

# Capitol East Parking Structure Design Open House

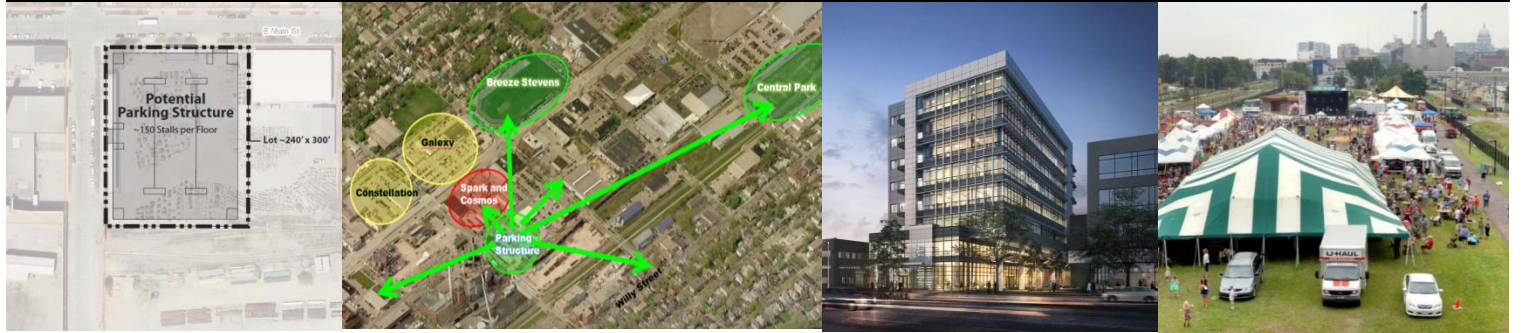

**JAN. 31, 5PM–7PM**

**ARCHIPELAGO VILLAGE DESIGN CENTER**

**945 E. WASHINGTON AVE**

(across the street from Breese Stevens Field with parking and entrance in the rear of the building)

The City of Madison is beginning a process of designing a new parking structure at the corner of East Main and South Livingston Streets. Preliminary plans call for a parking structure with approximately 600 stalls, and a commercial space that may be used for artists' studios. The Parking Structure will serve the “Spark” and “Cosmos” buildings being developed across the street, and will provide publicly available parking to meet the growing needs of the Capitol East District.

**Come join a community open house to review preliminary design concepts and share your ideas.**
