RE: Legistar #59538; Accela ID: 'LNDUSE-2020-00020' -- Approval of a conditional use to construct a new park shelter (accessory building) for Warner Beach Park at 1101 Woodward Drive.

Dear Ms. Destree

At its April 13, 2020 meeting, the Plan Commission, meeting in regular session, found the standards met and approved your conditional use request to construct a new park shelter (accessory building) in the Parks and Recreation (PR) Zoning District on a lakefront property at 1101 Woodward Drive. In order to receive final approval of the conditional use, and for any permits to be issued for your project, the following conditions shall be met:

Please contact Brenda Stanley of the Engineering Division at (608) 261-9127 if you have any questions regarding the following ten (10) items:

1. Provide more detail on the dry well. The detail referenced was not included in the submittal.
2. Hydric soils are present at this site. A wetland determination may be required.
3. Obtain a permanent sewer plug permit for each existing sanitary sewer lateral serving a property that is not to be reused and a temporary sewer plug permit for each sewer lateral that is to be reused by the development. The procedures and fee schedule is available online at:
<http://www.cityofmadison.com/engineering/permits.cfm> (MGO CH 35.02(14))
4. An Erosion Control Permit is required for this project. See Strom comments for permit specific details and requirements.
5. This site appears to disturb less than one (1) acre of land. No submittal to the WDNR, CARPC or Department of Safety and Professional Services (DPS) is required as the City of Madison Building Inspection Department is an approved agent for DPS.

6. This project falls in the area subject to increased erosion control enforcement as authorized by the fact that it is in a TMDL Zone and therefore will be regulated to meet a higher standard.
7. This project will disturb 4,000 sf or more of land area and require an Erosion Control Permit. Submit the Erosion Control Permit Application (with USLE calculations and associated fee) to Megan Eberhardt (west) at meberhardt@cityofmadison.com, or Daniel Olivares (east) at daolivares@cityofmadison.com, for approval. The permit application can be found on City Engineering's website at: <http://www.cityofmadison.com/engineering/permits.cfm>
8. Prior to approval, this project shall comply with Chapter 37 of the Madison General Ordinances regarding stormwater management. Specifically, this development is required to submit a Storm Water Management Permit application, associated permit fee, Stormwater Management Plan, and Storm Water Management Report to City Engineering. The Stormwater Management Permit application can be found on City Engineering's website at <http://www.cityofmadison.com/engineering/permits.cfm>

The Storm Water Management Plan & Report shall include compliance with the following:

Report: Submit prior to plan sign-off, a stormwater management report stamped by a P.E. registered in the State of Wisconsin.

Electronic Data Files: Provide electronic copies of any stormwater management modeling or data files including SLAMM, RECARGA, TR-55, HYDROCAD, Sediment loading calculations, or any other electronic modeling or data files. If calculations are done by hand or are not available electronically, the hand copies or printed output shall be scanned to a PDF file and provided to City Engineering (POLICY and MGO 37.09(2))

TSS Redevelopment with TMDL: Reduce TSS by 80% off of the proposed development when compared with the existing site.

Submit a draft Stormwater Management Maintenance Agreement (SWMA) for review and approval that covers inspection and maintenance requirements for any BMP used to meet stormwater management requirements on this project.

9. Submit, prior to plan sign-off but after all revisions have been completed, a digital CAD file (single file) to the Engineering Division that is to scale and represents final construction with any private storm and sanitary sewer utilities.
10. Submit prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (west).

Please contact Sean Malloy of the Traffic Engineering Division at (608) 266-5987 if you have any questions regarding the following eight (8) items:

1. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the

following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including two (2) feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.

2. The Developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the Developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
3. The City Traffic Engineer may require public signing and marking related to the development; the Developer shall be financially responsible for such signing and marking.
4. All parking facility design shall conform to MGO standards, as set in section 10.08(6).
5. All bicycle parking adjacent pedestrian walkways shall have a 2 foot buffer zone to accommodate irregularly parked bicycles and/or bicycle trailers.
6. "Stop" signs shall be installed at a height of seven (7) feet from the bottom of the sign at all class III driveway approaches, including existing driveways, behind the property line and noted on the plan. All directional/regulatory signage and pavement markings on the site shall be shown and noted on the plan.
7. Dimensions of the driveways shall be noted on the plan including the width of driveway and width of driveway flares or curb cut.
8. Secure parking facility. This is usually done with continuous six (6) inch curb, timbers, preformed wheel stops, guardrail erected at a height of eighteen (18) inches or fencing of sufficient strength to act as a vehicle bumper.

Please contact Jacob Moskowitz, the Assistant Zoning Administrator at (608) 266-4560 if you have any questions regarding the following two (2) items:

9. Exterior lighting provided shall be in accordance with City of Madison General Ordinances Section 10.085. Provide an exterior lighting plan and fixture cut sheets with the final plan submittal.
10. Filling, grading and excavation of the zoning lot may be permitted only where protection against erosion, sedimentation and impairment of fish and aquatic life has been assured. Obtain necessary erosion control permits.

Please contact Brad Hofmann of City Forestry at (608) 267-4908 if you have any questions regarding the following three (3) items:

11. An existing inventory of trees (location, species, & DBH) and any tree removal plans (in PDF format) shall be submitted to the plans and Brad Hofmann – bhofmann@cityofmadison.com or 266-4816. All

proposed street tree removals within the right of way shall be reviewed by City Forestry. Approval and permitting of street tree removals shall be obtained from the City Forester prior to the approval of the site plan.

12. Existing street trees shall be protected. Please include the following note on the site plan: Contractor shall install tree protection fencing in the area between the curb and sidewalk and extend it at least 5 feet from both sides of the tree along the length of the terrace. No excavation is permitted within 5 feet of the outside edge of a tree trunk. If excavation within 5 feet of any tree is necessary, contractor shall contact City Forestry (266- 4816) prior to excavation to assess the impact to the tree and root system. Tree pruning shall be coordinated with City Forestry prior to the start of construction. Tree protection specifications can be found in section 107.13 of City of Madison Standard Specifications for Public Works Construction – <http://www.cityofmadison.com/business/pw/documents/StdSpecs/2018/Part1.pdf>. Any tree removals that are required for construction after the development plan is approved will require at least a 72 hour wait period before a tree removal permit can be issued by Forestry, to notify the Alder of the change in the tree plan.

Please contact Jeff Belshaw of the Water Utility at (608) 261-9835 if you have any questions regarding the following item:

13. A private well may have served this parcel prior to the municipal water service connection. Any remaining unused/unpermitted private wells existing on this parcel must be properly abandoned according to Wisconsin Administrative Code NR 812 and Madison General Ordinance 13.21 prior to the demolition of the property. Please contact water utility staff at (608) 266-4654 to schedule an on-site private well survey prior to demolition, otherwise for additional information regarding well abandonment procedures and potential well abandonment reimbursement programs.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining your conditional use:

1. After the plans have been revised per the above conditions, please resubmit a PDF copy of the complete, fully dimensioned, and to-scale plans, the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator (zoning@cityofmadison.com). Note that the 20MB email limit still applies. Please mail the check, made out to "City Treasurer", for the site plan review fee to the following address: City of Madison Building Inspection P.O. Box 2984 Madison, WI 53701-2984. Include a cover page with the check, which includes the project address, brief description of the project, and contact information.
2. This property is not in a wellhead protection district. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility.
3. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.

4. A conditional use approval is valid for two (2) years from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted. Where the plans have not been altered from the Plan Commission's approval, and the conditional use has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to twelve (12) months from the expiration date.
5. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.
6. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at (608) 266-4551. If you have any questions or if I may be of any further assistance, please do not hesitate to contact my office at (608) 243-0554.

Sincerely,

Sydney Prusak
 Planner
