11/13/23	PLAN COMMISSION	RECOMMEND TO COUNCIL TO ADOPT - PUBLIC HEARING

On a motion by Ald. Figueroa Cole, seconded by Ald. Field, the Plan Commission recommended approval to the Common Council of the proposed amendments to the Comprehensive Plan as outlined in the staff memo dated November 13, 2023 and the

following additions and revisions:

- Draft text to include in the Low Residential (LR) category description October 11, /2023 version: *"Many small institutional uses, such as places of worship, are mapped as Low Residential (LR), consistent with their surroundings. If current institutions embedded in residential areas relocate, cease to exist, or remain as part of a redevelopment, such sites may be redeveloped with more intensive residential uses. Redevelopment with Low-Medium Residential (LMR) uses is appropriate. In limited circumstances, intensities and heights in the Medium Residential (MR) land use category could be appropriate for **the site or** a portion of the site. Due to site[1]specific considerations, MR intensities may not be appropriate for all sites. Factors to be considered include relationships between proposed buildings and their surroundings, natural features, lot and block characteristics, and access to urban services, transit, arterial streets, parks, and amenities."*

- In the new LMR escalator clause, remove language related to Area Plans as follows: **** Appropriate in select parts of the city at up to 70 DU/ac and four stories. ~~except for parts of the city with an Area Plan adopted after the 2023 Comprehensive Plan Interim Update.~~** Factors to be considered include relationships between proposed buildings and their surroundings, natural features, lot and block characteristics, and access to urban services, transit, arterial streets, parks, and amenities.

- Draft text to include in the Special Institutional (SI) category description October 11, 2023 version: *"Buildings that include places of worship, schools, and other institutions may be optimal for adaptive reuse or redevelopment with residential uses when the institutional use(s) relocate, cease to exist, or perhaps remain as part of a redevelopment. These sites are often embedded in residential areas, and are typically larger than most surrounding residential lots, making them good candidates for more intensive residential development. Redevelopment with Low-Medium Residential (LMR) uses is appropriate. In limited circumstances, intensities and heights in the Medium Residential (MR) land use category could be appropriate for **the site or** a portion of the site. Due to site-specific considerations, MR intensities may not be appropriate for all sites. Factors to be considered include relationships between proposed buildings and their surroundings, natural features, lot and block characteristics, and access to urban services, transit, arterial streets, parks, and amenities."*

- Related to the specific amendments to Generalized Future Land Use maps,

- Application 1 - Keep as LR
- Application 4 - Keep as Employment
- Application 7 - Keep as Employment/Industrial
- Application 8 - Change from Employment to MR

- Add a definition of 'community gardens' to the Comprehensive Plan.

The motion to recommend approval as amended passed by voice vote/ other.

11/13/23 PLAN COMMISSION RECOMMEND TO COUNCIL TO ADOPT
WITH CONDITIONS - REPORT OF
OFFICER

On a motion by Ald. Figueroa Cole, seconded by Ald. Field, the Plan Commission recommended approval to the Common Council of the proposed amendments to the Comprehensive Plan as outlined in the staff memo dated November 13, 2023 and the following additions and revisions:

- Draft text to include in the Low Residential (LR) category description October 11, /2023 version: *"Many small institutional uses, such as places of worship, are mapped as Low Residential (LR), consistent with their surroundings. If current institutions embedded in residential areas relocate, cease to exist, or remain as part of a redevelopment, such sites may be redeveloped with more intensive residential uses. Redevelopment with Low-Medium Residential (LMR) uses is appropriate. In limited circumstances, intensities and heights in the Medium Residential (MR) land use category could be appropriate for **the site or** a portion of the site. Due to site[1]specific considerations, MR intensities may not be appropriate for all sites. Factors to be considered include relationships between proposed buildings and their surroundings, natural features, lot and block characteristics, and access to urban services, transit, arterial streets, parks, and amenities."*

- In the new LMR escalator clause, remove language related to Area Plans as follows: ** Appropriate in select conditions at up to 70 DU/ac and four stories. ~~except for parts of the city with an Area Plan adopted after the 2023 Comprehensive Plan Interim Update.~~ Factors to be considered include relationships between proposed buildings and their surroundings, natural features, lot and block characteristics, and access to urban services, transit, arterial streets, parks, and amenities.

- Draft text to include in the Special Institutional (SI) category description October 11, 2023 version: *"Buildings that include places of worship, schools, and other institutions*

may be optimal for adaptive reuse or redevelopment with residential uses when the institutional use(s) relocate, cease to exist, or perhaps remain as part of a redevelopment. These sites are often embedded in residential areas, and are typically larger than most surrounding residential lots, making them good candidates for more intensive residential development. Redevelopment with Low-Medium Residential (LMR) uses is appropriate. In limited circumstances, intensities and heights in the Medium Residential (MR) land use category could be appropriate for the site or a portion of the site. Due to site-specific considerations, MR intensities may not be appropriate for all sites. Factors to be considered include relationships between proposed buildings and their surroundings, natural features, lot and block characteristics, and access to urban services, transit, arterial streets, parks, and amenities.”

- Related to the specific amendments to Generalized Future Land Use maps,

- Application 1 - Keep as LR
- Application 4 - Keep as Employment
- Application 7 - Keep as Employment/Industrial
- Application 8 - Change from Employment to MR

- Add a definition of 'community gardens' to the Comprehensive Plan.

The motion to recommend approval as amended passed by voice vote/ other. Resolution 80367 also serves as the resolution of the Plan Commission required by Wis. Stats. Sec. 66.1001(4) to adopt the Comprehensive Plan amendments.
