12

12

A close-up photograph of a large, light-colored rock formation, possibly limestone, covered in patches of green moss and lichen. The rock has a rough, textured surface with some darker, weathered areas. A small, dark opening or crevice is visible on the left side. The background shows some green foliage and trees.

12

12

12

A photograph of a large, light-colored rock formation, possibly granite, situated in a grassy area. The rocks are rounded and have a weathered appearance. Fallen autumn leaves are scattered around the base of the rocks. The background shows more of the same rock formation.
