Engineering: Rob Phillips

Parks Division: Bill Bauer and Si Widstrand

Traffic Engineering: Dan McCormick and Arthur Ross

Urban Open Space Foundation, Lance and Carole Zellie, Peggy Chung, Strand Engineering, UW-Madison Landscape Architectural Department, Former Mayor Paul Soglin

The Yahara River Parkway and Tenney Park were built with the generosity, sacrifices, and foresight of our forefathers at the turn of the century. It is the same foresight, community spirit, and commitment the Yahara River Parkway Committee is asking from the community, city, and other governmental bodies in restoring the best of the past and building for the future for this special place to endure for another century.

This plan is dedicated to the memory of John Urich (Principal Planner) who worked tirelessly to beautify this area of Madison, as well as the entire city.
