BCC: ALL ALDERS

Hello,

After receiving the email below, titled "*Alder Ochowicz Moves to Fire IPM Aeiramique Glass*," I took the liberty of contacting the Dane County Medical Examiner's Office to inquire about the status of Mr. Johnson's case.

I was hoping to learn more about the status of their investigation and whether there was any consideration being given to revisiting or changing the stated cause of death.

At the time of my inquiry, I was disappointed to learn there had been no apparent progress in that regard and that an open records request was still pending.

I am sharing this information for awareness and context regarding the ongoing discussion surrounding Mr. Johnson's case and cause of death.

Thanks,
Yannette

You don't often get email from rogalska.agnieszka@danecounty.gov.

Good Morning Alder Figueroa Cole,

Thank you for your inquiry.

The DCMEO may review any case if new credible evidence which impacts the cause or manner of death becomes available.

The Dane County Medical Examiner's Office has submitted a public records request on June 18, 2026 to the Office of the Independent Police Monitor (OIPM) seeking the records, materials, and documents associated with the review referenced in the OIPM report. The request was acknowledged, but no materials have been received to date.

As there is no known new evidence in this case, there is no material to review.

Regards,

Agnieszka Rogalska, M.D.
Chief Medical Examiner
Dane County Medical Examiner's Office

Good morning Ms. Rogalska!

The email below implies that Ms. Glass reported that there was enough evidence to suggest that Mr. Johnson's cause of death was different from what was stated in the ME report.

What is the status of the re-review of the case based on Ms. Glass's report?

"Since the City of Madison was founded, there is no record of anyone on the city payroll finding an officer in the wrong for taking a life or for an in-custody death... until June 15, 2026 when Monitor Glass revealed Richard Johnson died from Cardiac Arrest/Metabolic Acidosis due to prone restraint. "

Thank you so much for your time,
Yannette

Dear All,

Tonight, at the Madison Common Council meeting, Alder Will Ochowicz introduced a motion from the floor to get [rid of Independent Police Monitor Aeiramique Glass](#) and to put the Council Chief of Staff in charge of the Office of the Independent Monitor (OIM) and to find a new Independent Police Monitor. The OIM is on the cusp of being captured and turned into a rubber stamp for MPD. Only Alders Carmella Glenn and Julia Matthews voted against the motion.

I never thought [I would need this office](#). We are all one step away from needing this office. This office is useless without a strong leader at the helm and one who cannot be politically compromised. Monitor Glass is that leader.

The attack on Monitor Glass is not about APMs or what Glass said after MPD assaulted and injured her on August 4th. This attack is 100% about Glass uncovering the [real cause of Richard Johnson's death](#) while he was in MPD custody. Johnson died due to the actions of MPD officers... not an overdose.

Since the City of Madison was founded, there is no record of anyone on the city payroll finding an officer in the wrong for taking a life or for an in-custody death... until June 15, 2026 when Monitor Glass revealed Richard Johnson died from Cardiac Arrest/Metabolic Acidosis due to prone restraint.

There is a reason Monitor Glass was the first and it isn't because every other officer who has taken a life was reasonable or justified. The reason is that the PCOB hired the most courageous and dedicated independent police monitor in the country.

From that moment on, City Attorney Michael Haas committed himself to keeping the OIM from making any discovery that could result in a lawsuit against the city and MPD. That is what this hostile takeover is about.

[Please write your alder](#) and ask them to meet the budget request of the Office of the Independent Monitor and to vote down Alder Ochowicz's attack on Monitor Glass.

Please reach out with any questions and thank you for taking action!

Amelia Royko Maurer
