# Community **Priorities:**

These priorities are the result of feedback from the community survey, four public meetings, and additional public comments.

Improve walkability and pedestrian safety, especially at intersections.

Create a destination street that is convenient and safe for all modes of transportation.

**Reduce traffic speeds.** 

Maintain or improve existing parking.

Ensure predictability in Metro service to improve access for all users.

Introduce streetscape improvements and more inviting plant life to enhance the pedestrian experience and natural environment.

Improve bicycle access by creating safe connections to adjacent paths and increasing bike parking.

Maintain a comfortable route for commuters and vehicles accessing adjacent businesses, schools, and institutions.

**Enhance Monroe Street's** commercial vibrancy and unique sense of place while retaining its neighborhood feel.

Be a model of innovation and look for demonstration opportunities to educate the public about sustainability.

**Preferred method** of travel on Walking **Monroe Street**, other than by car
