4214 Doncaster Drive was originally a double lot with a single family home and attached garage. In the summer of 2018 the existing home burned down, and was demolished later that fall. Since then it has been split back into two separate lots and sold independently as vacant lots. We are proposing a single family home with attached garage on **Lot 8**, which will retain the street address of 4214. The house will be located in the center of the lot with 5'5" on either side of the house to the side lot lines. Our intention is to keep the house in line with current set backs already established by the existing homes in the neighborhood.
