In order that comparisons between the Special Provisions can be readily made, the numbering system for the Special Provisions is equivalent to that of the Specifications.

Whenever in these Specifications the term "Standard Specifications" appears, it shall be taken to refer to the City of Madison Standard Specifications for Public Works Construction and Supplements thereto.

#### **SECTION 102.12      BEST VALUE CONTRACTING**

This Contract shall be considered a Best Value Contract if the Contractor's bid is equal to or greater than \$59,000 for a single trade contract; or equal to or greater than \$288,000 for a multi-trade contract pursuant to MGO 33.07(7).

#### **ARTICLE 103      AWARD AND EXECUTION OF THE CONTRACT**

The awarded Contractor shall completely execute the signing of all contract documents and submit them to City Engineering (Attn: Alane Boutelle, 1600 Emil Street, Madison, WI 53703) prior to **12:00 pm on Friday, September 8, 2017**. Delays by the Contractor in submitting the required completed contract documents will not adjust the project completion date.

The Payment and Performance Bonds shall be dated no sooner than **Wednesday, September 6, 2017**.

#### **ARTICLE 104      SCOPE OF WORK**

This work generally consists of pavement improvement to be performed on approximately 1,400 feet of the Southwest Path and on approximately 475 feet of the Wingra Creek Path. The work consists of asphalt path grinding, pulverizing, and paving.

Work shall include, but is not limited to: full width pavement grinding; base course installation; asphaltic paving, and restoration.

The Contractor shall view the sites prior to bidding to become familiar with the existing conditions. It will be the responsibility of the Contractor to work with the utilities located in the right of way to resolve conflicts during the construction process.

#### **SECTION 105.12      COOPERATION BY THE CONTRACTOR**

Although multiple utilities are present within the project limits, no utility work or conflicts are expected with this project. However, the Contractor shall coordinate their work to allow access to utility companies to install new facilities and resolve any conflicts that may arise.

The Contractor shall use care around existing trees, plantings, fences, walls, steps and driveways that are indicated on the plans to remain. Damage to these items during construction shall be repaired or replaced at the Contractor's expense. No trees shall be cut without the approval of the Engineer and the City Forester; the abutting property owners shall be notified in accordance with the City's Administrative Procedure Memorandum No. 6-2.

**SECTION 107.1            PUBLIC CONVENIENCE AND SAFETY**

The Contractor shall take great care to avoid damaging existing pavement along this access easement and will be financially responsible for repairs if damage occurs. No hauling shall take place on other local streets without prior written approval of the Construction Engineer.

The Contractor shall use care around all existing trees, prairie grass areas and any potentially sensitive lands and waters. No tree roots shall be cut without the approval of the Engineer and the City Forester. The Contractor shall coordinate work around trees with Brad Hofmann, City Forestry, 267-4908.

The closure shall start at 9:00 a.m. on the first day, and may be closed until project completion on the second day. The closure shall not coincide with a UW-Madison home football game.

The Contractor shall sign an eastbound detour that uses Prospect Avenue to Commonwealth Avenue to Rowley Avenue to Spooner Street to Regent Street to Breese Terrace and back to the bike path. The contractor shall post "No Parking" signs on the south side of Regent Street to create room for bikes on the street. Signs must be placed at least 48 hours in advance of the closure.
