## SECTION A: ADVERTISEMENT FOR BIDS AND INSTRUCTIONS TO BIDDERS

### REQUEST FOR BID FOR PUBLIC WORKS CONSTRUCTION CITY OF MADISON, WISCONSIN

#### A BEST VALUE CONTRACTING MUNICIPALITY

PROJECT NAME:	OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013
CONTRACT NO.:	7194
SBE GOAL	13%
BID BOND	5%
PRE BID MEETING (1:00 P.M.)	SEPTEMBER 27, 2013
PREQUALIFICATION APPLICATION DUE (1:00 P.M.)	SEPTEMBER 27, 2013
BID SUBMISSION (1:00 P.M.)	OCTOBER 4, 2013
BID OPEN (1:30 P.M.)	OCTOBER 4, 2013
PUBLISHED IN WSJ	9/20/13 & 9/27/13

PRE BID MEETING: Representatives of the Affirmative Action Department will be present to discuss the Small Business Enterprise requirements at 1600 Emil Street, Madison Wisconsin.

PREQUALIFICATION APPLICATION: Forms are available on our website, [www.cityofmadison.com/business/pw/forms.cfm](http://www.cityofmadison.com/business/pw/forms.cfm). If not currently prequalified in the categories listed in Section A, an amendment to your Prequalification will need to be submitted prior to the same due date. Postmark is not applicable.

BIDS TO BE SUBMITTED by hand to 1600 EMIL ST., MADISON, WI 53713 or online at [www.bidexpress.com](http://www.bidexpress.com).

THE BID OPENING is at 1600 EMIL ST., MADISON, WI 53713.

Plans and Specifications are also available at 1600 Emil St., Madison, WI, 53713; (608) 267-1197.

#### STANDARD SPECIFICATIONS

The City of Madison's Standard Specifications for Public Works Construction - 2013 Edition, as supplemented and amended from time to time, forms a part of these contract documents as if attached hereto.

These standard specifications are available on the City of Madison Public Works website, [www.cityofmadison.com/Business/PW/specs.cfm](http://www.cityofmadison.com/Business/PW/specs.cfm).

The Contractor shall review these Specifications prior to preparation of proposals for the work to be done under this contract, with specific attention to Article 102, "BIDDING REQUIREMENTS AND CONDITIONS" and Article 103, "AWARD AND EXECUTION OF THE CONTRACT." For the convenience of the bidder, below are highlights of three subsections of the specifications.

#### SECTION 102.1: PRE-QUALIFICATION OF BIDDERS

In accordance with Wisconsin State Statutes 66.0901 (2) and (3), all bidders must submit to the Board of Public Works proof of responsibility on forms furnished by the City. The City requires that all bidders be qualified on a biennial basis.

Bidders must present satisfactory evidence that they have been regularly engaged in the type of work specified herein and they are fully prepared with necessary capital, materials, machinery and supervisory personnel to conduct the work to be contracted for to the satisfaction of the City. All bidders must be pre-qualified by the Board of Public Works for the type of construction on which they are bidding prior to the opening of the bid.

In accordance with Section 39.02(9)(a)l. of the General Ordinances, all bidders shall submit in writing to the Affirmative Action Division Manager of the City of Madison, a Certificate of Compliance or an Affirmative Action Plan at the same time or prior to the submission of the proof of responsibility forms.

The bidder shall be disqualified if the bidder fails to or refuses to, prior to opening of the bid, submit a Certificate of compliance, Affirmative Action Plan or Affirmative Action Data Update, as applicable, as defined by Section 39.02 of the General Ordinances (entitled Affirmative Action) and as required by Section 102.11 of the Standard Specifications.

#### SECTION 102.4 PROPOSAL

No bid will be accepted that does not contain an adequate or reasonable price for each and every item named in the Schedule of Unit Prices.

A lump sum bid for the work in accordance with the plans and specifications is required. The lump sum bid must be the same as the total amounts bid for the various items and it shall be inserted in the space provided.

All papers bound with or attached to the proposal form are considered a part thereof and must not be detached or altered when the proposal is submitted. The plans, specifications and other documents designated in the proposal form will be considered a part of the proposal whether attached or not.

A proposal submitted by an individual shall be signed by the bidder or by a duly authorized agent. A proposal submitted by a partnership shall be signed by a member/partner or by a duly authorized agent thereof. A proposal submitted by a corporation shall be signed by an authorized officer or duly authorized registered agent of such corporation, and the proposal shall show the name of the State under the laws of which such corporation was chartered. The required signatures shall in all cases appear in the space provided thereof on the proposal.

Each proposal shall be placed, together with the proposal guaranty, in a sealed envelope, so marked as to indicate name of project, the contract number or option to which it applies, and the name and address of the Contractor or submitted electronically through Bid Express ([www.bidexpress.com](http://www.bidexpress.com)). Proposals will be accepted at the location, the time and the date designated in the advertisement. Proposals received after the time and date designated will be returned to the bidder unopened.

The Bidder shall execute the Disclosure of Ownership form. REFER TO SECTION F.

#### SECTION 102.5: BID DEPOSIT (PROPOSAL GUARANTY)

All bids, sealed or electronic, must be accompanied with a Bid Bond equal to at least 5% of the bid or a Certificate of Annual/Biennial Bid Bond or certified check, payable to the City Treasurer. Bid deposit of the successful bidders shall be returned within forty-eight (48) hours following execution of the contract and bond as required.

#### PREVAILING WAGE RATES

Prevailing Wage Rates may be required and are attached in Section J of the contract. See Special Provisions to determine applicability.

**Bidders for this Contract(s) must be Pre-Qualified for at least one of the following type(s) of construction denoted by an ☒**

**Building Demolition**

- 101 ☐ Asbestos Removal  
120 ☐ House Mover

- 110 ☐ Building Demolition

**Street, Utility and Site Construction**

- 201 ☐ Asphalt Paving  
205 ☐ Blasting  
210 ☐ Boring/Pipe Jacking  
215 ☐ Concrete Paving  
220 ☐ Con. Sidewalk/Curb & Gutter/Misc. Flat Work  
221 ☐ Concrete Bases and Other Concrete Work  
225 ☐ Dredging  
230 ☐ Fencing  
235 ☐ Fiber Optic Cable/Conduit Installation  
240 ☒ Grading and Earthwork  
241 ☐ Horizontal Saw Cutting of Sidewalk  
242 ☐ Infrared Seamless Patching  
245 ☐ Landscaping, Maintenance  
250 ☐ Landscaping, Site and Street  
251 ☐ Parking Ramp Maintenance  
255 ☐ Pavement Sealcoating and Crack Sealing  
260 ☐ Petroleum Above/Below Ground Storage Tank Removal/Install  
265 ☐ Retaining Walls, Precast Modular Units  
270 ☐ Retaining Walls, Reinforced Concrete  
275 ☐ Sanitary, Storm Sewer and Water Main Construction

- 280 ☐ Sewer Lateral Drain Cleaning/Internal TV Insp.  
285 ☐ Sewer Lining  
290 ☐ Sewer Pipe Bursting  
295 ☐ Soil Borings  
300 ☐ Soil Nailing  
305 ☐ Storm & Sanitary Sewer Laterals & Water Svc.  
310 ☐ Street Construction  
315 ☐ Street Lighting  
318 ☐ Tennis Court Resurfacing  
320 ☐ Traffic Signals  
325 ☐ Traffic Signing & Marking  
332 ☐ Tree pruning/removal  
333 ☐ Tree, pesticide treatment of  
335 ☐ Trucking  
340 ☐ Utility Transmission Lines including Natural Gas, Electrical & Communications  
399 ☐ Other \_\_\_\_\_

**Bridge Construction**

- 501 ☐ Bridge Construction and/or Repair

**Building Construction**

- 401 ☐ Floor Covering (including carpet, ceramic tile installation, rubber, VCT)  
402 ☐ Building Automation Systems  
403 ☐ Concrete  
404 ☐ Doors and Windows  
405 ☐ Electrical - Power, Lighting & Communications  
410 ☐ Elevator - Lifts  
412 ☐ Fire Suppression  
413 ☐ Furnishings - Furniture and Window Treatments  
415 ☐ General Building Construction, Equal or Less than \$250,000  
420 ☐ General Building Construction, \$250,000 to \$1,500,000  
425 ☐ General Building Construction, Over \$1,500,000  
428 ☐ Glass and/or Glazing  
429 ☐ Hazardous Material Removal  
430 ☐ Heating, Ventilating and Air Conditioning (HVAC)  
433 ☐ Insulation - Thermal

- 435 ☐ Masonry/Tuck pointing  
437 ☐ Metals  
440 ☐ Painting and Wallcovering  
445 ☐ Plumbing  
450 ☐ Pump Repair  
455 ☐ Pump Systems  
460 ☐ Roofing and Moisture Protection  
461 ☐ Solar Photovoltaic/Hot Water Systems  
465 ☐ Soil/Groundwater Remediation  
466 ☐ Warning Sirens  
470 ☐ Water Supply Elevated Tanks  
475 ☐ Water Supply Wells  
480 ☐ Wood, Plastics & Composites - Structural & Architectural  
499 ☐ Other \_\_\_\_\_

**State of Wisconsin Certifications**

- 1 ☐ Class 5 Blaster - Blasting Operations and Activities 2500 feet and closer to inhabited buildings for quarries, open pits and road cuts.  
2 ☐ Class 6 Blaster - Blasting Operations and Activities 2500 feet and closer to inhabited buildings for trenches, site excavations, basements, underwater demolition, underground excavations, or structures 15 feet or less in height.  
3 ☐ Class 7 Blaster - Blasting Operations and Activities for structures greater than 15 ' in height, bridges, towers, and any of the objects or purposes listed as "Class 5 Blaster or Class 6 Blaster".  
4 ☐ Petroleum Above/Below Ground Storage Tank Removal and Installation (Attach copies of State Certifications.)  
5 ☐ Hazardous Material Removal (Contractor to be certified for asbestos and lead abatement per the Wisconsin Department of Health Services, Asbestos and Lead Section (A&LS).) See the following link for application:  
[www.dhs.wisconsin.gov/Asbestos/Cert](http://www.dhs.wisconsin.gov/Asbestos/Cert). State of Wisconsin Performance of Asbestos Abatement Certificate must be attached.  
6 ☐ Certification number as a Certified Arborist or Certified Tree Worker as administered by the International Society of Arboriculture  
7 ☐ Pesticide application (Certification for Commercial Applicator For Hire with the certification in the category of turf and landscape (3.0) and possess a current license issued by the DATCP)  
8 ☐ Other \_\_\_\_\_  
9 ☐ Other \_\_\_\_\_

## SECTION B: PROPOSAL

Please refer to the  
Bid Express Website  
at <https://bidexpress.com>  
look up contract number  
and go to  
Section B: Proposal Page

You can access all City of Madison bid solicitations for FREE at [www.bidexpress.com](http://www.bidexpress.com)

Click on the "Register for Free" button and follow the instructions to register your company and yourself. You will be asked for a payment subscription preference, since you may wish to bid online someday. Simply choose the method to pay on a 'per bid' basis. This requires no payment until / unless you actually bid online. You can also choose the monthly subscription plan at this time. You will, however, be asked to provide payment information. Remember, you can change your preference at anytime. You will then be able to complete your free registration and have full access to the site. Your free access does not require completion of the 'Digital ID' process, so you will have instant access for viewing and downloading. To be prepared in case you ever do wish to bid online, you may wish to establish your digital ID also, since you cannot bid without a Digital ID.

If you have any problems with the free registration process, you can call the bidexpress help team, toll free at 1-888-352-2439 (option 1, option1).

## **SECTION C: SMALL BUSINESS ENTERPRISE**

### **Instructions to Bidders City of Madison SBE Program Information**

#### **2 Small Business Enterprise (SBE) Program Information**

##### **2.1 Policy and Goal**

The City of Madison reaffirms its policy of nondiscrimination in the conduct of City business by maintaining a procurement process which remains open to all who have the potential and ability to sell goods and services to the City. It is the policy of the City of Madison to allow Small Business Enterprises (SBE) maximum feasible opportunity to participate in City of Madison contracting. The bidder acknowledges that its bid has been submitted in accordance with the SBE program and is for the public's protection and welfare.

Please refer to the "ADVERTISEMENT FOR BIDS" for the goal for the utilization of SBEs on this project. SBEs may participate as subcontractors, vendors and/or suppliers, which provide a commercially useful function. The dollar value for SBE suppliers or 'materials only' vendors shall be discounted to 60% for purposes of meeting SBE goals.

A bidder which achieves or exceeds the SBE goal will be in compliance with the SBE requirements of this project. In the event that the bidder is unable to achieve the SBE goal, the bidder must demonstrate that a good faith effort to do so was made. Failure to either achieve the goal or demonstrate a good faith effort to do so will be grounds for the bidder being deemed a non-responsible contractor ineligible for award of this contract.

A bidder may count towards its attainment of the SBE goal only those expenditures to SBEs that perform a commercially useful function. For purposes of evaluating a bidder's responsiveness to the attainment of the SBE goal, the contract participation by an SBE is based on the percentage of the total base bid proposed by the Contractor. The total base bid price is inclusive of all addenda.

Work performed by an SBE firm in a particular transaction can be counted toward the goal only if it involves a commercially useful function. That is, in light of industry practices and other relevant considerations, does the SBE firm have a necessary and useful role in the transaction, of a kind for which there is a market outside the context of the SBE Program, or is the firm's role a superfluous step added in an attempt to obtain credit towards goals? If, in the judgment of the Affirmative Action Division, the SBE firm will not perform a commercially useful function in the transaction, no credit towards goals will be awarded.

The question of whether a firm is performing a commercially useful function is completely separate from the question of whether the firm is an eligible SBE. A firm is eligible if it meets the definitional criteria and ownership and control requirements, as set forth in the City of Madison's SBE Program.

If the City of Madison determines that the SBE firm is performing a commercially useful function, then the City of Madison must then decide what that function is. If the commercially useful function is that of an SBE vendor / supplier that regularly transacts business with the respective product, then the City of Madison will count 60% of the value of the product supplied toward SBE goals.

To be counted, the SBE vendor / supplier must be engaged in selling the product in question to the public. This is important in distinguishing an SBE vendor / supplier, which has a regular trade with a variety of customers, from a firm which performs supplier-like functions on an ad hoc basis or for only one or two contractors with whom it has a special relationship.

A supplier of bulk goods may qualify as an eligible SBE vendor / supplier if it either maintains an inventory or owns or operates distribution equipment. With respect to the distribution equipment; e.g., a fleet of trucks, the term "operates" is intended to cover a situation in which the supplier leases the equipment on a regular basis for its entire business. It is not intended to cover a situation in which the firm simply provides drivers for trucks owned or leased by another party; e.g., a prime contractor, or leases such a party's trucks on an ad hoc basis for a specific job.

If the commercially useful function being performed is not that of a qualified SBE vendor / supplier, but rather that of delivery of products, obtaining bonding or insurance, procurement of personnel, acting as a broker or manufacturer's representative in the procurement of supplies, facilities, or materials, etc., only the fees or commissions will apply towards the goal.

For example, a business that simply transfers title of a product from manufacturer to ultimate purchaser; e. g., a sales representative who re-invoices a steel product from the steel company to the Contractor, or a firm that puts a product into a container for delivery would not be considered a qualified SBE vendor / supplier. The Contractor would not receive credit based on a percentage of the cost of the product for working with such firms.

Concerning the use of services that help the Contractor obtain needed supplies, personnel, materials or equipment to perform a contract: only the fee received by the service provider will be counted toward the goal. For example, use of a SBE sales representative or distributor for a steel company, if performing a commercially useful function at all, would entitle the Contractor receiving the steel to count only the fee paid to the representative or distributor toward the goal. This provision would also govern fees for professional and other services obtained expressly and solely to perform work relating to a specific contract.

Concerning transportation or delivery services: if an SBE trucking company picks up a product from a manufacturer or a qualified vendor / supplier and delivers the product to the Contractor, the commercially useful function it is performing is not that of a supplier, but simply that of a transporter of goods. Unless the trucking company is itself the manufacturer or a qualified vendor / supplier in the product, credit cannot be given based on a percentage of the cost of the product. Rather, credit would be allowed for the cost of the transportation service.

The City is aware that the rule's language does not explicitly mention every kind of business that may contribute work on this project. In administering these programs, the City would, on a case-by-case basis, determine the appropriate counting formula to apply in a particular situation.

## **2.2 Contract Compliance**

Questions concerning the SBE Program shall be directed to the Contract Compliance Officer of the City of Madison Department of Civil Rights, Affirmative Action Division, 210 Martin Luther King, Jr. Blvd., Room 523, Madison, WI 53703; telephone (608) 266-4910.

## 2.3 Certification of SBE by City of Madison

The Affirmative Action Division maintains a directory of SBEs which are currently certified as such by the City of Madison. Contact the Contract Compliance Officer as indicated in Section 2.2 to receive a copy of the SBE Directory or you may access the SBE Directory online at [www.cityofmadison.com/dcr/aaTBDDir.cfm](http://www.cityofmadison.com/dcr/aaTBDDir.cfm).

All contractors, subcontractors, vendors and suppliers seeking SBE status must complete and submit the **Targeted Business Certification Application** to the City of Madison Affirmative Action Division by the time and date established for receipt of bids. A copy of the Targeted Business Certification Application is available by contacting the Contract Compliance Officer at the address and telephone indicated in Section 2.2 or you may access the Targeted Business Certification Application online at [www.cityofmadison.com/dcr/aaTBDDir.cfm](http://www.cityofmadison.com/dcr/aaTBDDir.cfm). Submittal of the Targeted Business Certification Application by the time specified does not guarantee that the applicant will be certified as a SBE eligible to be utilized towards meeting the SBE goal for this project.

## 2.4 Small Business Enterprise Compliance Report

### 2.4.1 Good Faith Efforts

Bidders shall take all necessary affirmative steps to assure that SBEs are utilized when possible and that the established SBE goal for this project is achieved. A contractor who self performs a portion of the work, and is pre-qualified to perform that category of work, may subcontract that portion of the work, but shall not be required to do so. When a bidder is unable to achieve the established SBE goal, the bidder must demonstrate that a good faith effort to do so was made. Such a good faith effort should include the following:

- 2.4.1.1 Attendance at the pre-bid meeting.
- 2.4.1.2 Using the City of Madison's directory of certified SBEs to identify SBEs from which to solicit bids.
- 2.4.1.3 Assuring that SBEs are solicited whenever they are potential sources.
- 2.4.1.4 Referring prospective SBEs to the City of Madison Affirmative Action Division for certification.
- 2.4.1.5 Dividing total project requirements into smaller tasks and/or quantities, where economically feasible, to permit maximum feasible SBE participation.
- 2.4.1.6 Establishing delivery schedules, where requirements permit, which will encourage participation by SBEs.
- 2.4.1.7 Providing SBEs with specific information regarding the work to be performed.
- 2.4.1.8 Contacting SBEs in advance of the deadline to allow such businesses sufficient time to prepare a bid.
- 2.4.1.9 Utilizing the bid of a qualified and competent SBE when the bid of such a business is deemed reasonable (i.e. 5% above the lowest bidder), although not necessarily low.
- 2.4.1.10 Contacting SBEs which submit a bid, to inquire about the details of the bid and confirm that the scope of the work was interpreted as intended.

### 2.4.2 Reporting SBE Utilization and Good Faith Efforts

The Small Business Enterprise Compliance Report is to be submitted by the bidder with the bid. This report is due by the specified bid closing time and date. Bids submitted without a completed SBE Compliance Report as outlined below

shall be deemed non-responsible and the bidder ineligible for award of this contract.

2.4.2.1 If the Bidder meets or exceeds the goal established for SBE utilization, the Small Business Enterprise Compliance Report shall consist of the following:

2.4.2.1.1 **Cover Page**, Page C-6; and

2.4.2.1.2 **Summary Sheet**, C-7.

2.4.2.2 If the bidder does not meet the goal established for SBE utilization, the Small Business Enterprise Compliance Report shall consist of the following:

2.4.2.2.1 **Cover Page**, Page C-6;

2.4.2.2.2 **Summary Sheet**, C-7; and

2.4.2.2.3 **SBE Contact Report**, C-8 and C-9. (A separate Contact Report must be completed for each applicable SBE which is not utilized.)

## 2.5 Appeal Procedure

A bidder which does not achieve the established goal and is deemed non-responsible for failure to demonstrate a good faith effort to achieve such goal and subsequently denied eligibility for award of contract may, within 72 hours of receiving such notification, appeal that decision to a special appeals committee composed of three (3) members of the Affirmative Action Commission, three (3) members of the Board of Public Works and a seventh member appointed by the Mayor. All appeals must be made in writing to the City Engineer and received within 72 hours of City of Madison's notice. Postmark not applicable.

## 2.6 SBE Requirements After Award of the Contract

The successful bidder shall identify SBE subcontractors, suppliers and vendors on the subcontractor list in accordance with the specifications. The Contractor shall submit a detailed explanation of any variances between the listing of SBE subcontractors, vendors and/or suppliers on the subcontractor list and the Contractor's SBE Compliance Report for SBE participation.

No change in SBE subcontractors, vendors and/or suppliers from those SBEs indicated in the SBE Compliance Report will be allowed without prior approval from the Engineer and the Affirmative Action Division. The contractor shall submit in writing to the City of Madison Affirmative Action Division a request to change any SBE citing specific reasons which necessitate such a change. The Affirmative Action Division will use a general test of reasonableness in approving or rejecting the contractor's request for change. If the request is approved, the Contractor will make every effort to utilize another SBE if available.

The City will monitor the project to ensure that the actual percentage commitment to SBE firms is carried out.

## **2.7 SBE Definition and Eligibility Guidelines**

A Small Business Enterprise is a business concern awarded certification by the City of Madison. For the purposes of this program a Small Business Enterprise is defined as:

- A. An independent business operated under a single management. The business may not be a subsidiary of any other business and the stock or ownership may not be held by any individual or any business operating in the same or a similar field. In determining whether an entity qualifies as a SBE, the City shall consider all factors relevant to being an independent business including, but not limited to, the date the business was established, adequacy of its resources for the work in which it proposes to involve itself, the degree to which financial, equipment leasing and other relationships exist with other ineligible firms in the same or similar lines of work. SBE owner(s) shall enjoy the customary incidents of ownership and shall share in the risks and profits commensurate with their enjoyment interests, as demonstrated by an examination of the substance rather than form or arrangements that may be reflected in its ownership documents.
- B. A business that has averaged no more than \$4.0 million in annual gross receipts over the prior three year period and the principal owner(s) do not have a personal net worth in excess of \$1.32 million.

Firm and/or individuals that submit fraudulent documents/testimony may be barred from doing business with the City and/or forfeit existing contracts.

SBE certification is valid for one (1) year unless revoked.

SBE Information

Company: \_\_\_\_\_

Address: \_\_\_\_\_

Telephone Number: \_\_\_\_\_

Contact Person/Title: \_\_\_\_\_

1. Outline below all efforts to solicit a bid from the above SBE. Include date, means of contact, who from your company made this contact and the result.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

2. Describe the information provided to the aforementioned SBE regarding the scope of work for which he/she was to provide a bid.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Is this the same scope of work on which the subcontractor you intend to utilize based his/her bid?

☐ Yes    ☐ No

3. Did this SBE submit a bid?      ☐ Yes    ☐ No

4. Is the General Contractor pre-qualified to self-perform this category of work?

☐ Yes    ☐ No

5. If you responded "Yes" to Question 3, please check the items below which apply and provide the requested detail. If you responded "No" to Question 3, please skip ahead to item 6 below.

☐ The SBE listed above is unavailable for work on this project for the following reasons. Provide specific detail for this conclusion.

---

---

☐ The SBE listed above is unqualified for work on this project. Provide specific details for this conclusion.

---

---

☐ The SBE listed above provided a price that was unreasonable (i.e. more than 5% above the lowest bidder). Provide specific detail for this conclusion including the SBE's price and the price of the subcontractor you intend to utilize.

---

---

☐ A contract with the SBE listed above may constitute a breach of the bidder's collective bargaining agreements. Provide specific detail for this conclusion including, but not limited to, correspondence from the SBE indicating it will not sign a project labor agreement and/or correspondence from the applicable trade union indicating a project labor agreement will not be allowed at the time of project bidding.

---

---

☐ Other; please specify reason(s) other than listed above which made it impossible for you to utilize this SBE on this project.

---

---

6. Describe any other good faith efforts:

---

## SECTION D: SPECIAL PROVISIONS

### OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013 CONTRACT NO. 7194

It is the intent of these Special Provisions to set forth the final contractual intent as to the matter involved and shall prevail over the Standard Specifications and plans whenever in conflict therewith. In order that comparisons between the Special Provisions can be readily made, the numbering system for the Special Provisions is equivalent to that of the Specifications.

Whenever in these Specifications the term "Standard Specifications" appears, it shall be taken to refer to the City of Madison Standard Specifications for Public Works Construction and Supplements thereto.

#### SECTION 102.10: MINIMUM RATE OF WAGE SCALE

For this project, payment of prevailing wages (white sheet) shall be required unless the box indicating prevailing wages are not required is checked below.

☐ Prevailing wages shall not be required when this box is checked.

If required, the wages and benefits paid on the contract shall not be less than those specified in the Prevailing Wage Determination included with these contract documents for the following types of work:

- ☐ Building and Heavy Construction
- ☒ Sewer, Water, and Tunnel Construction
- ☐ Local Street and Miscellaneous Paving Operations
- ☐ Residential and Agricultural Construction

All bidders are notified that all labor employed on City contracts must be paid in accordance with the minimum rate of wage scale included in the Contract Documents.

For the information of the employees working on the project, a copy of the wage scale included in the contract documents and the provisions of Section 66.0903(8) of the Wisconsin Statutes shall be kept posted by the employer and in at least one conspicuous and easily accessible place at the site of the project.

The Contractor shall keep weekly payroll records setting forth the name, address, telephone number, classification, wage rate and fringe benefit package of each employee who worked on such City project and all other projects the employee worked in the same period, and the Contractor must keep records of the individual time each employee worked on the project and for each day of the project. Records shall include employee demographics or contractor can submit a one-time report of all employee demographics that can be matched up with weekly payrolls. Reports shall only include last four social security digits. Such records shall also set forth the total number of hours of overtime credited to each such employee for each day and week and the amount of overtime pay received in that week. Such records shall, in addition, set forth the full weekly wages earned by each such employee and the actual hourly wage paid to that employee. The Contractor shall submit payroll records to the Engineer every week for those periods when work is being done on the project. Said submittal shall be within twenty-one (21) calendar days of the end of the Contractor's weekly pay period.

The Contractor shall ensure that employees shall be paid unconditionally and shall receive the full amounts accrued at the time of payment, computed at rates not less than those stated in the City of Madison "Minimum Rate of Wage Scale" and that each employee's rate shall be determined by the work that is done within the trade or occupation classification which should be properly assigned to such employee. Questions regarding an employee's classification or rate of pay within that classification, shall be resolved by the practice that predominates in the industry and on which the trade or occupation rate/classification is based. Therefore, rate of pay, classification and work jurisdiction disputes shall be

resolved by relying upon practices established by collective bargaining agreements and guidelines used in such determinations by appropriate recognized trade unions operating within the City of Madison.

The Contractor shall agree that the normal rate of wage paid to the Contractor's employees on other projects shall not be reduced or otherwise diminished as a result of the requirement to pay no less than the minimum rate of wage scale on a City project. Mulcting of employees on City projects by contractors, such as by kickbacks or other such devices, is prohibited.

These contract provisions shall apply to all work performed on the contract by the Contractor with its own organization and with assistance of laborers under its immediate superintendency and to all work performed by piecework or by subcontract. No laborer, worker, or mechanic shall be employed directly upon the site of the work except on a wage basis, but this shall not be construed to prohibit the rental of equipment from individuals.

In the event of a refusal by the Contractor to submit payroll records as required by the contract, the City of Madison shall have the option to cancel this contract and request the Surety to perform or to re-let the balance of the work for bids, and in that event, to charge the Contractor for any loss which the City may incur thereby.

#### **SECTION 102.12: BEST VALUE CONTRACTING**

This Contract shall be considered a Best Value Contract if the Contractor's bid is equal to or greater than \$53,000 for a single trade contract; or equal to or greater than \$257,500 for a multi-trade contract pursuant to MGO 33.07(7).

#### **ARTICLE 103: AWARD AND EXECUTION OF THE CONTRACT**

The Contractor shall execute the signing of this contract completely prior to **November 5, 2013**. No exceptions or extensions to the above date will be permitted.

#### **ARTICLE 104: SCOPE OF WORK**

This contract consists of stabilizing approximately 1500 linear feet of drainage channels within Owen Conservation Park. Work will include riprap armoring approximately 1060 linear feet of the primary drainage channel, and constructing a 410 foot riffle and pool storm water conveyance system within the secondary drainage channel. Contract work includes tree removal and the construction of access roads to accommodate the channel stabilization.

**The Contractor shall view the site prior to bidding** to become familiar with the existing conditions. It will be the responsibility of the Contractor to work with the utilities located in the right of way to resolve conflicts during the construction process.

#### **SECTION 105.1: AUTHORITY OF THE ENGINEER**

The Engineer shall resolve all questions which arise as to the quality and acceptability of materials furnished, work performed, manner of performance, rate of progress of the work, interpretation of the plans and Specifications, acceptable fulfillment of the contract, compensation, and disputes and mutual rights between Contractors under the Specifications. The Engineer shall determine the amount and quantity of work performed and materials furnished.

All decisions of the Engineer shall, when so requested, be rendered in writing. They shall be final and conclusive in all matters unless within ten (10) days after such decision the Contractor applies in writing to the Board of Public Works for a review of such decision.

Any change proposed by a Contractor in SBE subcontractors, vendors or suppliers from those SBEs indicated on the SBE Compliance Report must be approved by the Engineer and the City's Manager of the Affirmative Action Division (hereafter, AAD). When requested, such decision shall be rendered in

writing. Such decisions shall be final and conclusive in all matters unless within ten (10) days after such decision the Contractor or the affected SBE applies in writing to the Board of Public Works for a review of such decision.

In the event the Engineer and the AAD disagree over the proper decision to be made regarding an SBE, the Mayor shall appoint a third person to resolve the disagreement, within 30 days of appointment. The decision thus rendered may be reviewed by the Board of Public Works upon request of the Contractor or the affected SBE as set forth in Sections 105.1 and 105.2 of the City's standard specifications.

#### **SECTION 105.12: COOPERATION BY THE CONTRACTOR**

No trees, other than those shown on the plan or marked in the field to be removed, shall be cut without the approval of the Engineer.

Access to the site shall be via Inner Drive and Bordner Drive. **However, only empty trucks will be permitted to drive on the concrete cunette.** The Contractor shall note that the maximum gross vehicle weight allowed over the existing box culvert at the entrance to the Forsythia cunette is 80,000 pounds.

The main access for the work will be off Inner Drive. The Contractor shall protect the existing curb and gutter and sidewalk at the access location; however, additional quantities of these items have been included in the bid items to allow for replacement if necessary. The Construction Engineer shall determine whether or not replacement of the sidewalk and/or curb and gutter are necessary.

**The site contains excessive amounts of poison ivy. The Contractor and crew shall be prepared to come in contact with poison ivy and shall take necessary precautions.**

#### **SECTION 105.13: ORDER OF COMPLETION**

The order of work is subject to the review of the City. Prior to the Preconstruction Meeting, the Contractor shall submit to the City a detailed construction schedule showing the sequence and anticipated dates of all construction operations, as well as a Staging/Phasing Plan for approval by the City. The sequence of scheduled operations may be modified by the City to accommodate specific needs.

Work will begin on November 18, 2013. It is anticipated that there will be a winter shut-down for this project.

Initial work shall be limited to tree removal and access road construction. After the roads have been constructed and stabilized, work on the channels may begin. All trees marked for removal shall be removed prior to March 15, 2014. Tree removal will not be permitted during summer 2014, unless otherwise directed or approved by the Engineer. It is anticipated that tree removal and access road construction can be completed prior to a winter shut-down, if normal fall weather patterns persists.

Channel stabilization work may occur during 2013, if weather conditions permit. Channel stabilization shall begin at the existing concrete cunette and proceed upstream. The Contractor shall be mindful of snow forecasts. When heavy snow is predicted, the Contractor shall adequately stabilize the site for the winter months. This includes grading, tying-in, or stabilizing any riprap that may have been placed in the primary channel. All disturbed topsoil and graded areas shall have erosion control matting placed and anchored prior to the first heavy snowfall, or winter shut-down.

The Contractor shall not leave piles of logs, woody debris, or material stockpiles in the park unless approved by the Construction Engineer.

The Contractor will have contract time available in the spring and early summer of 2014 to finish the channel stabilization work.

The Contractor shall be diligent in reviewing weather forecasts to manage erosion control, construction schedule, and plans for storm water control during the project.

## **SECTION 107.7:        MAINTENANCE OF TRAFFIC**

All traffic control shall conform to Part VI of the Federal Highways Administration's "Manual on Uniform Traffic Control Devices" (MUTCD), the State of Wisconsin Standard Facilities Development Manual (including Chapter 16 – Standard Detail Drawings) and the City of Madison Standards for Sidewalk and Bikeway closures.

The Contractor shall submit an acceptable, complete Traffic Control Plan, including all necessary phases and any required sidewalk or bike route closures, to the office of the City Traffic Engineer, at 215 Martin Luther King Jr. Blvd. Suite 100, Madison, WI 53703, a minimum of five (5) working days prior to the pre-construction meeting. The Traffic Control Plan shall address all requirements of this section of the Special Provisions. The Contractor shall not start work on this project until the Traffic Engineering Division has approved a traffic control plan and traffic control devices have been installed, in accordance with the approved plan. Failure of the Contractor to obtain an approved Traffic Control Plan, as specified above, may prevent the Contractor from starting work and shall be considered a delay of the project, caused by the Contractor.

The Contractor will be responsible for installing and maintaining traffic control in accordance with the traffic control plan and as directed by the City Traffic Engineer. The Contractor shall install and maintain modifications or additions to the traffic control, as directed by the City Traffic Engineer, at no cost to the City.

All lanes of traffic on Bordner Drive shall remain open at all times, and no driveways shall be blocked. All lanes of traffic on Inner Drive shall remain open during peak hours. The Contractor may temporarily close one lane of traffic for the purposes of loading and unloading equipment and materials, but shall provide appropriate signage and flaggers.

Signage shall be posted at each entrance to the walking paths in Owen Park, stating that either the path is closed, or detoured. The Contractor shall place path detour signage as directed by the Construction Engineer or Parks Department. Since not all paths will be closed, and since this park is heavily used by residents both on foot and on bicycles, the Contractor shall be aware that pedestrians will be present in the woods, and may be using the construction area.

No construction equipment or materials shall be stored in the roadway or street right-of-way that is open to traffic during non-working hours. Construction equipment and materials are not to be stored within the street right-of-way that is outside the project limits as shown on the approved plan.

The Contractor may remove parking adjacent to the projects along Inner Drive. The Contractor shall be responsible for posting and maintaining NO PARKING signs in accordance with City of Madison Police Department's "Guidelines for Temporary No Parking Restrictions for Construction or Special Events."

## **SECTION 107.8:        NOTIFICATION WHEN CLOSING STREET**

The Contractor shall not remove traffic signs. For removal or replacement of traffic and parking signs, contact the City of Madison Traffic Engineering Field Operations, 1120 Sayle Street, 266-4767, 8:00 a.m. to 4:00 p.m., a minimum of twenty-four (24) hours in advance of when any existing signs need to be removed. This service is provided free of charge. If the Contractor removes the signs, the Contractor will be billed for the reinstallation of, and any damage to, the signing equipment.

## **SECTION 107.13:      TREE PROTECTION SPECIFICATIONS**

The Contractor is advised to review Section 107.13 of the Standard Specifications for tree protection. Note that Sections 107.13(b) Curb Excavation and Installation, 107.13(c) Sidewalk Excavation and Installation, are not applicable to this project. Other sections are applicable except as provided below.

All trees shall be saved except those trees marked for removal on the plans, and with pink paint in the field. Because of the intent to save trees, there are trees to be saved that are inside the construction

limits. It is recognized that grading operations and root cutting of these trees may need to occur within 5 feet of these trees in order to complete the work, but care must be taken in these areas. Roots shall be cut cleanly by using a saw, axe, lopping shears, chain saw, stump grinder, or other means which will produce a clean cut. Exposed roots shall be covered as soon as excavation is complete. The Contractor shall not rip or pull roots out towards the trunk of a tree while excavating with a backhoe. The use of a backhoe to cut roots is NOT acceptable. Grading within 5' of the trees within the construction area, if absolutely required, shall be minimized.

With regard to Section 107.13(f), pruning to accommodate construction equipment invading the tree crown may be done by the Contractor, with advance permission from the Construction Engineer. No pruning will be performed by City Forestry. All pruning shall be done according to ANSI A300 tree pruning specifications.

With regard to Section 107.14(g), no equipment or materials will be allowed to be parked on, or piled on areas within 5 feet of a tree. Construction traffic within 5 feet of a tree will be allowed only where necessary to complete grading operations, as described above, at the discretion of the Construction Engineer.

Where noted on the plan set, trees shall be protected. The Contractor shall mark these trees, or place temporary fencing between the work area and tree. Temporary fencing shall be paid separately under Bid Item 90001.

## **SECTION 108.2:        PERMITS**

The following permits have been applied for (each of the two projects has separate permits):

1. Army Corps of Engineers Permit for work in public waters –Non-Reporting permit
2. WI-DNR Chapter 30 Permit (Applied for but not yet received)
3. WI-DNR WRAPP Water Resources Application for Project Permit, formerly known as a Notice of Intent NOI) for construction site erosion control
4. City of Madison Erosion Control and Stormwater Management Permit – received

Contractor may not begin work until DNR Chapter 30 permit is received.

It shall be the responsibility of the Contractor to obtain the permits listed below, if required, and to pay all applicable charges and fees associated with these permits.

1. Wisconsin DNR Dewatering

All permit costs shall be considered incidental to the various Mobilization bid items for the Contract.

The Contractor shall meet the conditions of all permits and must keep a copy of each individual permit on site at all times throughout construction.

With regard to Control of Invasive or Exotic Species, the Chapter 30 permit will stipulate that any equipment or materials that may be in contact with invasive or exotic species must be decontaminated prior to and after work at the project site. It shall be the Contractor's responsibility to comply with decontamination requirements.

The Contractor shall meet the conditions of the permits involving including properly installing and maintaining the erosion control measures shown on the plans, specified in these Special Provisions, or as directed by the Construction Engineer or his designees. This work will be paid for under the appropriate bid items, or if appropriate items are not included in the contract, they shall be paid for as Extra Work.

The City's obtaining these permits is not intended to be exhaustive of all permits that may be required to be obtained by the Contractor for construction of this project. It shall be the responsibility of the Contractor to identify and obtain any other permits needed for construction.

## **SECTION 109.2:        PROSECUTION OF WORK**

The Contractor shall begin work on or before **November 18, 2013**. The contract completion date shall be **June 13, 2014**. This completion date accounts for normal winter and spring weather conditions.

Work shall begin only after the start work letter is received. The Contractor shall limit workdays from 7:00 am to 7:00 pm, unless approved by the Engineer in writing. The Contractor shall expect a winter shut-down.

The Contractor shall not postpone work in the spring. When weather conditions are favorable, work shall begin.

### **BID ITEM 10911 - MOBILIZATION**

#### **DESCRIPTION**

This item shall include all work necessary to mobilize and de-mobilize all equipment, personnel, and incidentals to the site. This bid item shall include all work necessary to close and secure the site for winter and a re-mobilization in spring 2014. All equipment, tools, materials, and incidentals shall be removed from the site prior to a winter shut-down. Stockpiled materials may be left in place, if the Construction Engineer approves, they are adequately secured, and do not impede use of the park.

This bid item also includes all work, materials, and incidentals necessary to protect the existing curb and gutter at the park entrance at inner drive. This may include the installation of a ramp constructed of concrete, gravel, or other material, as well as its removal.

Mobilization will only be paid once.

#### **METHOD OF MEASUREMENT**

Mobilization shall be paid as a Lump Sum for all work described above and in Section 109.14 of the Standard Specifications.

#### **BASIS OF PAYMENT**

Mobilization shall be measured as described above which shall be full compensation for all work, materials, and incidentals to complete the work as described above.

### **BID ITEM 20201 - EXCAVATION CUT**

#### **DESCRIPTION**

Excavation Cut shall include all excavation from within the limits shown on the plans and cross sections. The Contractor shall be responsible for determining a suitable off-site disposal location for excess excavated materials that are deemed unusable as fill in on site, for hauling unsuitable material to the site, and for placement at the disposal site.

This bid item does not include the removal and disposal of degraded and degrading limestone riprap. This material shall not remain on site and shall not be placed as new riprap. Removal of degraded limestone riprap and segregating glacial stones shall be paid under Bid Item 90005.

Suitable materials may be reused as fill within the project limits. The work involved with placement of suitable fill obtained on site through excavation cut shall be considered subsidiary to work pertaining to excavation cut. Placement of these fill materials shall be considered incidental to this bid item and shall not be compensated separately.

Any undercut or excavation directed by the Engineer beyond the limits shown on the plans shall be measured in the field and paid for as Excavation Cut.

Estimated Excavation and fill quantities are as follows:

Excavation	812 cy
Fill	146 cy

No bulking/expansion or shrink factors were used when determining earthworks quantities for this project. No adjustments have been made to above quantities for topsoil. In cut sections or at-grade sections, if over-excavation is required to place adequate topsoil thickness, over-excavation shall be considered to be incidental to Bid Item 20221 – Topsoil.

#### **METHOD OF MEASUREMENT**

Excavation Cut within the limits shown on the plans and cross sections will be paid for based on the “plan quantity” as shown in the contract without measurement thereof, plus actual undercut quantities measured in the field. The plan quantity was computed by average end area based on the sections. No changes to this quantity shall be approved unless there are modifications to the plan that result in significant (>10%) change in quantity up or down.

#### **BASIS OF PAYMENT**

Excavation Cut shall be paid for at the contract price for work as described and measured above which shall be full compensation for all labor, tools, equipment, and incidentals necessary to complete this item of work.

#### **BID ITEM 20202 - FILL BORROW**

##### **DESCRIPTION**

This item shall only be used in the event that materials resulting from excavation cut are insufficient and fill borrow is required. This item includes placement of fill material at the locations as directed by the Construction Engineer. Materials used for fill shall meet the requirements of the Standard Specifications Section 202.2(a) Fill, with the additional requirement that fill material shall be a clayey material, as approved by the Construction Engineer.

##### **METHOD OF MEASUREMENT**

Fill Borrow will be measured by the Cubic Yard of fill, in place, imported to the site.

##### **BASIS OF PAYMENT**

Fill Borrow shall be paid at the contract price for work as described and measured above, which shall be full compensation for all material, labor, tools, equipment and incidentals necessary to complete this item of work.

#### **BID ITEM 20221 - TOPSOIL**

##### **DESCRIPTION**

Work under this item shall include placement of topsoil within the seeding limits shown on the drawings or as directed by the Engineer in the field, in accordance with Section 202 of the Standard Specifications. Topsoil shall be placed four (4) inches thick per the Standard Specifications. Topsoil materials and placement shall be in accordance with Article 202 – Fill.

Salvaged topsoil from on site meeting the specifications may be reused. In some areas the existing topsoil thickness may be adequate and no additional topsoil may be required, however scarifying of the existing topsoil may be required.

Stripping and stockpiling of topsoil for reuse on the site shall be considered incidental to this bid item. Stockpiles shall be protected with silt fence to prevent erosion of the stockpile. If excess topsoil is generated during construction, the Contractor shall haul the material to Elver Park. Hauling of excess topsoil shall be paid under Bid Item 90006.

## **METHOD OF MEASUREMENT**

Top Soil within the limits shown on the plans shall be paid for based on the "plan quantity" as shown in the contract without measurement thereof. The plan quantity was computed by measuring the grading limits, outside of the channels and access roads. No changes to this quantity shall be approved unless there are modifications to the plan that result in significant (>10%) change in quantity up or down.

## **BASIS OF PAYMENT**

Topsoil shall be paid at the contract price for work as described and measured above, which shall be full compensation for all labor, tools, equipment, and incidentals necessary to complete this item of work, including segregating, stockpiling, and preparing salvaged topsoil, furnishing topsoil from off-site as needed, placing, grading and raking finished surface.

## **BID ITEM 20233 – HEAVY RIPRAP FILTER FABRIC, TYPE HR**

### **DESCRIPTION**

This item shall include furnishing and placing Heavy Riprap Filter Fabric at all locations required for the project. Heavy Riprap Filter Fabric material and placement shall be as described in Section 202 of the Standard Specifications. Fabric shall conform to requirements for Geotextile Fabric Type HR contained in the latest edition of the Standard Specifications for Highway and Structure Construction for the State of Wisconsin, Department of Transportation. Fabric shall be synthetic, non-woven needle punched fabric that is resistant to chemicals and mildew, stable under freeze-thaw cycles, does not shrink or expand under wet conditions, and that does not unravel during use.

Placement of filter fabric shall conform to manufacturer's requirements to assure a continuous layer unbroken by rips, tears, punctures, or other physical damage from placement of the fabric or placement of materials over the fabric.

### **METHOD OF MEASUREMENT**

Heavy Riprap Filter Fabric shall be measured by the Square Yard, according to the yardage provided in each roll. The total yardage shall be measured by multiplying the number of complete rolls used by the yardage of each roll. The last roll, if partially used, shall be paid, but the remainder of the roll shall be delivered by the Contractor to the Engineering Service Building on Emil Street.

The quantity on the proposal page was calculated using the cross sections, and includes a 10% allowance for overlap and waste.

## **BID ITEM 20401 - CLEARING**

### **DESCRIPTION**

Work under this item shall include removal of trees indicated on the plans for removal, or as marked in the field. Tree sizes noted on the plans are approximate. Trees to be removed were marked in the field with a dot of pink paint. Any questions or concerns about the removal of particular trees shall be brought

promptly to the attention of the Engineer. Clearing shall be as described in the Standard Specifications except as noted below.

All clearing shall be done by sawing trees near the ground line. Under no circumstances is the Contractor permitted to pull trees from the ground or use methods which will significantly disturb existing root systems. Grubbing shall be done with stump grinding equipment, except as noted in Bid Item 20403.

Trees under three (3) inches in diameter, shrubs, brush, windfalls, logs and other vegetation to be removed shall be paid separately under Bid Item 20405-Brush Clearing. Contractor is strongly encouraged to visit the site prior to bidding in order to become familiar with site access and the quantity of tree removal.

The Contractor shall remove all cut material. The Contractor shall also remove fallen trees that are marked with pink paint. Removal of these trees will be paid under this bid item.

**The Contractor shall be aware that there is a large amount of poison ivy on the site, including large vines on some trees. The Contractor shall take necessary precautions around the plant.**

#### **METHOD OF MEASUREMENT**

Clearing will be measured per Inch Diameter, as set forth in the Standard Specifications.

#### **BASIS OF PAYMENT**

The contract unit price for Clearing per inch diameter shall be payment in full for furnishing all labor and equipment for all clearing actually performed, and for the handling and disposal of all debris resulting from clearing and grubbing.

#### **BID ITEM 20403 - GRUBBING**

#### **DESCRIPTION**

Work under this item shall include grubbing stumps, following removal of trees indicated on the plans for removal. Tree sizes noted on the plans are approximate. Trees to be removed were marked in the field with a dot of pink paint. Only stumps that directly interfere with access road construction or grading immediately adjacent to the channel shall be grubbed. All other stumps can be left in place.

Under no circumstances is the Contractor permitted to pull trees from the ground or use methods which will significantly disturb existing root systems, except as noted below. Grubbing shall be done with stump grinding equipment. In locations where the roots are exposed, such as trees along undercut banks, the Contractor may excavate the root system. The Contractor shall also harvest 14 root wads for use in Bid Item 90037. These trees shall be selected carefully so as not to disturb remaining trees.

Fill required to backfill holes where stumps are removed shall be considered incidental to this bid item.

Trees under three (3) inches in diameter, shrubs, brush, windfalls, logs and other vegetation to be removed shall be paid separately under Bid Item 20405-Brush Clearing.

#### **METHOD OF MEASUREMENT**

Grubbing will be measured per Inch Diameter, as set forth in the Standard Specifications.

#### **BASIS OF PAYMENT**

The contract unit price for Grubbing per inch diameter shall be payment in full for furnishing all labor and equipment for all clearing actually performed, and for the handling and disposal of all debris resulting from clearing and grubbing.

## **BID ITEM 20405 - BRUSH CLEARING**

### **DESCRIPTION**

This item shall include clearing of all brush, trees less than 3" diameter, and herbaceous vegetation within the grading limits. All trees in this zone, greater than 3" diameter, shall be saved, except those marked on the plans for removal (also marked with pink paint in the field). The Contractor is strongly encouraged to visit the site prior to bidding in order to become familiar with site access and the quantity of brush removal.

Brush clearing shall consist of removing from within the grading limits (as necessary to complete the work) all unmarked small trees, brush, and shrubs and herbaceous vegetation and completely removing them from site. Smaller trees and brush shall be removed within 1 inch below proposed finished grades. Any fill required to backfill holes where stumps are removed shall be considered incidental to this bid item. All clearing shall be done by sawing brush near the ground line. Under no circumstances is the Contractor permitted to pull trees from the ground or use methods which will significantly disturb existing root systems.

This item shall include removal of windfalls, and logs present within the work area. This item shall also include any trimming of trees and brush by contractor to facilitate access, where approved by the Construction Engineer.

### **METHOD OF MEASUREMENT**

This item shall be measured as a Lump Sum.

### **BASIS OF PAYMENT**

This work, measured as provided above, will be paid for at the contract price which shall be considered full compensation for furnishing all labor and equipment for all clearing actually performed, and for the handling and disposal of all debris resulting from brush clearing.

## **BID ITEM 90001 - TEMPORARY FENCING**

### **DESCRIPTION**

This item includes installation of temporary construction fencing at the locations shown on the drawing, or as directed by the Construction Engineer. The intent of this item is to delineate the area to which contractor shall confine his or her operations, to protect trees, and to direct the public away from construction areas. Minor relocation of fencing may be required as the work progresses. No extra payment shall be made for temporarily opening and re-closing the fence, or minor relocation of the fencing as needed to perform the work.

Construction fencing shall be International Orange color, high-density polyethylene mesh conforming to the following:

- Mesh opening: 1 inch min to 3 inch max
- Height: 4 feet
- Ultimate tensile strength: Avg 3000 lb per 4' width (ASTM D638)

Posts shall be conventional metal "T" or "U" shaped posts. Fencing shall be installed according to the manufacturer's recommendations.

### **METHOD OF MEASUREMENT**

Temporary Fencing shall be measured by the Linear Foot installed.

## **BASIS OF PAYMENT**

Cost for Temporary Fencing shall be paid for according to the contract unit price. Price shall include payment for providing and installing temporary fence and appurtenances, maintenance of fencing as required, creating and closing temporary openings as needed, and removal of fencing and appurtenances, including furnishing all labor, tools, equipment, and incidentals necessary to perform the work.

## **BID ITEM 90002 - TEMPORARY PATH**

### **DESCRIPTION**

This item includes installation of temporary paths as shown on the plan set or as directed by the Construction Engineer. Work includes clearing and grubbing as necessary, excavation of topsoil, placement and grading of crushed aggregate, and maintaining the path for the duration of the project.

Temporary paths shall be a minimum of 12-feet wide. The crushed aggregate shall be a minimum of 12-inches thick and does not need to be placed on filter fabric. The Contractor shall grade the edges of the path as necessary. The paths shall be maintained in good condition throughout the duration of the project and shall be passable for pedestrians and bicycles. Temporary fencing shall be used to delineate the path when temporary paths are near construction limits, or working equipment, etc.

When the project is complete, and the permanent paths are restored, the Contractor shall topsoil, seed, and mat the temporary paths. Quantities of Crushed Aggregate, Topsoil, Seed, Erosion Control Matting, and Temporary Fencing shall be paid separately under the appropriate bid items.

### **METHOD OF MEASUREMENT**

Temporary Path shall be measured by the Linear Foot installed.

## **BASIS OF PAYMENT**

Cost for Temporary Path shall be paid for according to the contract unit price and shall be full compensation for all labor, tools, equipment, and incidentals necessary to perform the work.

## **BID ITEM 90003 – CHAIN LINK FENCE**

### **DESCRIPTION**

This bid item shall include all work, materials, labor, and incidentals required to install new chain link fence along the Inner Drive sidewalk, as shown on the plan set. The chain link fence shall be installed in accordance with the detail shown on Sheet D-2.

The Contractor shall minimize the time between the removal of the existing fence and the installation of the new fence. If possible, the fence shall be removed and replaced during the same working day. The Contractor shall remove and replace the fence within two working days.

When the sidewalk is not protected by a fence, the Contractor shall barricade the northeast edge of the sidewalk to protect pedestrians and crew, as well as place signs indicating a drop-off and/or fall hazard.

### **METHOD OF MEASUREMENT**

Chain Link Fence shall be measured by the Linear Foot of fence installed in the field.

## **BASIS OF PAYMENT**

Chain Link Fence shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

## **BID ITEM 90004 - REMOVE SHEET PILING**

### **DESCRIPTION**

Work under this bid item includes all equipment, materials, labor, and incidentals necessary to remove, haul off site, and appropriately dispose of the steel sheet pilings located at several locations along the primary channel. If possible, the preferred method of removal would be to pull the sheet piling, which will minimize disturbance to the channel bed. However, if necessary, the Contractor shall excavate the sheet piling to a depth below the riprap and filter fabric.

### **METHOD OF MEASUREMENT**

Remove Sheet Piling shall be measured by the Linear Foot removed, hauled, and disposed by the Contractor.

## **BASIS OF PAYMENT**

Remove Sheet Piling shall be paid for according to the contract unit price. Price shall include payment for providing and installing temporary fence and appurtenances, maintenance of fencing as required, creating and closing temporary openings as needed, and removal of fencing and appurtenances, including furnishing all labor, tools, equipment, and incidentals necessary to perform the work.

## **BID ITEM 90005 – REMOVE EXISTING LIMESTONE**

### **DESCRIPTION**

Work under this bid item shall include all labor, materials, equipment, and incidentals necessary to remove the deteriorating limestone riprap from the site. Removal shall be limited to stones larger than 4 inches. Smaller material may remain on site and be used as backfill. The limestone rubble removed from the site shall be properly disposed of by the Contractor and shall not be reused as backfill or riprap. This bid item shall also include, as necessary, removal and disposal of the existing filter fabric.

The Contractor, may if he or she chooses, sort the durable boulders from the limestone riprap and reuse the boulders on site, preferably as Bid Item 90036, 2.5-Foot Boulders (Glacial Stone).

The large, glacial boulders located immediately downstream of the culverts shall not be disturbed or removed from their locations. If the boulders are disturbed during channel armoring, the boulders shall be replaced in a stable configuration.

### **METHOD OF MEASUREMENT**

Remove Existing Limestone shall be measured by the Cubic Yard of deteriorated limestone riprap that is removed from the channels and hauled off site.

## **BASIS OF PAYMENT**

Remove Existing Limestone will be paid for at the contract sum price, which shall be full compensation for all work as provided in the description.

## **BID ITEM 90006 - EXCESS TOPSOIL HAULING**

### **DESCRIPTION**

This bid item shall include all work, materials, labor, and incidentals necessary to segregate, stockpile, and haul excess topsoil to Elver Park, located at 1250 McKenna Blvd. If large quantities of topsoil are hauled to the storage location, the Contractor shall be expected to shape and grade the piles. Management of excess topsoil shall be coordinated with Russ Hefty, who can be reached at [rhefty@cityofmadison.com](mailto:rhefty@cityofmadison.com) or (608) 267- 4918.

### **METHOD OF MEASUREMENT**

Excess Topsoil Hauling shall be measured by each Cubic Yard of material that is removed, stockpiled, and hauled to a Parks' facility.

### **BASIS OF PAYMENT**

Excess Topsoil Hauling shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

## **BID ITEM 90007 - SEEDING – SHADY WOODLAND MIX**

### **DESCRIPTION**

Work under this bid item shall include seeding with Shady Woodland Mix at the locations shown on the drawings or as directed by the Engineer. This work shall be in accordance with Article 207 of the Standard Specifications, except as provide below.

Seed Mix shall be custom mixed or a modified pre-designed mix from an approved native seed supplier. The native mix shall comply with the mix detailed below, or closely match. The mix shall include a cover crop as recommended by the native seed supplier or other approved cover crop, per Section 207.3(b). Rye will not be permitted as a cover crop.

Seed at the rate recommended by the manufacturer, 96 seeds per square foot, or 11.94 pounds per acre. Submit additions or substitutions and final mix to the Engineer for approval. Russ Hefty from City of Madison Parks Division (267-4918) shall inspect and approve the seed prior to placement.

Seed shall be native ecotypes. No improved varieties shall be allowed. Seed source shall be native ecotypes from Southeast Minnesota, Eastern Iowa, Southern Wisconsin, or Northern Illinois.

For the Contractor's information, a custom seed mix meeting these specifications (Madison Customized Shady Woodland Seed Mix) is available from Prairie Moon Nursery, Winona MN (866-417-8156). If not using this specific mix, please submit the mix design to the Engineer for approval.

This bid item shall include placement of soil stabilizer on all areas seeded in accordance with Section 207.2(d) of the Standard Specifications.

#### **METHOD OF MEASUREMENT**

Shady Woodland Mix Seeding shall be measured by the Square Yard based on the plan area. No adjustment will be made for slope.

#### **BASIS OF PAYMENT**

Shady Woodland Mix Seeding will be paid for at the contract price per square yard of seeding, which shall be payment in full for furnishing, handling, and storing all seed; for preparing the seed bed and sowing the seed; for furnishing, hauling, and placing soil stabilizers; for maintenance of the work and repair of all damaged areas; and for furnishing all labor, tools, equipment, and incidentals necessary to complete the work. Topsoil and ECRM shall be paid separately under bid items 20221 and 21061.

#### **BID ITEM 90008 – REMOVE AND REPLACE PADDLE GATE AT PARK ENTRANCE**

#### **DESCRIPTION**

This bid item shall include all labor, materials, equipment, and incidentals necessary to remove the paddle gate, located at the park entrance, prior to the start of construction. The gate shall be removed carefully, so as not to damage it. The Contractor shall store the gate in an appropriate location for the duration of the project and replace the gate in the same location at the completion of the project. The Contractor shall assure that the gate is not damaged during this process.

#### **METHOD OF MEASUREMENT**

Remove and Replace Paddle Gate at Park Entrance shall be paid for as a Lump Sum for the work as described above.

## **BASIS OF PAYMENT**

Remove and Replace Paddle Gate at Park Entrance shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

## **BID ITEM 90009 – CONSTRUCTION SURVEY**

### **DESCRIPTION**

This bid item shall include all labor, materials, equipment, and incidentals necessary to provide all construction staking and layout for the project. Control points and alignment data for the channels and access roads will be provided by the City. Staking will be checked by the City.

### **METHOD OF MEASUREMENT**

Construction Survey shall be paid for as a Lump Sum for the work as described above.

### **BASIS OF PAYMENT**

Construction Survey shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

## **BID ITEM 90030 – STORM CONTROL**

### **DESCRIPTION**

Work under this item shall include all work, materials, equipment, and incidentals required to control wet and dry weather flow in the channel where the work is to be completed. The contractor should expect that low flows could be present during dry weather; however, the primary channel can be expected to fill rapidly during rain events. These channels drain a large watershed including the entire West Towne area. The Contractor shall take all necessary steps to protect the new structures and channels from damage during construction and to accommodate the existing flows during construction.

This item includes all storm control necessary for all aspects of the Construction. This item is not for control of groundwater.

### **METHOD OF MEASUREMENT**

Storm Control shall be measured as a single Lump Sum for all storm control necessary throughout construction.

### **BASIS OF PAYMENT**

Storm Control will be paid for at the contract sum price, which shall be full compensation for all work as provided in the description.

## **BID ITEM 90031 – TEMPORARY DITCH CHECK**

### **DESCRIPTION**

Work under this item shall include installation of Temporary Ditch Checks for erosion control as shown on and described in the Erosion Control Plans, as required for erosion control and at locations as approved

or as directed by the Construction Engineer. Riprap, filter fabric, and clear stone required to construct the ditch checks shall be paid separately as bid items 90032, 20233, 20217, respectively.

#### **METHOD OF MEASUREMENT**

Temporary Ditch Check shall be measured by Each complete unit installed in the field.

#### **BASIS OF PAYMENT**

Temporary Ditch Check shall be measured as described above and shall be paid for at the contract price which shall be full compensation for all work, equipment, labor, and incidentals required to complete the work as set forth in the description and for maintenance of the Temporary Ditch Check as needed.

#### **BID ITEM 90032 - HEAVY RIPRAP – NON-SEDIMENTARY ROCK**

##### **DESCRIPTION**

Work under this item shall include furnishing and installing Heavy Riprap in accordance with Section 202 of the Standard Specifications, except that the riprap shall meet the requirements for Heavy Riprap cited in Section 606 of the latest edition of the Standard Specifications for Highway and Structure Construction by the State of Wisconsin Department of Transportation, and riprap shall consist of durable, non-sedimentary stone that is resistant to freeze-thaw degradation, such as quartzite or field stone. Limestone riprap will not be accepted. Riprap shall be placed a minimum of 2-ft thick in the channel lining, to the lines and grades shown on the drawings.

The Contractor shall begin riprap placement at the Forsythia cunette and work upstream. The Contractor shall limit stream disturbance to that which can be restored in a day. If riprap placement is started during the fall of 2013, the Contractor shall tie new riprap into the existing stream prior to a winter shut-down, or heavy snowfall.

Riprap shall be placed on filter fabric, paid separately as Item 20233 (Riprap Filter Fabric, Type HR). Removal of the existing, failed riprap shall be paid for separately under Bid Item 90005.

##### **METHOD OF MEASUREMENT**

Heavy Riprap shall be measured by the Ton in place. All tickets shall be presented to the City representative on the project within twenty-four (24) hours after delivery of the materials to the project.

##### **BASIS OF PAYMENT**

Heavy Riprap shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

#### **BID ITEM 90033 - FIELD BEND**

##### **DESCRIPTION**

Where shown on the drawings, the Contractor shall provide a 54" field bend. The field-poured bend shall be reinforced with welded wire fabric and shall utilize fiber reinforced concrete in the concrete collar itself. The interior or the joint shall be finished smooth to match the interior of adjoining surfaces.

##### **METHOD OF MEASUREMENT**

Individual or multiple precast bend sections that are assembled to provide the total angle required will be measured for payment as a single precast bend.

## **BASIS OF PAYMENT**

Field Bend shall be paid for according to the unit price bid. Price bid shall include all materials, labor and equipment necessary for a complete installation as specified in the description.

### **BID ITEM 90034 - SAND/WOOD CHIP MIX**

#### **DESCRIPTION**

This item includes all work, equipment, materials, and incidentals necessary to provide and install the sand/wood chip mix as shown on the plan set. The mix shall consist of 80 percent sand and 20 percent wood chips. Wood mulch available from the City of Madison Sycamore facility is acceptable. No dyed or treated mulch or wood chips will be permitted.

The sand shall meet the AASHTO-M-6 or ASTM-C-33 and be 0.02 to 0.04 in size. Sand substitutions such as Diabase and Graystone #10 are not acceptable. No calcium carbonate or dolomitic sand substitutions are acceptable. No "rock dust" can be used for sand. The minimum depth of the sand/wood chip mix shall be 1.5 feet.

Degraded limestone riprap shall be removed prior to placement of the sand/wood chip mix and shall be paid under Bid Item 90005. After removal of the degraded riprap, the sand/wood chip mix can be placed directly on the existing surface. Grading is not required unless doing so assists the Contractor. Filter fabric shall not be placed beneath the sand/wood chip mix.

Grading required to construct the pool sections shall be considered incidental to this bid item.

#### **METHOD OF MEASUREMENT**

Sand/Wood Chip Mix, as shown on the plan set, will be paid for based on the "plan quantity" as shown in the contract without measurement thereof. The plan quantity was computed by average end area based on the sections. No changes to this quantity shall be approved unless there are modifications to the plan that result in significant (>10%) change in quantity up or down.

## **BASIS OF PAYMENT**

Sand/Wood Chip Mix shall be paid for at the contract price, which shall be full compensation for all work as provided in the description.

### **BID ITEM 90035 - 9-INCH STONE**

#### **DESCRIPTION**

This item includes all work, materials, labor, and incidentals required to provide and install 9-inch stone as shown in the plan set and described in these Special Provisions. The 9-inch stone shall be used to construct the riffle sections within the secondary channel. Stone shall be comprised of angular, durable, non-sedimentary material that is not susceptible to freeze-thaw degradation. The stone shall meet the following size requirements:

<b>D50 Median Stone Size</b>	<b>% of Material Smaller than Typical Stone</b>	<b>Typical Equivalent (Inches)</b>	<b>Stone Diameter</b>	<b>Typical Stone Weight (Pounds)</b>
9	70-100	15		160
	50-70	12		85
	35-50	9		35
	2-10	3		1.3

The 9-inch stone shall be placed a minimum of 18 inches deep.

The riffle sections shall have a 0.005 foot/foot longitudinal slope, shall measure 8 feet along the direction of flow, and 24 feet perpendicular to the flow, or at the top of the channel. The horizontal slope shall not exceed 10H:1V. Please see Sheet D-2 for riffle section details.

#### **METHOD OF MEASUREMENT**

9-Inch Stone shall be measured by the Ton in place. All tickets shall be presented to the City representative on the project within twenty-four (24) hours after delivery of the materials to the project.

#### **BASIS OF PAYMENT**

9-Inch Stone shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

#### **BID ITEM 90036 - 2.5-FOOT BOULDERS (GLACIAL STONE)**

##### **DESCRIPTION**

This item includes all work, materials, labor, and incidentals required to provide and install boulders as shown on the plan set and described in these Special Provisions. Average boulder size shall be 2.5 feet in diameter. Minimum boulder size shall be 2.0 feet and maximum boulder size shall be 3.0 feet. Boulders shall be glacial field stone. Quarry stone will not be accepted.

The lowest boulder shall be imbedded a minimum of 6 inches below the bottom elevation of the pool. Boulders shall be placed with an average, or approximate, slope of 0.5 foot/foot slope. Riprap filter fabric (Type HR) shall be placed beneath the boulders. Filter fabric quantities shall be paid separately under Bid Item 20233.

The boulder cross-section shall measure 24- feet at the top of the channel, or riffle section, in accordance with the detail drawings. The horizontal slope shall not exceed 10H:1V. Please see Sheet D-2 for riffle section details.

##### **METHOD OF MEASUREMENT**

2.5-Foot Boulders (Glacial Stone) shall be measured by the Ton in place. All tickets shall be presented to the City representative on the project within twenty-four (24) hours after delivery of the materials to the project.

##### **BASIS OF PAYMENT**

2.5-Foot Boulders (Glacial Stone) shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

#### **BID ITEM 90037 - ROOT WADS**

##### **DESCRIPTION**

This bid item shall include all work, materials, labor, and incidentals required to install root wads as shown on the plan set and described in these Special Provisions. The root wads shall be comprised of clean, inverted, root-wads. The root wads shall be buried a minimum of 10 inches below the invert of the pool. Their size shall not exceed 10 percent of the pool volume, or approximately 1.25 cubic yards. The root wads shall be placed in the center of the pool in a vertical alignment.

Trees from the site may be used to harvest root wads, provided they are already marked for removal and the excavation of their root system does not damage any trees that are not already marked for removal. Any ground disturbance created by the harvest of root wads shall be immediately repaired, graded, and stabilized as necessary.

#### **METHOD OF MEASUREMENT**

Root Wads shall be measured by Each root wad provided and placed in the field.

#### **BASIS OF PAYMENT**

Root Wad shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

#### **BID ITEM 90038 – MODIFY EXISTING CUT-OFF WALL**

#### **DESCRIPTION**

This bid item shall include all work, materials, labor, and incidentals required to install a steel plate at the upstream face of the existing cut-off wall. The steel plate shall be a minimum of 3/8" and shall be doweled to the existing concrete footer as shown on Sheet D-1. The method of installation shall be determined by the Contractor. All excavations and voids associated with the cut-off wall shall be backfilled with either bentonite, compacted clay backfill, or Type A slurry. If slurry is used, it shall be in accordance with Section 301.9 of the Standard Specifications.

The Contractor shall not damage the existing concrete cunette during installation of the steel plate. Should damage occur to the cunette, it shall be repaired at the Contractor's expense.

#### **METHOD OF MEASUREMENT**

Modify Existing Cut-Off Wall shall be measured as a Lump Sum for the provision, transport, and installation of a 3/8" (minimum) steel plate as described above and shown on Sheet D-1.

#### **BASIS OF PAYMENT**

Modify Existing Cut-Off Wall shall be measured as described above and shall be paid for at the contract unit price, which shall be considered full compensation for furnishing, hauling, stockpiling as needed, and placing the material, including all equipment, tools, labor and incidentals necessary to complete the work as set forth in the description.

## SECTION E: BIDDERS ACKNOWLEDGEMENT

### OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013 CONTRACT NO. 7194

Bidder must state a Unit Price and Total Bid for each item. The Total Bid for each item must be the product of quantity, by Unit Price. The Grand Total must be the sum of the Total Bids for the various items. In case of multiplication errors or addition errors, the Grand Total with corrected multiplication and/or addition shall determine the Grand Total bid for each contract. The Unit Price and Total Bid must be entered numerically in the spaces provided. All words and numbers shall be written in ink.

1. The undersigned having familiarized himself/herself with the Contract documents, including Advertisement for Bids, Instructions to Bidders, Form of Proposal, City of Madison Standard Specifications for Public Works Construction - 2013 Edition thereto, Form of Agreement, Form of Bond, and Addenda issued and attached to the plans and specifications on file in the office of the City Engineer, hereby proposes to provide and furnish all the labor, materials, tools, and expendable equipment necessary to perform and complete in a workmanlike manner the specified construction on this project for the City of Madison; all in accordance with the plans and specifications as prepared by the City Engineer, including Addenda to the Contract Nos. \_\_\_\_\_ through \_\_\_\_\_ issued thereto, at the prices for said work as contained in this proposal. (Electronic bids submittals shall acknowledge addendum under Section E and shall not acknowledge here)
2. If awarded the Contract, we will initiate action within seven (7) days after notification or in accordance with the date specified in the contract to begin work and will proceed with diligence to bring the project to full completion within the number of work days allowed in the Contract or by the calendar date stated in the Contract.
3. The undersigned Bidder or Contractor certifies that he/she is not a party to any contract, combination in form of trust or otherwise, or conspiracy in restraint of trade or commerce or any other violation of the anti-trust laws of the State of Wisconsin or of the United States, with respect to this bid or contract or otherwise.
4. I hereby certify that I have met the Bid Bond Requirements as specified in Section 102.5.  
*(IF BID BOND IS USED, IT SHALL BE SUBMITTED ON THE FORMS PROVIDED BY THE CITY. FAILURE TO DO SO MAY RESULT IN REJECTION OF THE BID).*
5. I hereby certify that all statements herein are made on behalf of \_\_\_\_\_ (name of corporation, partnership, or person submitting bid) a corporation organized and existing under the laws of the State of \_\_\_\_\_ a partnership consisting of \_\_\_\_\_; an individual trading as \_\_\_\_\_ of the City of \_\_\_\_\_ State of \_\_\_\_\_; that I have examined and carefully prepared this Proposal, from the plans and specifications and have checked the same in detail before submitting this Proposal; that I have fully authority to make such statements and submit this Proposal in (its, their) behalf; and that the said statements are true and correct.

My Commission Expires \_\_\_\_\_

Bidders shall not add any conditions or qualifying statements to this Proposal.

## SECTION F: DISCLOSURE OF OWNERSHIP & BEST VALUE CONTRACTING

### OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013 CONTRACT NO. 7194

State of Wisconsin  
Department of Workforce Development  
Equal Rights Division  
Labor Standards Bureau

## Disclosure of Ownership

**Notice required under Section 15.04(1)(m), Wisconsin Statutes.** The statutory authority for the use of this form is prescribed in Sections 66.0903(12)(d) and 103.49(7)(d), Wisconsin Statutes. The use of this form is mandatory. The penalty for failing to complete this form is prescribed in Section 103.005(12), Wisconsin Statutes. Personal information you provide may be used for secondary purposes.

- (1) On the date a contractor submits a bid to or completes negotiations with a state agency or local governmental unit, on a project subject to Section 66.0903 or 103.49, Wisconsin Statutes, the contractor shall disclose to such state agency or local governmental unit the name of any "other construction business", which the contractor, or a shareholder, officer or partner of the contractor, owns or has owned within the preceding three (3) years.
- (2) The term "other construction business" means any business engaged in the erection, construction, remodeling, repairing, demolition, altering or painting and decorating of buildings, structures or facilities. It also means any business engaged in supplying mineral aggregate, or hauling excavated material or spoil as provided by Sections 66.0903(3), 103.49(2) and 103.50(2), Wisconsin Statutes.
- (3) This form must ONLY be filed, with the state agency or local governmental unit that will be awarding the contract, if **both (A) and (B) are met.**
  - (A) The contractor, or a shareholder, officer or partner of the contractor:
    - (1) Owns at least a 25% interest in the "other construction business", indicated below, on the date the contractor submits a bid or completes negotiations.
    - (2) Or has owned at least a 25% interest in the "other construction business" at any time within the preceding three (3) years.
  - (B) The Wisconsin Department of Workforce Development (DWD) has determined that the "other construction business" has failed to pay the prevailing wage rate or time and one-half the required hourly basic rate of pay, for hours worked in excess of the prevailing hours of labor, to any employee at any time within the preceding three (3) years.

**OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013  
CONTRACT NO. 7194**

**Best Value Contracting**

1. The Contractor shall indicate the non-apprenticeable trades used on this contract.

---

---

2. Madison General Ordinance (M.G.O.), 33.07(7), does provide for some exemptions from the active apprentice requirement. Apprenticeable trades are those trades considered apprenticeable by the State of Wisconsin. Please check applicable box if you are seeking an exemption.

- ☐ Contractor has a total skilled workforce of four or less individuals in all apprenticeable trades combined.
- ☐ No available trade training program; The Contractor has been rejected by the only available trade training program, or there is no trade training program within 90 miles.
- ☐ Contractor is not using an apprentice due to having a journey worker on layoff status, provided the journey worker was employed by the contractor in the past six months.
- ☐ First-time Contractor on City of Madison Public Works contract requests a onetime exemption but intends to comply on all future contracts and is taking steps typical of a "good faith" effort.
- ☐ Contractor has been in business less than one year.
- ☐ Contractor doesn't have enough journeyman trade workers to qualify for a trade training program in that respective trade

3. The Contractor shall indicate on the following section which apprenticeable trades are to be used on this contract. Compliance with active apprenticeship, to the extent required by M.G.O. 33.07(7), shall be satisfied by documentation from an applicable trade training body; an apprenticeship contract with the Wisconsin Department of Workforce Development or a similar agency in another state; or the U.S Department of Labor. This documentation is required prior to the Contractor beginning work on the project site.

- ☐ The Contractor has reviewed the list and shall not use any apprenticeable trades on this project.

**LIST APPRENTICABLE TRADES** (check all that apply to your work to be performed on this contract)

- ☐ BRICKLAYER
- ☐ CARPENTER
- ☐ CEMENT MASON / CONCRETE FINISHER
- ☐ CEMENT MASON (HEAVY HIGHWAY)

## **SECTION G: BID BOND**

KNOW ALL MEN BY THESE PRESENT, THAT \_\_\_\_\_ (a corporation of the State of \_\_\_\_\_) (individual), (partnership), hereinafter referred to as the "Principal") and \_\_\_\_\_, a corporation of the State of \_\_\_\_\_ (hereinafter referred to as the "Surety") and licensed to do business in the State of Wisconsin, are held and firmly bound unto the City of Madison, (hereinafter referred to as the "Obligee"), in the sum of five per cent (5%) of the amount of the total bid or bids of the Principal herein accepted by the Obligee, for the payment of which the Principal and the Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

The conditions of this obligation are such that, whereas the Principal has submitted, to the City of Madison a certain bid, including the related alternate, and substitute bids attached hereto and hereby made a part hereof, to enter into a contract in writing for the construction of:

### **OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013 CONTRACT NO. 7194**

1. If said bid is rejected by the Obligee, then this obligation shall be void.
2. If said bid is accepted by the Obligee and the Principal shall execute and deliver a contract in the form specified by the Obligee (properly completed in accordance with said bid) and shall furnish a bond for his/her faithful performance of said contract, and for the payment of all persons performing labor or furnishing materials in connection therewith, and shall in all other respects perform the agreement created by the acceptance of said bid, then this obligation shall be void.

If said bid is accepted by the Obligee and the Principal shall fail to execute and deliver the contract and the performance and payment bond noted in 2. above executed by this Surety, or other Surety approved by the City of Madison, all within the time specified or any extension thereof, the Principal and Surety agree jointly and severally to forfeit to the Obligee as liquidated damages the sum mentioned above, it being understood that the liability of the Surety for any and all claims hereunder shall in no event exceed the sum of this obligation as stated, and it is further understood that the Principal and Surety reserve the right to recover from the Obligee that portion of the forfeited sum which exceed the actual liquidated damages incurred by the Obligee.

The Surety, for value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall be in no way impaired or affected by an extension of the time within which the Obligee may accept such bid, and said Surety does hereby waive notice of any such extension.

IN WITNESS WHEREOF, the Principal and the Surety have hereunto set their hands and seals, and such of them as are corporations have caused their corporate seals to be hereto affixed and these presents to be signed by their proper officers, on the day and year set forth below.

## SECTION H: AGREEMENT

THIS AGREEMENT made this \_\_\_\_\_ day of \_\_\_\_\_ in the year Two Thousand and Thirteen between \_\_\_\_\_ hereinafter called the Contractor, and the City of Madison, Wisconsin, hereinafter called the City.

WHEREAS, the Common Council of the said City of Madison under the provisions of a resolution adopted \_\_\_\_\_, and by virtue of authority vested in the said Council, has awarded to the Contractor the work of performing certain construction.

NOW, THEREFORE, the Contractor and the City, for the consideration hereinafter named, agree as follows:

1. **Scope of Work.** The Contractor shall, perform the construction, execution and completion of the following listed complete work or improvement in full compliance with the Plans, Specifications, Standard Specifications, Supplemental Specifications, Special Provisions and contract; perform all items of work covered or stipulated in the proposal; perform all altered or extra work; and shall furnish, unless otherwise provided in the contract, all materials, implements, machinery, equipment, tools, supplies, transportation, and labor necessary to the prosecution and completion of the work or improvements:

### OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013 CONTRACT NO. 7194

2. **Completion Date/Contract Time.** Construction work must begin within seven (7) calendar days after the date appearing on mailed written notice to do so shall have been sent to the Contractor and shall be carried on at a rate so as to secure full completion SEE SPECIAL PROVISIONS, the rate of progress and the time of completion being essential conditions of this Agreement.
3. **Contract Price.** The City shall pay to the Contractor at the times, in the manner and on the conditions set forth in said specifications, the sum of \_\_\_\_\_ (\$ \_\_\_\_\_) Dollars being the amount bid by such Contractor and which was awarded to him/her as provided by law.

4. **Wage Rates for Employees of Public Works Contractors**

**General and Authorization.** The Contractor shall compensate its employees at the prevailing wage rate in accordance with section 66.0903, Wis. Stats., DWD 290 of the Wisconsin Administrative Code and as hereinafter provided unless otherwise noted in Section D: Special Provisions, Subsection 102.10 – Minimum Rate of Wage Scale.

“Public Works” shall include building or work involving the erection, construction, remodeling, repairing or demolition of buildings, parking lots, highways, streets, bridges, sidewalks, street lighting, traffic signals, sanitary sewers, water mains and appurtenances, storm sewers, and the grading and landscaping of public lands.

“Building or work” includes construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work, except for the delivery of mineral aggregate such as sand, gravel, bituminous asphaltic concrete or stone which is incorporated into the work under contract with the City by depositing the material directly in final place from transporting vehicle.

“Erection, construction, remodeling, repairing” means all types of work done on a particular building or work at the site thereof in the construction or development of the project, including without limitation, erecting, construction, remodeling, repairing, altering, painting, and decorating, the transporting of materials and supplies to or from the building or work done by the employees of the Contractor, Subcontractor, or Agent thereof, and the manufacturing or furnishing of

materials, articles, supplies or equipment on the site of the building or work, by persons employed by the Contractor, Subcontractor, or Agent thereof.

"Employees working on the project" means laborers, workers, and mechanics employed directly upon the site of work.

"Laborers, Workers, and Mechanics" include pre-apprentices, helpers, trainees, learners and properly registered and indentured apprentices but exclude clerical, supervisory, and other personnel not performing manual labor.

**Establishment of Wage Rates.** The Department of Public Works shall periodically obtain a current schedule of prevailing wage rates from DWD. The schedule shall be used to establish the City of Madison Prevailing Wage Rate Schedule for Public Works Construction (prevailing wage rate). The Department of Public Works may include known increases to the prevailing wage rate which can be documented and are to occur on a future specific date. The prevailing wage rate shall be included in public works contracts subsequently negotiated or solicited by the City. Except for known increases contained within the schedule, the prevailing wage rate shall not change during the contract. The approved wage rate is attached hereto.

**Workforce Profile.** The Contractor shall, at the time of signature of the contract, notify the City Engineer in writing of the names and classifications of all the employees of the Contractor, Subcontractors, and Agents proposed for the work. In the alternative, the Contractor shall submit in writing the classifications of all the employees of the Contractor, Subcontractors and Agents and the total number of hours estimated in each classification for the work. This workforce profile(s) shall be reviewed by the City Engineer who may, within ten (10) days, object to the workforce profile(s) as not being reflective of that which would be required for the work. The Contractor may request that the workforce profile, or a portion of the workforce profile, be submitted after the signature of the contract but at least ten (10) days prior to the work commencing. Any costs or time loss resulting from modifications to the workforce profile as a result of the City Engineer's objections shall be the responsibility of the Contractor.

**Payrolls and Records.** The Contractor shall keep weekly payroll records setting forth the name, address, telephone number, classification, wage rate and fringe benefit package of all the employees who work on the contract, including the employees of the Contractor's subcontractors and agents. Such weekly payroll records must include the required information for all City contracts and all other contracts on which the employee worked during the week in which the employee worked on the contract. The Contractor shall also keep records of the individual time each employee worked on the project and for each day of the project. Such records shall also set forth the total number of hours of overtime credited to each such employee for each day and week and the amount of overtime pay received in that week. The records shall set forth the full weekly wages earned by each employee and the actual hourly wage paid to the employee.

The Contractor shall submit the weekly payroll records, including the records of the Contractor's subcontractors and agents, to the City Engineer for every week that work is being done on the contract. The submittal shall be within twenty-one (21) calendar days of the end of the Contractor's weekly pay period.

Employees shall receive the full amounts accrued at the time of the payment, computed at rates not less than those stated in the prevailing wage rate and each employee's rate shall be determined by the work that is done within the trade or occupation classification which should be properly assigned to the employee.

An employee's classification shall not be changed to a classification of a lesser rate during the contract. If, during the term of the contract, an employee works in a higher pay classification than the one which was previously properly assigned to the employee, then that employee shall be considered to be in the higher pay classification for the balance of the contract, receive the appropriate higher rate of pay, and she/he shall not receive a lesser rate during the balance of the

contract. For purposes of clarification, it is noted that there is a distinct difference between working in a different classification with higher pay and doing work within a classification that has varying rates of pay which are determined by the type of work that is done within the classification. For example, the classification "Operating Engineer" provides for different rates of pay for various classes of work and the Employer shall compensate an employee classified as an "Operating Engineer" based on the highest class of work that is done in one day. Therefore, an "Operating Engineer's" rate may vary on a day to day basis depending on the type of work that is done, but it will never be less than the base rate of an "Operating Engineer". Also, as a matter of clarification, it is recognized that an employee may work in a higher paying classification merely by chance and without prior intention, calculation or design. If such is the case and the performance of the work is truly incidental and the occurrence is infrequent, inconsequential and does not serve to undermine the single classification principle herein, then it may not be required that the employee be considered to be in the higher pay classification and receive the higher rate of pay for the duration of the contract. However, the Contractor is not precluded or prevented from paying the higher rate for the limited time that an employee performs work that is outside of the employee's proper classification.

Questions regarding an employee's classification, rate of pay or rate of pay within a classification, shall be resolved by reference to the established practice that predominates in the industry and on which the trade or occupation rate/classification is based. Rate of pay and classification disputes shall be resolved by relying upon practices established by collective bargaining agreements and guidelines used in such determination by appropriate recognized trade unions operating within the City of Madison.

The Contractor, its Subcontractors and Agents shall submit to interrogation regarding compliance with the provisions of this ordinance.

Mulcting of the employees by the Contractor, Subcontractor, and Agents on Public Works contracts, such as by kickbacks or other devices, is prohibited. The normal rate of wage of the employees of the Contractor, Subcontractor, and Agents shall not be reduced or otherwise diminished as a result of payment of the prevailing wage rate on a public works contract.

**Hourly contributions.** Hourly contributions shall be determined in accordance with the prevailing wage rate and with DWD. 290.01(10), Wis. Admin. Code.

**Apprentices and Subjourney persons.** Apprentices and sub journeypersons performing work on the project shall be compensated in accordance with the prevailing wage rate and with DWD 290.02, and 290.025, respectively, Wis. Admin. Code.

**Straight Time Wages.** The Contractor may pay straight time wages as determined by the prevailing wage rate and DWD 290.04, Wis. Admin. Code.

**Overtime Wages.** The Contractor shall pay overtime wages as required by the prevailing wage rate and DWD 290.05, Wis. Admin. Code.

**Posting of Wage Rates and Hours.** A clearly legible copy of the prevailing wage rate, together with the provisions of Sec. 66.0903(10)(a) and (11)(a), Wis. Stats., shall be kept posted in at least one conspicuous and easily accessible place at the project site by the Contractor and such notice shall remain posted during the full time any laborers, workers or mechanics are employed on the contract.

**Evidence of Compliance by Contractor.** Upon completion of the contract, the Contractor shall file with the Department of Public Works an affidavit stating:

- a. That the Contractor has complied fully with the provisions and requirements of Sec. 66.0903(3), Wis. Stats., and Chapter DWD 290, Wis. Admin. Code; the Contractor has received evidence of compliance from each of the agents and subcontractors; and the

names and addresses of all of the subcontractors and agents who worked on the contract.

- b. That full and accurate records have been kept, which clearly indicate the name and trade or occupation of every laborer, worker or mechanic employed by the Contractor in connection with work on the project. The records shall show the number of hours worked by each employee and the actual wages paid therefore; where these records will be kept and the name, address and telephone number of the person who will be responsible for keeping them. The records shall be retained and made available for a period of at least three (3) years following the completion of the project of public works and shall not be removed without prior notification to the municipality.

**Evidence of Compliance by Agent and Subcontractor.** Each agent and subcontractor shall file with the Contractor, upon completion of their portion of the work on the contract an affidavit stating that all the provisions of Sec. 66.0903(3), Wis. Stats., have been fully complied with and that full and accurate records have been kept, which clearly indicate the name and trade or occupation of every laborer, worker or mechanic employed by the Contractor in connection with work on the project. The records shall show the number of hours worked by each employee and the actual wages paid therefore; where these records shall be kept and the name, address and telephone number of the person who shall be responsible for keeping them. The records shall be retained and made available for a period of at least three (3) years following the completion of the project of public works and shall not be removed without prior notification to the municipality.

**Failure to Comply with the Prevailing Wage Rate.** If the Contractor fails to comply with the prevailing wage rate, she/he shall be in default on the contract.

5. **Affirmative Action.** In the performance of the services under this Agreement the Contractor agrees not to discriminate against any employee or applicant because of race, religion, marital status, age, color, sex, disability, national origin or ancestry, income level or source of income, arrest record or conviction record, less than honorable discharge, physical appearance, sexual orientation, political beliefs, or student status. The Contractor further agrees not to discriminate against any subcontractor or person who offers to subcontract on this contract because of race, religion, color, age, disability, sex or national origin.

The Contractor agrees that within thirty (30) days after the effective date of this agreement, the Contractor will provide to the City Affirmative Action Division certain workforce utilization statistics, using a form to be furnished by the City.

If the contract is still in effect, or if the City enters into a new agreement with the Contractor, within one year after the date on which the form was required to be provided, the Contractor will provide updated workforce information using a second form, also to be furnished by the City. The second form will be submitted to the City Affirmative Action Division no later than one year after the date on which the first form was required to be provided.

The Contractor further agrees that, for at least twelve (12) months after the effective date of this contract, it will notify the City Affirmative Action Division of each of its job openings at facilities in Dane County for which applicants not already employees of the Contractor are to be considered. The notice will include a job description, classification, qualifications and application procedures and deadlines. The Contractor agrees to interview and consider candidates referred by the Affirmative Action Division if the candidate meets the minimum qualification standards established by the Contractor, and if the referral is timely. A referral is timely if it is received by the Contractor on or before the date started in the notice.

Articles of Agreement  
Article I

The Contractor shall take affirmative action in accordance with the provisions of this contract to insure that applicants are employed, and that employees are treated during employment without regard to race, religion, color, age, marital status, disability, sex or national origin and that the employer shall provide harassment free work environment for the realization of the potential of each employee. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training including apprenticeship insofar as it is within the control of the Contractor. The Contractor agrees to post in conspicuous places available to employees and applicants notices to be provided by the City setting out the provisions of the nondiscrimination clauses in this contract.

Article II

The Contractor shall in all solicitations or advertisements for employees placed by or on behalf of the Contractor state that all qualified or qualifiable applicants will be employed without regard to race, religion, color, age, marital status, disability, sex or national origin.

Article III

The Contractor shall send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice to be provided by the City advising the labor union or worker's representative of the Contractor's equal employment opportunity and affirmative action commitments. Such notices shall be posted in conspicuous places available to employees and applicants for employment.

Article V

The Contractor agrees that it will comply with all provisions of the Affirmative Action Ordinance of the City of Madison, including the contract compliance requirements. The Contractor agrees to submit the model affirmative action plan for public works contractors in a form approved by the Director of Affirmative Action.

Article VI

The Contractor will maintain records as required by Section 39.02(9)(f) of the Madison General Ordinances and will provide the City Affirmative Action Division with access to such records and to persons who have relevant and necessary information, as provided in Section 39.02(9)(f). The City agrees to keep all such records confidential, except to the extent that public inspection is required by law.

Article VII

In the event of the Contractor's or subcontractor's failure to comply with the Equal Employment Opportunity and Affirmative Action Provisions of this contract or Section 39.03 and 39.02 of the Madison General Ordinances, it is agreed that the City at its option may do any or all of the following:

1. Cancel, terminate or suspend this Contract in whole or in part.
2. Declare the Contractor ineligible for further City contracts until the Affirmative Action requirements are met.

3. Recover on behalf of the City from the prime Contractor 0.5 percent of the contract award price for each week that such party fails or refuses to comply, in the nature of liquidated damages, but not to exceed a total of five percent (5%) of the contract price, or five thousand dollars (\$5,000), whichever is less. Under public works contracts, if a subcontractor is in noncompliance, the City may recover liquidated damages from the prime Contractor in the manner described above. The preceding sentence shall not be construed to prohibit a prime Contractor from recovering the amount of such damage from the non-complying subcontractor.

#### Article VIII

The Contractor shall include the above provisions of this contract in every subcontract so that such provisions will be binding upon each subcontractor. The Contractor shall take such action with respect to any subcontractor as necessary to enforce such provisions, including sanctions provided for noncompliance.

#### Article IX

The Contractor shall allow the maximum feasible opportunity to small business enterprises to compete for any subcontracts entered into pursuant to this contract.

**OWEN PARK DRAINAGE CHANNEL STABILIZATION - 2013  
CONTRACT NO. 7194**

IN WITNESS WHEREOF, the Contractor has hereunto set his/her hand and seal and the City has caused these presents to be sealed with its corporate seal and to be subscribed by its Mayor and City Clerk the day and year first above written.

## **SECTION J: PREVAILING WAGE RATES**

## PREVAILING WAGE RATE DETERMINATION

Issued by the State of Wisconsin  
Department of Workforce Development  
Pursuant to s. 66.0903, Wis. Stats.  
Issued On: 01/10/2013  
Amended On: 02/18/2013

**DETERMINATION NUMBER:** 201300080

**EXPIRATION DATE:** Prime Contracts MUST Be Awarded or Negotiated On Or Before 12/31/2013. If NOT, You MUST Reapply.

**PROJECT NAME:** ALL PUBLIC WORKS PROJECTS UNDER SEC 66.0903, STATS - CITY OF MADISON

**PROJECT LOCATION:** MADISON CITY, DANE COUNTY, WI

**CONTRACTING AGENCY:** CITY OF MADISON-ENGINEERING

<b>CLASSIFICATION:</b>	Contractors are responsible for correctly classifying their workers. Either call the Department of Workforce Development (DWD) with trade or classification questions or consult DWD's Dictionary of Occupational Classifications & Work Descriptions on the DWD website at: <a href="http://dwd.wisconsin.gov/er/prevailing_wage_rate/Dictionary/dictionary_main.htm">dwd.wisconsin.gov/er/prevailing_wage_rate/Dictionary/dictionary_main.htm</a> .
<b>OVERTIME:</b>	<p>Time and one-half must be paid for all hours worked:</p> <ul style="list-style-type: none"><li>- over 10 hours per day on prevailing wage projects</li><li>- over 40 hours per calendar week</li><li>- Saturday and Sunday</li><li>- on all of the following holidays: January 1; the last Monday in May; July 4; the 1st Monday in September; the 4th Thursday in November; December 25;</li><li>- The day before if January 1, July 4 or December 25 falls on a Saturday;</li><li>- The day following if January 1, July 4 or December 25 falls on a Sunday.</li></ul> <p>Apply the time and one-half overtime calculation to whichever is higher between the Hourly Basic Rate listed on this project determination or the employee's regular hourly rate of pay. Add any applicable Premium or DOT Premium to the Hourly Basic Rate before calculating overtime.</p> <p>A DOT Premium (discussed below) may supersede this time and one-half requirement.</p>
<b>FUTURE INCREASE:</b>	When a specific trade or occupation requires a future increase, you MUST add the full hourly increase to the "TOTAL" on the effective date(s) indicated for the specific trade or occupation.
<b>PREMIUM PAY:</b>	If indicated for a specific trade or occupation, the full amount of such pay MUST be added to the "HOURLY BASIC RATE OF PAY" indicated for such trade or occupation, whenever such pay is applicable.
<b>DOT PREMIUM:</b>	This premium only applies to highway and bridge projects owned by the Wisconsin Department of Transportation and to the project type heading "Airport Pavement or State Highway Construction." DO NOT apply the premium calculation under any other project type on this determination.
<b>APPRENTICES:</b>	Pay apprentices a percentage of the applicable journey person's hourly basic rate of pay and hourly fringe benefit contributions specified in this determination. Obtain the appropriate percentage from each apprentice's contract or indenture.
<b>SUBJOURNEY:</b>	Subjourney wage rates may be available for some of the trades or occupations indicated below with the exception of laborers, truck drivers and heavy equipment operators. Any employer interested in using a subjourney classification on this project MUST complete Form ERD-10880 and request the applicable wage rate from the Department of Workforce Development PRIOR to using the subjourney worker on this project.

This document **MUST BE POSTED** by the **CONTRACTING AGENCY** in at least one conspicuous and easily accessible place **on the site of the project**. A local governmental unit may post this document at the place normally used to post public notices if there is no common site on the project. This document **MUST** remain posted during the entire time any worker is employed on the project and **MUST** be physically incorporated into the specifications and all contracts and subcontracts. If you have any questions, please write to the Equal Rights Division, Labor Standards Bureau, P.O. Box 8928, Madison, Wisconsin 53708 or call (608) 266-6861.

**The following statutory provisions apply to local governmental unit projects of public works and are set forth below pursuant to the requirements of s. 66.0903(8), Stats.**

**s. 66.0903 (1) (f) & s. 103.49 (1) (c) "PREVAILING HOURS OF LABOR"** for any trade or occupation in any area means 10 hours per day and 40 hours per week and may not include any hours worked on a Saturday or Sunday or on any of the following holidays:

1. January 1.
2. The last Monday in May.
3. July 4.
4. The first Monday in September.
5. The 4th Thursday in November.
6. December 25.
7. The day before if January 1, July 4 or December 25 falls on a Saturday.
8. The day following if January 1, July 4 or December 25 falls on a Sunday.

**s. 66.0903 (10) RECORDS; INSPECTION; ENFORCEMENT.**

(a) Each contractor, subcontractor, or contractor's or subcontractor's agent performing work on a project of public works that is subject to this section shall keep full and accurate records clearly indicating the name and trade or occupation of every person performing the work described in sub. (4) and an accurate record of the number of hours worked by each of those persons and the actual wages paid for the hours worked.

**s. 66.0903 (11) LIABILITY AND PENALTIES.**

(a) 1. Any contractor, subcontractor, or contractor's or subcontractor's agent who fails to pay the prevailing wage rate determined by the department under sub. (3) or who pays less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor is liable to any affected employee in the amount of his or her unpaid wages or his or her unpaid overtime compensation and in an additional amount as liquidated damages as provided under subd. 2., 3., whichever is applicable.

2. If the department determines upon inspection under sub. (10) (b) or (c) that a contractor, subcontractor, or contractor's or subcontractor's agent has failed to pay the prevailing wage rate determined by the department under sub. (3) or has paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor, the department shall order the contractor to pay to any affected employee the amount of his or her unpaid wages or his or her unpaid overtime compensation and an additional amount equal to 100 percent of the amount of those unpaid wages or that unpaid overtime compensation as liquidated damages within a period specified by the department in the order.

3. In addition to or in lieu of recovering the liability specified in subd. 1. as provided in subd. 2., any employee for and in behalf of that employee and other employees similarly situated may commence an action to recover that liability in any court of competent jurisdiction. If the court finds that a contractor, subcontractor, or contractor's or subcontractor's agent has failed to pay the prevailing wage rate determined by the department under sub. (3) or has paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor, the court shall order the contractor, subcontractor, or agent to pay to any affected employee the amount of his or her unpaid wages or his or her unpaid overtime compensation and an additional amount equal to 100 percent of the amount of those unpaid wages or that unpaid overtime compensation as liquidated damages.

5. No employee may be a party plaintiff to an action under subd. 3. unless the employee consents in writing to become a party and the consent is filed in the court in which the action is brought. Notwithstanding s. 814.04 (1), the court shall, in addition to any judgment awarded to the plaintiff, allow reasonable attorney fees and costs to be paid by the defendant.

**BUILDING OR HEAVY CONSTRUCTION**

Includes sheltered enclosures with walk-in access for the purpose of housing persons, employees, machinery, equipment or supplies and non-sheltered work such as canals, dams, dikes, reservoirs, storage tanks, etc. A sheltered enclosure need not be "habitable" in order to be considered a building. The installation of machinery and/or equipment, both above and below grade level, does not change a project's character as a building. On-site grading, utility work and landscaping are included within this definition. Residential buildings of four (4) stories or less, agricultural buildings, parking lots and driveways are NOT included within this definition.

### RESIDENTIAL OR AGRICULTURAL CONSTRUCTION

Includes single family houses or apartment buildings of no more than four (4) stories in height and all buildings, structures or facilities that are primarily used for agricultural or farming purposes, excluding commercial buildings. For classification purposes, the exterior height of a residential building, in terms of stories, is the primary consideration. All incidental items such as site work, driveways, parking lots, private sidewalks, private septic systems or sewer and water laterals connected to a public system and swimming pools are included within this definition. Residential buildings of five (5) stories and above are NOT included within this definition.
