Yog hais tias koj xav tau ib tug neeg txhais lus, ib tug neeg txhais ntawv, cov ntawv ua lwm hom ntawv los sis lwm cov kev pab kom siv tau cov kev pab, cov kev ua ub no (activity) los sis qhov kev pab cuam, thov hu rau tus xov tooj hauv qab yam tsawg peb hnub ua hauj lwm ua ntej yuav tuaj sib tham.

For assistance, please contact the Water Utility at (608) 266-4651 or email water@madisonwater.org.

DRINKING WATER QUALITY PUBLIC MEETING- PFAS

Representatives from Madison Water Utility, Public Health Madison Dane County, and the Wisconsin Dept. of Health Services will discuss the detection of perfluorinated compounds (PFAS) at municipal Well n 2019, Madison Water Utility tested all Madison municipal wells for a widely-used class of chemicals known as PFAS. The utility detected low or trace levels of various types of PFAS in 14 of the city's 23 wells. Recent news reports have left many residents concerned about those detections, especially in Well 9 on Spaanem Avenue. Utility and public health employees will be on-hand to provide testing details and discuss what we know -- and what we don't know -- about these unregulated compounds.

For some background about this issue, please visit the Madison Water Utility's PFAS testing page here: madisonwater.org/PFAS

A quorum of the Water Utility Board may be present at the meeting.
