To Whom It May Concern,

This letter describes our intent in subdividing the Madison Water Utility property at 4740 Spaanem Ave., Madison, WI (Unit Well 9).

We wish to create a four lot Certified Survey Map. Three of the lots will be residential and sized according to requirements for SR-C1 zoning district. The remainder of the property will be designated Outlot 1, and will have on it all of the Water Utility facilities, as well as those of private utilities that use the site (primarily cell phone service providers).

The three residential lots will be sized from 8000 to 8500 square feet, contingent on approval from the Plan Commission. Outlot 1, on which lie Reservoir (water tower) 9, Unit Well 9, and assorted small structures used by cell phone service providers, will be approximately 33,850 square feet.

The Madison Water Utility plans to build a demonstration home on one of the residential lots that will feature water and energy efficient building systems on display to the public. Madison Water Utility understands that they would be responsible for street and utility improvements necessary for the development of three residential lots, plus the outlot. The demonstration home and remaining residential lots would ultimately be sold to recover costs after a period of public education. The outlot will continue to be owned by the Water Utility with no plans to sell or otherwise vacate the property.

Thank you,

David A. Renaud, PLS
