Dear Applicant:

In this packet you will find the variance application and standards by which the Zoning Board of Appeals will base their decision. You must complete the application fully, submit all materials requested with the application, and specifically address how the project meets all variance standards.

The Zoning Board of Appeals consists of seven citizen members, appointed by the Mayor and approved by the City Council, who give their time without compensation. Normally there are five members present at the hearing and it takes a majority of votes to approve a variance. The meetings are low key and only as formal as is necessary. Cases are generally heard in the order as they appear on the agenda. A member of City staff will explain the details of your case to the Board and present photographs, taken by a staff member during an outside inspection of your property. You will then be invited to present information explaining how your request meets the standards for the granting of a variance. All owners and occupants of neighboring properties within 200 feet will be notified of your project, and any interested party will be allowed an opportunity to speak on your variance request.

Before you submit your application, please contact Zoning at (608) 266-4556 to arrange a meeting with the Zoning Administrator to discuss your project and the variance process. A quality submittal and thoughtful presentation relative to the standards of approval for zoning variances increases the probability of a favorable decision by the Board.

**IMPORTANT** – The Zoning Board of Appeals reviews variance requests using standards adopted by the City Council and provided by law. A complete submittal should specifically address each standard and be prepared in consideration of these standards. Please be aware that any statements made in the application or at the meeting require evidentiary support in order to be considered fact. The variance standards may be found on the following pages of this packet.

Sincerely,

Matt Tucker  
Zoning Administrator  
266-4569

Jenny Kirchgatter  
Assistant Zoning Administrator

Jacob Moskowitz

Standards for Variance: The Zoning Board of Appeals shall not grant a variance unless the applicant shows and the Board finds that the following standards have been met:

1. There are conditions unique to the property of the applicant that do not apply generally to other properties in the district.

2. The variance is not contrary to the spirit, purpose, and intent of the regulations in the zoning district and is not contrary to the public interest.

3. For an area variance, compliance with the strict letter of the ordinance would unreasonably prevent use of the property for a permitted purpose or would render compliance with the ordinance unnecessarily burdensome.

4. The alleged difficulty or hardship is created by the terms of the ordinance rather than by a person who has a present interest in the property.

5. The proposed variance shall not create substantial detriment to adjacent property.

6. The proposed variance shall be compatible with the character of the immediate neighborhood.

– IMPORTANT –

Your presentation and submitted materials must address all of the above conditions, as the Zoning Board of Appeals must find that all of the standards are met for a variance to be approved. Any statements made must be supported by competent evidence in order to be considered as fact.
