Letter of Intent – Land Use Application

**Project Name: “White House” Demolition
5817 Cottage Grove Road**

Project Summary

The proposed project consist of the demolition of a vacant single-family residential structure located at 5817 Cottage Grove Road. The premises was vacated by the former tenant earlier in 2019 and has since remained vacant for several months.

The applicant has been in discussions with the City of Madison Fire Department regarding the use of the structure as a “practice burn” site and is proceeding with asbestos and hazardous materials evalations. If the Fire Department does not elect to use the structure for a practice burn, the applicant will then proceed with a conventional demolition of the structure and remove (or abandon, where applicable) the remaining improvements on the premises. This will return site to vacant land status. No subsequent redevelopment or improvement of the site is proposed at this time.

Though the demolition activity will remove a portion of paved driveway, the neighboring properties to the south will retain access to their own properties though an existing private shared access drive. Water access will not be eliminated as the neighbors to the south will have a shared connection to a water well located on one of their respective properties.

Legal Description of the Subject Property

The subject property is legally described as follows:

Lot 2 of Certified Survey Map No. 2676, as recorded in the Dane County Register of Deeds in Volume 10, Page 320 of Certified Surveys.

1. Project Team

Applicant	Property Owner
Hovde Properties, LLC Attention: Victor Villacrez 122 West Washington Avenue, Suite 350 Madison, Wisconsin 53703 Phone: (608) 255-5175 Email: vvillacrez@hovdeproperties.com	Hovde Realty, Inc. Attention: Victor Villacrez 122 West Washington Avenue, Suite 350 Madison, Wisconsin 53703

2. Existing Conditions

The “White House” site consists of a vacant single-family residence. A building condition assessment performed a licensed inspector has indicated several deteriorated elements including, but not limited to the roof, chimney, walls, electrical service and plumbing vents, windows, and foundation. The owner previously worked with the Madison Fire Department to provide a “practice burn” structure prior to demolition and received interest from the Department in making this structure available for a similar “practice burn”.

3. Project Schedule

The demolition of the home and restoration of the site to vacant land is expected to occur over a period of one to two weeks after approval and issuance of the required permits during summer 2019, though the particular timing of demolition activities may also depend on the needs and scheduling of the Madison Fire Department with respect to a potential “practice burn”.

4. Proposed Uses

The site is proposed to be returned to vacant land, with no redevelopment proposed at this time.

5. Hours of Operation

N/A

6. Proposed Residential Building Square Footage

N/A. The site is proposed to be returned to vacant land.

7. Number of Dwelling Units

N/A

8. Auto and Bike Parking Stalls

N/A

9. Lot Data

Per Madison Assessor records, the site is 17,086 sq. ft. (0.39 acres). The site has A (Agricultural District) zoning.

10. Usable Open Space

N/A

11. Land Value:

The current assessed value of the land is \$32,700.

12. Estimated Project Cost:

It is estimated that demolition project may cost approximately \$10,000 to \$20,000.

13. Number of Construction or Full Time Equivalent Jobs Created:

N/A

14. Public Subsidy Requested:

None
