## Project Overview

**Project** **Mosaic Ridge Construction Financing** **Project #** **10079**

*Project Description*

This project funds construction at the Mosaic Ridge housing development. The goal of the project is to improve the housing stock in the Allied Drive neighborhood and maintain a variety of housing choices for both renters and owners. Progress will be measured by the successful sale of homes to low and moderate income residents, reduced resident turnover, and stable or increasing value of the homes. Since the program's inception in 2014, seven homes have been sold and 17 lots remain for sale. The project timeline calls for construction to continue in 2019 and to be completed in 2020.

**Project** **Public Housing Redevelopment** **Project #** **11817**

*Project Description*

This program funds planning and implementation of public housing redevelopment through 2022. The goal of this program is to provide quality, affordable housing for low-income seniors and people with disabilities. Progress will be measured by completing the renovation or new construction of modern affordable housing, resident stability, and resident satisfaction. Available funding authority from previously adopted capital budgets will fund planning for the Triangle complex redevelopment and redevelopment of public housing duplexes on Theresa Terrace in 2019.

**Project** **Village on Park** **Project #** **10578**

*Project Description*

This project will replace the existing roof at The Village on Park and demolishes the north side building. The project is designed to eliminate roof leaks, encapsulate asbestos on the underside of the roof deck, and waterproof heating, ventilation, and air conditioning (HVAC) platforms in the alley. Demolition of the north side building in 2020 removes an unattractive structure from the site and improves the neighborhood and customer experience. Progress will be measured by a reduction in reported leaks and the associated maintenance costs and new development on the site. Construction is currently underway and anticipated to be completed in 2020.
