1882 E Main Street Suite #204 is a small office space which we plan to utilize as a private tattoo studio. Our business will be by appointment only, allowing only a few people in and out per day. Our goal in working in this space is to offer the highest level of safety and sanitation possible during the Covid-19 pandemic to our clients. This transition from office space to tattoo studio will require the addition of a sink to the main area for handwashing, as per SPS 221.11 of the Tattooing and Body Piercing Health Code. Aside from the sink, it will operate along the same lines as a typical office space.
