## Changes from 2020 CIP

### 2021 Capital Improvement Plan 2020 Adopted vs. 2021 Agency Request

## Major Changes/Decision Points

• Village on Park

Project removed from CIP because project is complete (\$59k)

• Public Housing Redevelopment

Program budget in 2021 delayed to 2022 due to work not beginning in 2020 as anticipated (\$300k)

Subject: CDA Redevelopment 2021 Capital Budget

Under state statute, the Community Development Authority is charged with encouraging safe neighborhoods, the provision of healthful homes, and supporting adequate places for employment. The CDA engages in entrepreneurial redevelopment activities and manages properties that support these objectives.

The CDA Redevelopment 2021 capital budget reflects the agency's core work in providing neighborhood revitalization and public housing redevelopment. In preparing the 2021 capital budget request, I have taken into account the CDA's available resources and the budget instructions from the Mayor. I feel that our budget balances these considerations with the needs of the community and our mission.

### Goals of Agency's Capital Budget

The Mosaic Ridge construction project supports the development of additional housing stock in the Allied Drive neighborhood. This housing development serves both the new homeowner and the larger neighborhood by encouraging a diverse housing structure in the community. Funds from the sale of previous homes are used to construct additional homes. No City borrowing is requested.

The public housing redevelopment program is a multi-year effort to redevelop aging public housing stock in the City. The goal of the program is to continuing to provide safe, affordable housing to low-income seniors and people with disabilities and, if possible, increase the number of units during redevelopment.

### Summary of Changes from 2020 Capital Improvement Plan

The capital project for the Village on Park is complete. The City provided advances to the from general obligation borrowing to the CDA for redevelopment of the property. The CDA has completed the redevelopment and continues to repay the advance. Additional capital investments and maintenance are paid by the project management company using funds at the property generated by rent.

As a result of COVID-19 and vacant positions, the public housing redevelopment project has not started. As such, the intended project timeline will be pushed back one year. In 2020, anticipated work included planning for redevelopment of the Triangle and Theresa Terrace.

There is no change to the Mosaic Ridge construction project in the CIP.

### **Prioritized List of Capital Requests**

- Project 11817 Public Housing Redevelopment Priority 1
- Project 10079 Mosaic Ridge Construction Financing Priority 2
- Project 10578 Village on Park Complete

The public housing redevelopment program is a multi-year project requiring significant engagement with public housing residents, the broader community, and redevelopment partners. Given the long time frame and continued aging of housing units, it is important that the CDA continue to advance redevelopment planning.

The funds requested are advanced for GO borrowing to the CDA. For this program, the CDA has already received an advance of \$50,000 through the capital budget. The CDA is repaying the current advance and would repay future advances from property redevelopment fees.

### **Potential for Scaling Capital Requests**

The nature and size of these projects do not lend themselves to scaling.

## **Impact of COVID-19 on Capital Funding**

COVID-19 has required significant attention from CDA staff to protect the health and wellness of residents, employees, and the broader community. This has delayed public housing redevelopment planning. Given the ongoing uncertainty, it is unlikely that significant activity will occur before 2021.

It is unclear what impact COVID-19 will have on Mosaic Ridge.

I look forward to further discussing our capital proposal in the coming weeks.

Sincerely,

Matthew Wachter Executive Director Community Development Authority

### Description

This program funds planning and implementation of public housing redevelopment through 2026. The goal of this program is to provide quality, affordable housing for low-income seniors and people with disabilities. Progress will be measured by completing the renovation or new construction of modern affordable housing, resident stability, and resident satisfaction. Planned projects for 2021 include planning for the Triangle complex redevelopment and continued redevelopment of public housing duplexes on Theresa Terrace.

### Explain any changes from the 2020 CIP in the proposed funding for this program.

As a result of the disruption caused by COVID-19 and staff changes, work did not begin in 2020 as anticipated. Budget authority from the 2020 budget will be used in 2021. The remainder of the CIP is pushed back one year.

### Priority

Citywide Element Neighborhoods and Housing

Strategy Support the rehabilitation of existing housing stock, particularly for first-time homebuyers and people living with lower incomes.

#### Describe how this project advances the Citywide Element:

The public housing redevelopment program is a multi-year effort to redevelop aging public housing stock in the City. The goal of the program is to continuing to provide safe, affordable housing to low-income seniors and people with disabilities and, if possible, increase the number of units during redevelopment.

#### Explain the justification for selecting projects planned for 2021:

The Triangle redevelopment project estimates costs associated with planning for housing redevelopment in later years (e.g., consultants, financial professionals). Actual construction on the Triangle is expected to be paid through a variety of third-party sources.

The Theresa Terrace property needs to be evaluated for the best possible future use in the community. The project captures possible redevelopment costs.

These projects are dependent on the hiring of a redevelopment specialist.
