RE: Application of Alteration of Existing Conditional Use

To Whom It May Concern:

This letter is an official letter of intent presented by Veritas Village, LLC to the City of Madison Building Inspection Division for an application for alteration of existing conditional use.

Our property is located at 720 E. Dayton Street in downtown Madison. It is currently a gravel parking lot. We are applying for a conditional use permit that would allow us to replace the gravel parking lot with a paved parking lot including permeable recycled asphalt. This lot has been a gravel parking lot since the 1930's.

This new paved parking lot will contain 22 parking stalls. The total lot area is 8,971 square feet.

This letter is accompanied by the alteration of existing conditional use form and the site plan.

Sincerely,

Veritas Village, LLC

By: 
Terence R. Wall, President of
Veritas Village Manager, LLC, its Manager
