**Engineering Division**

**Residential Survey – Street Reconstruction  
S. Owen Drive Assessment District – 2023**

This survey can also be completed on-line. The link can to the survey can be found on the City’s project page at:  
<https://www.cityofmadison.com/engineering/projects/south-owen-drive-reconstruction>

To mail in a hard copy submission, please send your completed survey to:

Reid Stiteley  
City of Madison Engineering  
210 Martin Luther King, Jr. Blvd, Rm 115  
Madison, WI 53703

**Questions**

<b>1) Please provide your contact information in case there are any follow up questions from City staff.</b>	
Name (Print)	
Home Address:	
Phone Number:	
Email Address:	

<b>2) Does your property, or the roadway adjacent to your property, have any drainage/storm water issues?</b> <input type="checkbox"/> Yes   <input type="checkbox"/> No	
a) If yes, where does the flooding occur?	
b) If yes, where does the water come from (downspouts, neighbor, street, etc)?	
c) If yes, how often does the flooding occur? Please provide approximate date(s) when flooding has occurred.	
d) Do you have any additional drainage/storm water details? You can attach photos and send more information on the City of Madison Flood Reporting Portal, <a href="http://www.cityofmadison.com/reportflooding">www.cityofmadison.com/reportflooding</a> .	

**3) Optional private storm sewer connections will be included with this project, as needed. They connect an existing underground private storm service from your home, typically from a downspout or sump pump, to the public storm water system and can help move storm water away from your home. The connection from the public storm sewer would be provided to the property line, and this work is assessable.**  
**Would you be interested in a private storm sewer connection?**  
 Yes |  No  
(Please contact Kyle Frank at [kfrank@cityofmadison.com](mailto:kfrank@cityofmadison.com) for more information)

**4) Are you aware of any sanitary sewer issues with your property, such as back-ups?**  
 Yes |  No

a) If yes, please provide additional information such as type of issue and frequency:

**5) Do you have any issues with the grade or width of your existing driveway apron?**  
 Yes |  No

a) If yes, please describe further:

**6) Do you have any accessibility concerns that you wish to share with us? When necessary, the project specifications can include additional information and requirements of the contractor(s) to assist with maintaining access to your property during construction.**  
 Yes |  No

a) If yes, please describe further if you feel comfortable doing so:

**7) Are there any items adjacent to or within the public right-of-way that we should be aware of prior to starting construction? Please keep in mind that if you want to save any special improvements within the right-of-way, such as landscaping, pavers, invisible fencing, sprinklers, etc., you will need to remove these items prior to construction.**  
 Yes |  No

a) If yes, please describe further:

**8) Terrace Rain Gardens help reduce stormwater runoff and improve water quality! Some terraces within the project limits may be suitable for a terrace rain garden. Eligible terraces should meet the following criteria: minimum area of 10' X 15' in a relatively flat, open space away from trees, utilities, and driveways. Installation with the project would include all grading, the initial planting (several planting plan options are possible), and placement of mulch. You can learn more about our Rain Garden program at: [www.cityofmadison.com/TerraceRainGardens](http://www.cityofmadison.com/TerraceRainGardens)**  
**If your terrace is eligible would you be interested in having a terrace rain garden installed with the project at a cost to you of \$100?**

Yes |  No

a) If yes: what factors influenced your decision? (check all that apply)

- Want to help improve water quality
- Want an area for native plants for aesthetics
- Want an area for native plants for pollinator habitat
- If another reason, please describe:

b) If no: what factors influenced your decision? (check all that apply)

- Price
- Extra maintenance
- Don't like the way it looks
- Space concerns
- If another reason, please describe:

**9) The City will be conducting a speed study to evaluate S. Owen Dr for speeding problems within the project area prior to construction. With a majority of support from residents (greater than 60%) some traffic calming measures could be included, regardless of the speed study data, which could be impacted by current roadway conditions. Are you interested in traffic calming being included with this project?**

Yes |  No

**10) If traffic calming is implemented, what methods would you prefer?**

- a) Speed hump(s)
- b) Traffic circle at Bagley Pkwy intersection (similar to existing Hillcrest Dr traffic circle)
- c) All of the above that can be reasonably included
- d) I do not want traffic calming implemented

**11) Do you have any other issues or concerns related to this project that you would like to share with us? If so, please share in the space below.**
