**PART 5 – INCENTIVES:** Section 28.04 (25) of the Zoning Ordinance provides the opportunity for applicants in projects where affordable dwelling units are required or where the developer has agreed to pay money in lieu of inclusionary dwelling units, to receive one or more incentives as compensation for complying with the Inclusionary Zoning requirements. Each of the eleven incentives listed below are affixed a point value. The incentive points available to an applicant is dependent upon the number of affordable dwelling units proposed at the various area median income (AMI) levels. The program rewards projects both for having a higher number of affordable dwelling units provided at lower AMI levels, and for having a higher percentage of affordable dwelling units incorporated into the development. The incentive and the corresponding number of points available are listed below. (MAP=Maximum Available Points) Please mark the box next to the incentives requested.

**PART 6 – WAIVER:** The Plan Commission may waive the requirement to provide inclusionary dwelling units in the development if the applicant can present clear and convincing financial evidence that providing the required number of inclusionary dwelling units on-site renders providing the required number of inclusionary units financially infeasible. In such a case, a developer may request a waiver to provide the units off-site, assign the obligation to provide the units to another party, or pay cash in lieu of the units, or any combination of the above. If the waiver is granted, the required units may be provided as new construction off-site in another development within **one mile** of the subject development; off-site units shall be provided at least 1.25 times the number of units if provided within the subject development. Off-site units must be constructed within one year of the time that they would have been constructed within the subject development. The applicant may opt to pay money into the **Inclusionary Unit Reserve Fund** based on contribution rates established in Section 28.04 (25) of the Zoning Ordinance. If provision of the inclusionary dwelling units through the waiver is still financially infeasible, the developer may seek a reduction in the percent of units to the point where the project becomes financially feasible. If such a waiver is requested, a detailed explanation shall be provided in the required project narrative demonstrating the financial infeasibility of complying with the ordinance requirements and the rationale for the alternative proposed.

- If a waiver is requested, please mark this box  and include all of the necessary information required by the Zoning Ordinance and IZ Program Policy & Protocols to support your request.

**PART 7 – APPLICANT’S DECLARATION:**

The signer shall attest that this application has been completed accurately and includes all requests for incentives or waivers; that they have attended both required pre-application staff meetings and given the required notice to the district alderperson and neighborhood association(s) prior to filing this application; and that all required information will be submitted on the corresponding application for zoning and/or subdivision approval by the Plan Commission. The applicant shall begin the declaration by stating below whether or not the project complies with the various requirements of the inclusionary zoning ordinance. Check the applicable box and provide any supporting comments.
