

University Ave. Construction Update

State Project ID: 5992-11-31
University Avenue
(Shorewood Boulevard – University Bay Drive)

February 13, 2023

GENERAL PROJECT INFORMATION

University Avenue is being reconstructed from Shorewood Boulevard/Hill Street to University Bay Drive/Farley Avenue. The project includes reconstruction of pavement, curb and gutter, sidewalk, street lighting, traffic signals, water main, sanitary sewer, and storm sewer. Pedestrian and bicycle connectivity, bus rapid transit initiatives, and stormwater drainage will be improved, and the project will include a new pedestrian/bike overpass of University Bay Drive, a widened sidewalk along the southerly side of University Avenue, and a 96-inch storm sewer pipe to help improve drainage in the area.

STARTING THE WEEK OF FEBRUARY 13, 2023

- AT&T has private utility work that is not directly associated with the construction project, that is anticipated to take place through early April. This work will require lane closures for westbound University Ave. between Marshall Ct. and Shorewood Blvd.
- Standard weekly construction updates will resume once the University Ave. contractor resumes work on the project, which is anticipated for late March or early April, weather depending.

TRAFFIC / PEDESTRIAN / BIKE IMPACTS

The multi-use path on the north side of University Ave. will remain open until the pedestrian overpass work begins in spring 2023. The existing multi-use path will require some temporary shifts and other adjustments to accommodate the work taking place at University Bay Dr. Advisory signs will be in place to notify pedestrians of sidewalk closures and alternative routes. Note that the work is weather dependent and may be subject to change.

Please be aware that there is ongoing private utility work occurring within the project limits that may not be included on this update for the University Ave. roadway construction. If you require additional information on the private utility work, please provide your inquiry to ENComments@cityofmadison.com and the University Ave. project team will put you in direct contact with the appropriate private utility company performing the work.

PROJECT CONTACT INFORMATION

To be added to the weekly update distribution list, please email your name and email address to ENComments@cityofmadison.com or visit the project website to sign up.
