TAX INCREMENTAL FINANCE DISTRICT #51 (SOUTH MADISON)

NOTE: Items highlighted in yellow are additions or changes for the 2025 Project Plan Amendment.

INTENT AND PURPOSE

The City of Madison (the “City”) has established that the health of the Madison economy and its neighborhoods is vital. The City intends to continue to expand, stabilize and diversify its economic base while continuing to revitalize neighborhoods. To that end, the City may utilize its various implementation tools, such as the City and Community Development Authority’s (CDA) development revenue bonds, tax incremental financing (TIF), and other State or federal tools that may be available.

In particular, the City of Madison is proposing to create Tax Incremental District (TID) #51–(South Madison) as a blighted area TID, for the purposes of capturing incremental value to fund certain public works improvements that will benefit the TID and the larger community. Specifically, the City plans to invest funds into public works improvements, affordable and market rate housing development, small business development and parks improvements.

Annexation of the Former Town of Madison

In 2003, the City of Madison and Town of Madison entered into an agreement whereupon after midnight on October 31, 2022, the Town of Madison would dissolve and certain property, located particularly within South Madison area along the Fish Hatchery Road, Park Street and John Nolen Drive corridors, within the Town would attach to the City of Madison. In anticipation of the significant infrastructure cost required to improve the attached property to City standards, the City of Madison adopted a South Madison Neighborhood Plan that identifies the types of land uses that might accompany such infrastructure improvements as part of an overall strategy toward economic revitalization of the South Madison area.

Social Justice

The modern history of South Madison dates back to the early 1900’s, beginning with the neighborhood enclave bounded by West Washington Avenue, Regent Street and Park Street, known as the Greenbush Neighborhood or the “Bush.” Although Madison was, as it is today, a thriving college town and state capital at that time, it was not a welcoming place to African-Americans and ethnic minorities, including Italians, Jews and other European immigrants. In fact, the community’s treatment of the newcomers was a mixed-bag of economic and social neglect, derision and systemic racism. This resulted in the neglect of the area in terms of investment in necessary infrastructure such as roads and streets, storm and sanitary sewer, water and sanitation.

Like many U.S. cities during the 1960s, Madison engaged in federally-subsidized urban renewal that broke up a large swath of the Greenbush neighborhood’s single-family residences, replacing them with hospital development and large surface parking lots. Many of those residents re-located to Madison’s South Side along the Park Street corridor.

In 2008, the City attempted to revitalize the area with the establishment of TID#38 (Badger-Ann-Park). The Project Plan envisioned the redevelopment of property in the area around Badger, Ann and Park Streets, including the development of the Burr Oaks affordable senior housing project and other infrastructure improvements. The City initially invested about \$4 million, through general obligation borrowing, anticipating growth from Burr Oaks project and the proposed Badger-Ann-Park development.

However, the plan was struck by two fatal blows: first, the anticipated private development never materialized, second, the US economy careened into the Great Recession of 2008-11. Property values plummeted below the TID’s base value, wherein no tax increment was being generated to recover the City’s indebtedness. The City repaid the borrowing by transferring excess tax increments from neighboring TID 35 (West Beltline), as allowed by statute, and fully recovered TID 38’s project costs.

Gathering from the past experiences with large-scale redevelopment such as TID 27 (Broadway-Simpson) and TID 29 (Allied Drive) and other areas, the City has learned that without significant up-front investment and public commitment, value growth through revitalization and redevelopment is slow in coming. Both TIDs took very near their full 27-year statutory lifespans to recover the costs of revitalizing their project areas. As value growth is the source of tax increment, and tax increment generation is the source of TIF funding, the City seeks to grow value in a balanced way, so as to ensure there is adequate funding to accomplish all of the tasks outlined in this plan, while also accomplishing important community goals.

Therefore, the TID #51 (South Madison) Project Plan aims to correct the social and economic injustice perpetuated in South Madison by implementing a pilot redevelopment TIF financing strategy. This financing strategy will initially invest excess tax increments from over-performing TIDs located in established, flourishing areas into an estimated \$65 million of \$115 million in South Madison infrastructure improvements that are long overdue. In addition the Project Plan will implement land-banking and economic development assistance programs to spark new value from various affordable and market rate rental and owner occupied housing, commercial and other projects. When new development occurs, the TID is able to support additional general obligation borrowing for new projects that generate new-value, create affordable and market rate housing options, produce job and wealth creation and the improve the overall economic revitalization of South Madison.

Economic Revitalization

Toward that goal, the City of Madison is creating TID 51 (South Madison) to pay for such infrastructure and other costs, including affordable housing, economic development financial assistance, down payment assistance, rental rehabilitation and owner-occupied home improvement.

PROPOSED CHANGES IN ORDINANCES, CODES OR PLANS

The project elements proposed in this Project Plan conform to the objectives and recommendations contained Comprehensive Plan For The City of Madison (the “Master Plan”) as approved by the City Plan Commission. No changes in the Official Map, Building Codes or other City Ordinances appear to be necessary to implement the Project Plan. Zoning changes may be necessary as projects are proposed for the area, although none are proposed at this time. The Plan Commission reviews such proposals.

TID 51 is currently zoned a mix of: PR, SE, SR-C1, SR-C3, CC-T, CC, TR-C1, TR-C2, TR-C4, IL, TE, SR-V2, SR-V1, PD-MHP,

Consistency with the City of Madison Comprehensive Plan

The project elements in this Project Plan conform to the objectives and recommendations contained in the City of Madison Comprehensive Plan which can be found at:

<https://www.cityofmadison.com/dpced/planning/comprehensive-plan/1607>

Consistency with TIF Policy

The Project Plan is also consistent with City of Madison Tax Incremental Finance Objectives and Policies (the “TIF Policy”) adopted by the City’s Common Council on April 17, 2001 and amended most recently on February 25, 2014. The Project Plan conforms to the following TIF Policy goals:

Section 1: TIF Goals

- A. Growing the property tax base.
- B. Fostering the creation and retention of family-supporting jobs.
- C. Encouraging adaptive re-use of obsolete or deteriorating property.
- D. Encouraging urban in-fill projects that increase (or decrease where appropriate) density consistent with the City’s Comprehensive Plan.
- F. Creating a range of housing types and specifically encouraging the development of workforce and affordable housing, especially housing that is for those earning much less than the area median income.
- G. Funding public improvements that enhance development potential, improve the City’s infrastructure, enhance transportation options, and improve the quality and livability of neighborhoods.
- I. Reserving sufficient increment for public infrastructure in both TIF project plans and TIF underwriting.

PROPOSED PROJECT COSTS

The following represent total estimated costs. By TIF Law, TIF may only pay for the non-assessable portion of these costs. More detail is provided in the section entitled “Detailed Estimate of Timing and Project Costs” that estimates the amount of cost paid with TIF.

Half Mile Rule

It is the City’s intent to request the Joint Review Board to authorize the use of the so called “Half Mile Rule” in and adjacent to TID 51. Should the Joint Review Board approve the use of the Half Mile Rule, the City intends to expend funds within a half mile of TID 51. The Half Mile Rule expenditure area is shown in the map section of this plan.

Public Works Improvements

The City intends to complete multiple public works projects in TID 51. These projects, led by City Engineering and Parks agencies, are listed below. The project costs below are total costs inclusive of non-TIF and other funding sources. The Detailed Estimate and Timing of Project Costs later in this Project Plan further describes the timing for each project, as well as identifying how much funding from other non-TIF sources is included in the budget.

Project	Description	Total Cost (including TIF and non-TIF funds)
Badger Park	Misc. improvements; GaGa Ball Pit; shred to school trail, other improvements	55,000

Community Development Authority Revitalization Activities

In accordance with Section 66.1333 of the State Statutes (Redevelopment Law), the CDA may undertake a variety of revitalization activities in the TIF District if that area corresponds to the boundary of a Redevelopment District. The Detailed Estimate and Timing of Project Costs later in this Project Plan further describes the timing for each project, as well as identifying how much funding from other non-TIF sources is included in the budget.

Project	Description	Total Cost (including TIF and non-TIF funds)
Development Loans	South Transfer Point	4,000,000 9,000,000 ⁴
Land Banking	Property Acquisition	5,000,000 0
Development Loans	Village on Park Improvements	6,000,000

Estimated Cost:

\$15,000,000

Economic and Community Development Assistance

² 2025 Project Plan Amendment re-allocates the previously authorized \$1,900,000 to new projects. \$900,00 is re-allocated to Park St (RR – USH 12 rehabilitation). Remaining \$1,000,000 of costs were assessable and were eliminated from the TID 51 Project Plan.

³ 2025 Project Plan amendment re-allocates \$3,000,000 to Park St (RR – USH 12 rehabilitation) line item.

⁴ 2025 Project Plan amendment re-allocates \$5,000,000 from Land Banking to Development Loans for the South Transfer Point / Park & Badger project.

Development Loans

Where necessary or convenient to the implementation of the Project Plan, TIF assistance in the form of loans may be provided to private development projects, that demonstrate that “but for” such TIF assistance, the project would not occur. TIF Law allows such funds to be used to reduce the cost of site acquisition or site improvements including the construction or razing of buildings, parking facility construction, site preparation, environmental remediation, landscaping and similar types of related activities.

Land Banking / Land Acquisition

In order to construct the public improvements and for the revitalization and development of private property, the acquisition of property and relocation of occupants may be necessary in this TIF District. The acquisitions could vary from rights-of-way and air space to entire parcels.

Small Business Assistance

In order to assist small businesses in South Madison, the City may provide additional funding to the existing Commercial Ownership Assistance program, Building Improvement Grant Program, as well as extend the existing Small Cap TIF program that is currently in use in TID 39.

South Madison Re-investment Strategy for Equity Study

In order to ensure that the City’s efforts have a positive impact upon the residents of South Madison, the City has commissioned a ten year, Census to Census study of the impacts of the TIF investment strategy in South Madison. This study will provide ongoing feedback to the City regarding implementation efforts in South Madison.

Project	Description	Total Cost (including TIF and non-TIF funds)
Land Banking	All Metals Acquisition	4,000,000
Land Banking - Environmental	All Metals - Clean Up	500,000
Land Banking	Demo, remediation, and holding costs	1,200,000

COA	Commercial Ownership Assistance Program	1,500,000
Small Business	Façade Grants	300,000
Small Business	Building Improvement Program Grants	1,200,000
Census to Census Study	South Madison Re-investment Strategy for Equity Study	1,200,000
Development Loans	Development Loans to Private Projects	3,500,000

Estimated Cost:

\$19,900,000

Affordable Housing

This category of costs is for the benefit of affordable housing and the improvement of housing stock in the City of Madison. After the date on which TID 51 pays off all of its aggregate costs, as provided for in State Statute the City may extend the life of TID 51 for one year to benefit affordable housing and to improve housing stock. The City proposes to use TIF funds to develop a small cap homeownership program, provide funding for owner occupied affordable housing, provide home buyer assistance, expand the City’s current rental rehab program, and provide financial assistance to additional affordable rental housing.

Project	Description	Total Cost (including TIF and non-TIF funds)
Development Loans	Financial Assistance to Rental Development	10,500,000 7,750,000 ⁵
Development Loans	Parker Place Apts Loan	\$2,750,000
New Small Cap Homeownership Program / Development Loans (for owner occupied)	Financial Assistance to Affordable Owner Occupied Units	7,500,000
Affordable Housing-Purchase of Service	Single Family Rehab Program	1,400,000
Consumer Lending	Rental Rehabilitation Loan Expansion	1,250,000
Affordable Housing-Purchase of Service	Home Buyer's Assistance/Rehab Program (\$50k forgivable loan)	1,463,000

Estimated Cost: \$22,113,000

Organizational, Administrative and Professional Costs

This category of project costs includes estimates for administrative, professional, organizational and legal costs. Project costs may include salaries, including benefits, of City employees engaged in the planning, engineering, implementing and administering activities in connection with TID 51, supplies and materials, contract and consultant services, and those costs of City departments such as the Finance Department, City Attorney, City Engineer, Parks Division, Planning & Development and the Office of the Mayor.

Estimated Cost: \$779,000

Total Cost (including TIF and non-TIF / Assessable Costs) ~~\$115,017,500~~ \$114,017,500

Financing Costs

The total TIF-eligible cost authorized in the Detailed Estimate of Project Cost and Timing represents the total TIF Capital Budget for which TIF funds may be used. Finance costs represent the estimated amount of interest incurred if the City were to borrow funds to pay for the entire TIF-eligible costs. Staff estimates that in the event the City of Madison borrows funds to pay for the capital costs authorized herein that tax increments estimated to be generated by the district over its life may be sufficient to repay \$34,280,000 of the estimated \$99,480,000 of TIF-eligible project costs and an estimated \$9,939,000 financing cost.

An additional \$65,200,000 of excess tax increments will be donated from TIDs 36 and 37 that will not incur finance cost. These donated tax increments, combined with the \$34,280,000 of proposed borrowed fund supported by TID 51, will be sufficient to pay for \$99,480,000 of TIF-eligible project costs.

⁵ 2025 Project Plan amendment re-allocates \$2,750,000 from “Financial Assistance to Rental Development” to “Parker Place Apts Loan”.

Donated Increment / Donor TIF

TID 51 is proposed to receive donated incremental revenue from TID 36 and TID 37. The five year donor plan is laid out in the Donor Appendix attached to this project plan.

DETAILED ESTIMATE OF TIMING AND PROJECT COSTS

The following are the eligible project costs as provided for under Section 66.1105 (2)(f), Wisconsin Statutes and the timing in which certain project costs will be incurred. TIF Law requires that all project plan expenditures be made within a blighted area TID within 22 years of its creation. Certain project costs will be subject to the anticipated long-term development expectations as described elsewhere in this Plan.

The actual eligible project costs herein (shown below) may vary or may be adjusted without a project plan amendment, so long as the total amount of eligible costs does not exceed the amount adopted in the Project Plan. New costs, not included in this Project Plan, that are identified over time shall require a project plan amendment. **There are \$15,537,500 \$14,537,500 in assessable, non-project costs.**

SUMMARY OF TOTAL PROJECT COSTS AND ECONOMIC FEASIBILITY

The project costs include the estimated costs of planning, engineering, construction or reconstruction of public works and improvements and financing costs. **The actual eligible project costs, outlined herein, may vary or may be adjusted without a project plan amendment, so long as the total amount of eligible costs does not exceed the amount adopted in the Project Plan.**

How Tax Increments Are Generated, Used

Under the Wisconsin TIF Law, the property taxes paid each year on the increase in equalized value of the Tax Incremental District may be used by the City to pay for eligible project costs within the TID. Taking the TID's current value as a result of growth and deducting the value in the District that existed when the District was created determines the increase in value. All taxes levied upon this incremental (or increased) value by the City, Madison Metropolitan School District, Dane County, and the Madison Area Technical College District are allocated to the City for direct payment of project costs and payment of debt service on bonds used to finance project costs.

Per TIF Law, the maximum life of a blighted area TID is 27 years and all project expenditures must be made five (5) years prior to the termination of the TID. Therefore, all project expenditures in TID 51 must be made by December 31, 2045. Tax increments may be received until project costs are recovered, at which time the TID must close.

TID Donor Plan

TIF Law allows that a TID generating excess tax increments may donate said increments to another TID authorized in a donor TID plan. As a significant amount of the estimated TID 51 project costs required for the redevelopment of former Town of Madison exceeds the net present value of tax increments that might be collected over the life of the TID, the City of Madison is seeking simultaneous TIF Joint Review Board approval of a donor TID plan whereby excess tax increments from TIDs 36 and 37 shall be contributed to TID 51 over a five-year period to pay for these eligible TIF costs.

TIF-Eligible Capital Budget

The cost of public improvements and other project costs is ~~\$114,017,500~~ ~~\$115,017,500~~. There are ~~\$15,537,500~~ ~~\$14,537,500~~ of anticipated costs that will be assessable to property owners or funded through other sources such as State and Federal grants. Assessments are determined in accordance with the City and Board of Public Works standard special assessment policies. Given that there are ~~\$15,537,500~~ ~~\$14,537,500~~ of costs that are assessable to property owners or will be funded from non-TIF sources such as state and/or federal sources, **the \$99,480,000 balance of the TIF-eligible project costs (i.e. net of assessable costs and costs paid for by state and/or federal sources) represents the authorized TIF Capital Budget for this Project Plan** and will require financial support by incremental taxes from the District and from excess tax increment donated by TIDs 36 and 37 to TID 51, authorized in a five-year TID donor plan, as allowable under TIF Law.

Estimate of Economic Feasibility, TIF Generator(s)

TIF Policy requires a proposed TID have an economic "generator" i.e. at least one private development project that generates increment to finance TID costs, or a TID shall be identified as a "speculative TID". TID #51 has multiple "generators" of tax increments, as described below.

- *Comstock Redevelopment Site.* Per land use recommendations from the South Madison Plan, the City anticipates approximately 65,000 square feet of new commercial development. The estimated assessed value is approximately \$18,750,000, assuming development beginning in 2025.
- *The Triangle Redevelopment Area (Park Street and the CNW Railway ROW).* The South Madison Plan anticipates approximately 330 units of market and affordable housing, 25 market and affordable town homes and 80,000 square feet of commercial development. The estimate assessed value of this development is \$67,712,000. Development is assumed to occur in stages, between 2025 and 2032.
- *Alliant Energy Center Area.* Concurrent with either the renovation or redevelopment of the Dane County Coliseum the Alliant Energy Site Plan recommends a 300-room hotel, followed by a 200-room hotel in future. As the timing of the development of this area is yet uncertain, the TID project plan forecasts that assessed value of each subsequent hotel project may occur in 2027 and 2030 respectively. The estimated value of these projects is \$75,000,000
- *Olin Avenue/John Nolen Drive (McGrath).* A market rate housing project will be built at the property located at the intersection of Olin Avenue and John Nolen Drive, formerly occupied by the Coliseum Restaurant & Bar and adjacent commercial property. The development consists of 192 market-rate units and 13,500 square feet of commercial space. The estimated value is \$42,142,500.

Total Value of All TIF Generator Projects: \$203,604,500

As demonstrated in the section entitled Expectations for Development, a conservative estimate of total incremental value resulting from potential development projects, and economic growth or value appreciation over the life of the TID is estimated to be **\$422,302,000**. This value includes the **\$203,604,500** generated from projects outlined above, along with an additional **\$218,697,500** of value appreciation over the life of the TID. **However, the \$99,480,000 of estimated TIF eligible infrastructure and other development costs to redevelop South Madison, including the former Town of Madison, far exceeds the TID's near-term development growth potential.**

Creation of TID 51 with Donor TID Plan

It has been the City of Madison's experience from TIF use in blighted areas, i.e. "redevelopment TIDs" such as West Wilson (TID 25), Broadway-Simpson (TID 27), Allied Drive (TID 29), Badger-Anne-Park (TID 38) and Northside (TID 40), that value growth from such redevelopment is slow to materialize. Growth sometimes occurs ten to twelve years or more from the TID's creation. However, the need for significant public investment to stimulate development is immediate.

TIF works best when value growth occurs within the first five years or so, stimulating other development growth and thereby generating more immediate sources of revenue to repay its initial investment. Most of the City's TID portfolio behaves in this manner.

However, the redevelopment TID's slower value growth rate puts a strain upon its financial performance, such that there is typically insufficient tax increment to pay for initial project costs. In such cases eligible donor TIDs, if they exist at the time, must assist in paying down the TID's indebtedness in a timely fashion, without burdening the City's general fund to cover the shortfalls. Three of the five redevelopment TIDs noted above required donor TID assistance. In those instances, the City was fortunate to have viable and eligible donor TIDs available at that time.

At a conservative estimate of growth of \$203 million by 2032, the TID 51's **tax increment revenues are only sufficient to support approximately \$34 million of its \$99 million of TIF-eligible project costs**. As much of the district's infrastructure and blight elimination needs are immediate, the City will use donor TIF funds from two eligible TIDs (TIDs 36 and 37) to address these immediate needs until such time that development growth occurs that can support capital borrowing. City projections indicate that 1) these two donor TIDs are eligible under TIF Law and feasible to donate excess tax increments toward immediately-needed project costs and 2) no other TIDs within the City will be either feasible or available in the near term to provide such investment. Therefore, the City of Madison shall simultaneously establish a five-year donor TID plan, including TIDs 36 and 37 to pay for the additional \$65 million of near-term TID 51 project costs. **See TID Donor Plan Appendix.**

Since a significant amount of the project cost is financed with long-term debt, borrowing would be undertaken only when sufficient development actually occurs to support each borrowing segment and the expenditure of such funds. Donor TID

funds will provide funding for initial project costs until such time that TID 51 is able to feasibly borrow. This will occur when sufficient development growth actually occurs and tax increments are sufficient to recover borrowing.

Based on the current tax rates and conservative financial market assumptions, the anticipated economic growth of tax incremental revenues over the life (i.e. the total amount of tax increments over 27 years) of the TID should total approximately **\$99,159,000**. The present value of the total incremental revenues that are anticipated to be generated is **\$34,280,000**.

As previously indicated, each segment of the project (i.e., every individual cost element) will require subsequent approval by the Common Council and/or the CDA. The method of financing and the individual debt issues will also require Common Council approval. It is the City's intent to closely monitor all planned and actual development within the TID. The actual City investment in TID 51 may, therefore, be less than the amount shown in the Project Plan.

Finance Cost

Staff estimates that TID increment could support interest payments on capital borrowing. The estimated interest and finance cost of to borrow \$34,280,000 (of the estimated \$99,480,000 of project cost) is **\$9,427,000**.

The 2025 Project Plan and Boundary Amendment do not contemplate any additional borrowing costs. Tax increments will be used to pay for additional project costs.

PROMOTION OF ORDERLY LAND DEVELOPMENT

The area in this TID is identified for "Employment", "Community Mixed Use", "Medium Density Residential", and "General Commercial" land use in the City of Madison Comprehensive Plan. Descriptions of this use and its corresponding density can be found in the City of Madison Comprehensive Plan at this link:

<https://imaginemadisonwi.com/sites/imaginemadisonwi.com/files/document/pdf/180501%20Comprehensive%20Plan%20-%20Full.pdf>

TID 51 is a blighted area TID, as defined by State Statute.

EXPECTATIONS FOR DEVELOPMENT

The expectations for development in TID #51 have been developed from and predicated on the Comprehensive Plan for the City of Madison and the Downtown Plan, as adopted by the Common Council.

Potential Areas for Development

The Potential Areas for Development include the currently undeveloped parcels of land within the TID. The development on these sites is described in further detail in this project plan.

Annual Value Increment Estimates

Definition of Value Increment: The increase in value is determined by deducting the value in the TIF district that existed when it was created (i.e. the "base value") from the TIF district's increased value as a result of new development. Appreciation of the base value and the new development over the full 27-year life of the TIF district is also included in this estimate.

Timeframe for Development: For the purposes of this project plan's economic expectations, the TIF generator projects indicated herein are expected to occur within the first 10 years of the district's life.

Anticipated Development: The actual timing and value of new growth within the TID depends upon variables that are unpredictable at this time. However, based upon projects that have already been proposed or are underway (shown in the "Estimate of Economic Feasibility, TIF Generators" section of this project plan), the City estimates that these TIF Generators will create \$203,000,000 of incremental value. The total incremental value (including estimated TIF Generators and appreciation of property value within the TID) generated over the 27-year life of the district is estimated at approximately

\$422,302,000. This growth is estimated to generate approximately \$99,159,000 of tax increments over the life of the TID. The estimated present value of these tax increments is \$34,280,000.

TID 51 was created in 2023. As of January 1, 2025, TID 51 has not yet generated tax increments, which is typical for newly created TIDs. TID 51 has incurred approximately \$21.7 million of excess tax increment due to accrued tax increment donations from TIDs 36 and 37, authorized in a donor-recipient plan adopted at the time of the TID's creation that will pay for \$26.6 million of costs for 2025. Project costs in this Project Plan amendment represent re-distributions of costs estimated in the original plan, therefore, the proposed plan does not exceed its original authorized project cost. As envisioned in the original project plan, the proposed costs in this plan amendment will also be recovered with donated tax increments from donor TIDs that have been disbursed to TID 51 per the approved donor-recipient plan. At such time when the TID generates sufficient tax increments, the TID may support general obligation borrowing to pay for additional costs authorized in the Project Plan.

METHODS FOR THE RELOCATION OF DISPLACED PERSONS AND BUSINESSES

Where the relocation of individuals and business operations would take place as a result of the City's acquisition activities occurring within the District, relocation will be carried out in accordance with the relocation requirements set forth in Chapter 32 of the Wisconsin Statutes and the Federal Uniform Relocation Assistance and Real Property Acquisitions Policy Act of 1970 (P.L. 91-646) as applicable.

PARALEGAL
Ryan M. Riley

January 31, 2025

TO: Joseph E. Gromacki, TIF Coordinator
FROM: Matthew Robles, Assistant City Attorney
SUBJECT: Project Plan Amendment for TIF District No. 51 - City of Madison (South Madison)

Dear Mr. Gromacki:

In my capacity as Assistant City Attorney for the City of Madison, Wisconsin, I have examined the Amendment to the Project Plan for Tax Incremental Finance District No. 51, City of Madison, Wisconsin, dated January 4, 2023, with a proposed amendment in 2025. Based on this examination, I am of the opinion that the amended Project Plan is complete and complies with the provisions of Secs. 66.1105(4)(f) and (h), Wis. Stats.

I render no opinion with respect to the accuracy or validity of any statement and/or finding contained in the Project Plan, but direct City officials to review the reports of City staff as regards to the Plan.

Sincerely,

Matthew D. Robles
Assistant City Attorney

Donor Plan Appendix

Background

TIF Law allows excess tax increment funds to be transferred between certain TIF districts if the TIF Joint Review Board approves such allocations and if the TIDs have the same overlying taxing jurisdictions. TIF Law refers to this relationship as a “donor-recipient” relationship. According to TIF Law, positive increments may be transferred from a “donor” TID to a recipient district as part of a “donor-recipient plan.”

TIF Law requires that the project plans be amended for donor TIF districts and recipient districts in the event that new project expenditures are incurred that were not outlined in the original project plan. TIF Law requires that the donor and recipient TIDs have the same overlying taxing jurisdiction boundaries, which is the case for the donor plan outlined below.

The Common Council is considering adoption of a resolution approving an amendment to the Project Plan for TIDs 36 (Capitol Gateway) and TID 37 (Union Corners). The resolution would establish TID 36 and TID 37 as donor TIDs. The resolution and five-year donor-recipient allocation plan anticipate a transfer of positive increments to TID 51 (South Madison). Assuming the project plan amendment is completed for TIDs 36 and TID 37 and that this project plan for TID 51 will be approved, TID 51 would be established as a recipient TID.

Current Status:

TID 36 (Capitol Gateway)

TID 36 was established on September 6, 2005. To date, the City has provided funding to rehabilitate Breese Stevens Field, construct the Cosmos / Livingston St Parking Ramp, made improvements to Reynolds Field and McPike Park, complete street reconstruction projects, make multiple successful loans to development projects, and provide assistance to the Public Market project. Through the end of 2021, the City had authorized approximately \$33 million of expenditures in TID 36. Total capital costs identified in the Project Plan to date are \$53,222,000. The City estimates that TID 36 has an estimated incremental value of \$489 million in 2022. The City estimates that TID 36 will receive approximately \$10 million in incremental revenue in 2023. The expenditure deadline for TID 36 is September 6, 2027. As of December 31, 2021, the City estimates that TID 36 will have \$4.9 million of excess incremental revenue.

TID 37 (Union Corners)

TID 37 was established on July 16, 2006. To date, the City has invested in public improvements in TID 37 and provided assistance to the Union Corners redevelopment project. Through the end of 2022, the City has authorized approximately \$8.9 million of expenditures in TID 37. Total capital costs identified in the Project Plan to date are \$20,867,000. The City estimates that TID 37 has an estimated incremental value of \$151 million in 2022. The City estimates that TID 37 will receive approximately \$3 million in incremental revenue in 2023. The expenditure deadline for TID 37 is July 18, 2028. As of December 31, 2021, the City estimates that TID 37 will have \$1.3 million of excess incremental revenue.

Given the lack of outstanding debt in TIDs 36 and 37, the level of incremental revenue that TID 36 and 37 are generating on an annual basis, the planned costs in TID 51, and the City’s desire to continue to invest in South Madison, TIDs 36 and 37 are potential donor to TID 51.

TID 51 (South Madison)

The City of Madison is proposing to create TID 51 in 2023. The proposes to invest significant resources into the South Madison area that is within TID 51 and within the proposed Half Mile boundary of TID 51. As outlined within this Project Plan, the City proposes to spend up to \$99,480,000 in TIF funds within and adjacent to TID 51. As TID 51 is proposed for creation in 2023, it does not have any incremental value, and thus, no incremental revenue.

On October 31, 2022, the Town of Madison dissolved, and the City of Madison took over an area with many significant challenges. South Madison has major infrastructure challenges, decades of neglect, a struggling local business landscape, and the potential for large scale displacement due to redevelopment and rapidly advancing gentrification. To continue to address these issues, the City is proposing to amend the TID 36 and TID 37 project plans as outlined above to invest significant funds into infrastructure, small business assistance, land-banking, affordable housing development (both owner occupied and rental), park and transportation improvements, and other investments designed to specifically support the residents of South Madison.

Recommendation

It is the City’s general practice to create a TID, wait for it to generate incremental revenue, and then begin investing in public projects. Because of the combined factors facing South Madison, including, but not limited to:

- Historic neglect;
- Rapidly approaching redevelopment and gentrification;
- The potential for large scale displacement of existing residents;
- A diverse population with a high number of low-income residents;
- A need to assist local businesses;
- This City’s experience with the lack of success associated with TID 38 (Badger Ann Park);

The City proposes to take this new approach:

- Expand infrastructure investments;
- Provide assistance to small businesses;
- Begin land-banking activities;
- Invest in both owner occupied and rental affordable housing;
- Other actions that will directly address the challenges facing the residents of South Madison.

As TID 51 is newly created and not yet generating any incremental revenue, the city proposes to amend TID 36 and TID 37 to donate excess incremental revenues to TID 51. It is the City’s general practice to retire TIF districts within 10-12 years rather than extend their life to the full 20 or 27 year period (depending on their creation date and TID type) so that overlying taxing jurisdictions may receive the tax benefits of new growth sooner, rather than later. This practice also secures the City’s flexibility to create future TIDs while complying with the 12% equalized value test required in TIF Law.

However, the requirements for investing in South Madison are such that the City is proposing a different approach. Previous TIDs in revitalization areas, such as TID 38 (Badger Ann Park) and TID 40 (Northside), borrowed funds to invest in infrastructure, awaiting value growth that did not occur. The City resorted to donor TIDs to repay the TID borrowing. If such donor TIDs were not available, the City would have had to repay such borrowing from its General Fund. Donor TIDs only exist for a brief period of time, in that they have recovered their cost and have excess tax increment available. By TIF Law, they must be used as donors or must close.

Given these previous experiences, and the fact that both TID 36 and TID 37 are forecasted to generate excess tax increment in 2023 and beyond, the City is proposing to preemptively donate excess incremental revenues from successful TIDs, such as TID 36 and 37, into the newly created TID 51 in South Madison. These donated excess incremental revenues will help ensure that TID 51 is ultimately successful.

In accordance with this intention and recognizing that the expenditure period for TID 36 ends in 2027 and the expenditure period for TID 37 ends in 2028, Staff recommends that the TID 36 and TID 37 Project Plans be amended to provide for five-year donor allocation period plan, as allowed by TIF Law. TID 36 and TID 37 will thereby extend their forecasted lifespan five additional years to aide in covering these project costs. The total amount of incremental revenue from TID 36 and TID 37 to be allocated to TID 51 is \$65,200,000 from 2023 through 2027, as shown in the schedule below.

Donor District	2023	2024	2025	2026	2027	Total
TID 36	\$7,200,000	\$10,000,000	\$10,000,000	\$10,000,000	\$10,000,000	\$47,200,000
