (10) items:

1. Obtain a permit for private storm sewer work within the adjacent public storm pond parcel.
2. The applicant shall provide a plan for sanitary sewer lateral if the office is to have a bathroom.
3. The applicant shall replace all sidewalk and curb and gutter abutting the property, which is damaged by the construction, or any sidewalk and curb and gutter that the City Engineer determines needs to be replaced because it is not at a desirable grade regardless of whether the condition existed prior to beginning construction.
4. All damage to the pavement on Manufacturers Drive adjacent to this development shall be restored in accordance with the City's Pavement Patching Criteria.
5. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 7.5-tons per acre per year.
6. For commercial sites less than 1 acre in disturbance, the City of Madison is an approved agent of the Department of Commerce and Wisconsin Department of Natural Resources (WDNR). As this project is on a site with disturbance area less than 1 acre and contains a commercial building, the City is

authorized to review infiltration, stormwater management, and erosion control on behalf of the Department of Commerce. No separate submittal to Commerce or the WDNR is required.

7. Prior to final approval, this project shall comply with Chapter 37 of the Madison General Ordinances regarding stormwater management. Specifically, this development is required to provide infiltration in accordance with Chapter 37 of the Madison General Ordinances and complete weekly self-inspection of the erosion control practices and post these inspections to the City of Madison website as required by Chapter 37 of the Madison General Ordinances.
8. The applicant shall submit, prior to plan sign-off, digital PDF files to the City Engineering Division. The digital copies shall be to scale, shall have a scale bar on the plan set, and shall contain the following items: building footprints; internal walkway areas; internal site parking areas; lot lines and right-of-way lines; street names, stormwater management facilities and; detail drawings associated with stormwater management facilities (including if applicable planting plans).
9. The applicant shall submit prior to plan sign-off, electronic copies of any Stormwater Management File including: SLAMM DAT files; RECARGA files; TR-55/HYDROCAD/etc., and; sediment loading calculations. If calculations are done by hand or are not available electronically the hand copies or printed output shall be scanned to a PDF file and provided.
10. The site plan shall be revised to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service.

Please contact Eric Halvorson of the Traffic Engineering Division at 266-6527 if you have any questions regarding the following four (4) items:

11. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including 2 feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.
12. The developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
13. The City Traffic Engineer may require public signing and marking related to the development; the developer shall be financially responsible for such signing and marking.
14. All parking facility design shall conform to the standards in MGO Section 10.08(6).

Please contact Dennis Cawley of the Madison Water Utility at 261-9243 if you have any questions regarding the following item:

15. Note: All operating private wells shall be identified and permitted and any unused private wells shall be abandoned by the Madison Water Utility in accordance with MGO Section 13.21.

Please contact my office at 261-9632 if you have any questions about the following three (3) items:

16. The site plan shall be revised prior to issuance of permits to include the lot coverage for the project per the definition for lot coverage in Section 28.211 of the Zoning Code.
17. The building plans shall be revised prior to issuance of permits to clearly identify all of the materials to be used on both buildings.
18. That the landscaping plan be revised prior to issuance of permits to include the planting of at least one over-story deciduous tree at the rear of Building 2 to enhance the appearance of the site from Interstates 39-90-94 as generally recommended by the adopted neighborhood development plan.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. After the plans have been revised per the above conditions, please file complete, fully dimensioned, and to-scale plans, the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, Room LL-100, Madison Municipal Building, 215 Martin Luther King, Jr. Boulevard. The sets of final revised plans or documents will be circulated by Zoning staff to the City department staff listed above for their final approval. **The number of sets required and fee due will be determined by Zoning staff [LNDSPP-2014-00041].**
2. This letter shall be signed by the applicant and property owner (if not the applicant) to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting building permit approval.
3. Approval of the plans for this project does not include any approval to prune, remove or plant trees in the public right of way. Permission for such activities must be obtained from the City Forester, 266-4816.
4. No alteration of this proposal shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may issue permits for minor alterations. No alteration of a conditional use shall be permitted unless approved by the Plan Commission provided, however, the Zoning Administrator following consideration by the alderperson of the district, may approve minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the Plan Commission and the conditional use standards. This approval shall become null and void one (1) year after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within 6 months of the issuance of said building

permit. Where the plans have not been altered from the Plan Commission's approval, and the conditional use has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved conditional use permit.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

Timothy M. Parks
Planner

cc: Janet Schmidt, City Engineering Division
Eric Halvorson, Traffic Engineering Division
Matt Tucker, Zoning Administrator
Dennis Cawley, Madison Water Utility
Bill Sullivan, Madison Fire Department

I hereby acknowledge that I understand and will comply with the above conditions of approval for this project.
