To: Property Owners and Residents along Davies Street & Dempsey Road

Re: Proposed Street Reconstruction Project and Public Informational Meeting

The City of Madison is proposing to reconstruct Davies Street and Dempsey Road from Buckeye Road to Cottage Grove Road in 2023. A map of the project area can be found on the reverse side of this letter. The proposed project would include replacement of the underground City utilities (water main, sanitary and storm sewers) along with replacement and installation of street infrastructure (curb & gutter, asphalt pavement, sidewalk, driveway aprons, etc...). The City will hold a virtual public input meeting on this proposed project at the date, time, and location noted below. At the meeting, City staff will present information on all of the work that would be included with the project, information on assessments, project schedule, construction information, etc.

Public Informational Meeting
Tuesday, January 31st at 6:00 PM
Virtual Meeting to be held over Zoom

To register for the public meeting, please use the link provided on the project web page at:

<https://www.cityofmadison.com/engineering/projects/davies-street-and-dempsey-road-reconstruction>

The project website will be updated regularly, which will include future City meeting dates and times, preliminary project plans, updated project schedule information, project contacts, and other important details related to the proposed project. A draft of the presentation materials for the public informational meeting will also be posted to the project page, prior to the meeting.

We would like to receive additional input from the neighborhood on several items related to the project design and specific to your individual property, so we have put together a questionnaire, which is enclosed with this letter. A link to this survey can also be found on the project page noted above. If you would prefer to use a hard copy, you may fill out the copy included with this letter and mail back to City Engineering. Please contact the project engineer, Aaron Canton at 608-242-4763 or acanton@cityofmadison.com, if you have any questions or comments related to this proposed project.

Sincerely,

James M. Wolfe, P.E.
City Engineer
