NOTES ON USING THIS DIRECTORY

In most cases, two different points of reference are used to locate a street. The first is a street which connects directly with it (AARON CT - E off 1900 Ellen Ave 3 Bl S of 5400 E Buckeye Rd), and the second referring both streets to a third, usually more prominent street. Exceptions to this general rule are: short streets where only one point of reference is necessary (ALGOMA - S from 2800 Commercial Ave), courts or circles of the same name as the street and which run off the street (FRANCES - W from 100 N Frances St), and other self-explanatory designations. On lengthy streets, the designation is sometimes given "N" and S from" or "E and W from" a midpoint on a cross-street (ACEWOOD - N and S from 4500 Cottage Grove Rd). When a block number is given as a cross-reference (BASSETT - N and S off 500 W Washington Ave), the street intersects at the beginning of the block. A few streets have two or three unconnected segments (DAYTON - W from 200 Wisconsin Ave; W off 200 N Henry St); in these cases, complete directions are given for each segment. Streets in the other communities or jurisdictions may have less specific directions than those in Madison.
