

*“ It has always
been our dream
to offer an energy
independent
community.*

Net Zero Subdivision - Solar on Every Home

Please join members of the Sustainable Madison Committee as they hear from Matt Neumann from Neumann Companies and Kirk Kindred from SunVest about Red Fox Crossing, a subdivision in New Berlin where every home incorporates solar on the roof.

Date/Time **Monday, June 19, 2017 at 4:30 p.m.**
Location: City-County Building, Room 351
210 Martin Luther King, Jr. Blvd.
Madison, WI 53703

Developed by Neumann Companies, the home sites at Red Fox Crossing, located on the southwest corner of S. Sunny Slope Road and W. Grange Avenue, will be oriented to fully capture the solar energy available. Tim O'Brien Homes will design and construct the solar-ready houses, and SunVest Solar will design and install each solar system, ranging from six to eight kilowatts.

When fully built out, Red Fox Crossing will have between 200 and 270 kilowatts of behind-the-meter solar capacity in operation. It is on a path to become Wisconsin's first net zero (electricity) community.

*We are excited
to have all
three companies
involved in creating
Wisconsin's first
Net Zero
community.”*

Matt Neumann, Principal
of Neumann Companies
