

# Public Meeting

May 7, 2009

\*\*\* Monday May 18, 2009 @ 7:00 p.m. \*\*\*  
Schenk School Cafeteria – 230 Schenk Street

To: Neighbors of Madison Water Utility Well #8

A water quality mitigation project is currently being developed for Well 8. Well 8 is located at the west end of Olbrich Park and provides drinking water to the east Isthmus area. The Utility will evaluate several alternatives to improve the water quality produced by Well 8. A full description of the project is posted on the Utility website at [www.madisonwater.org](http://www.madisonwater.org). The project is formally known as "WELL 8 IRON AND MANGANESE MITIGATION".

**Invitation to Participate:** All citizens in the area are invited to participate in the development of this project either by participation at the public meeting or by providing written comment on the project to the Utility. A Citizen's Advisory Panel (CAP) has been formed for the project and is working closely with the Utility. Please contact the Utility at 608.266.4651 or [water@cityofmadison.com](mailto:water@cityofmadison.com) with questions. Citizen involvement will make this project better.

Tom Heikkinen; Water Utility General Manager
