

Public Hearing — Near West Side Water Supply Augmentation project

Madison Water Utility will present the Near West Side Water Supply Augmentation project report at a public hearing before the Water Utility Board on January 26, 2010. Working closely with a citizen panel, the utility is recommending that the project be established. A full project description is available at www.madisonwater.org, "Near West Side Water Supply Augmentation"

Notice of Public Hearing: All citizens are invited to participate in a public hearing before the Water Utility Board to consider the acceptance of the recommendation to establish a project. The Water Utility Board desires to solicit public input and comment on said project. Written comments and objections regarding this project will be accepted up to the start of the public hearing. Comments can either be submitted via email to water@madisonwater.org or by US mail to MADISON WATER UTILITY, 119 E. Olin Avenue, Madison, WI 53713.
