Funds Overview: General Fund

A **Fund** is a sum of money segregated for specific activities.

The **General Fund** is the City's primary Operating Fund. This Fund is the main focus of the City's budget because it is primarily supported by property tax revenues and pay for the cost of day-to-day City services. The **Library Fund** is also primarily supported by the property tax and is considered part of the General Fund for budget discussion purposes.

Funds Overview: All Other Funds

In contrast to the General and Library Funds, other Funds are supported by non-property tax revenue sources.

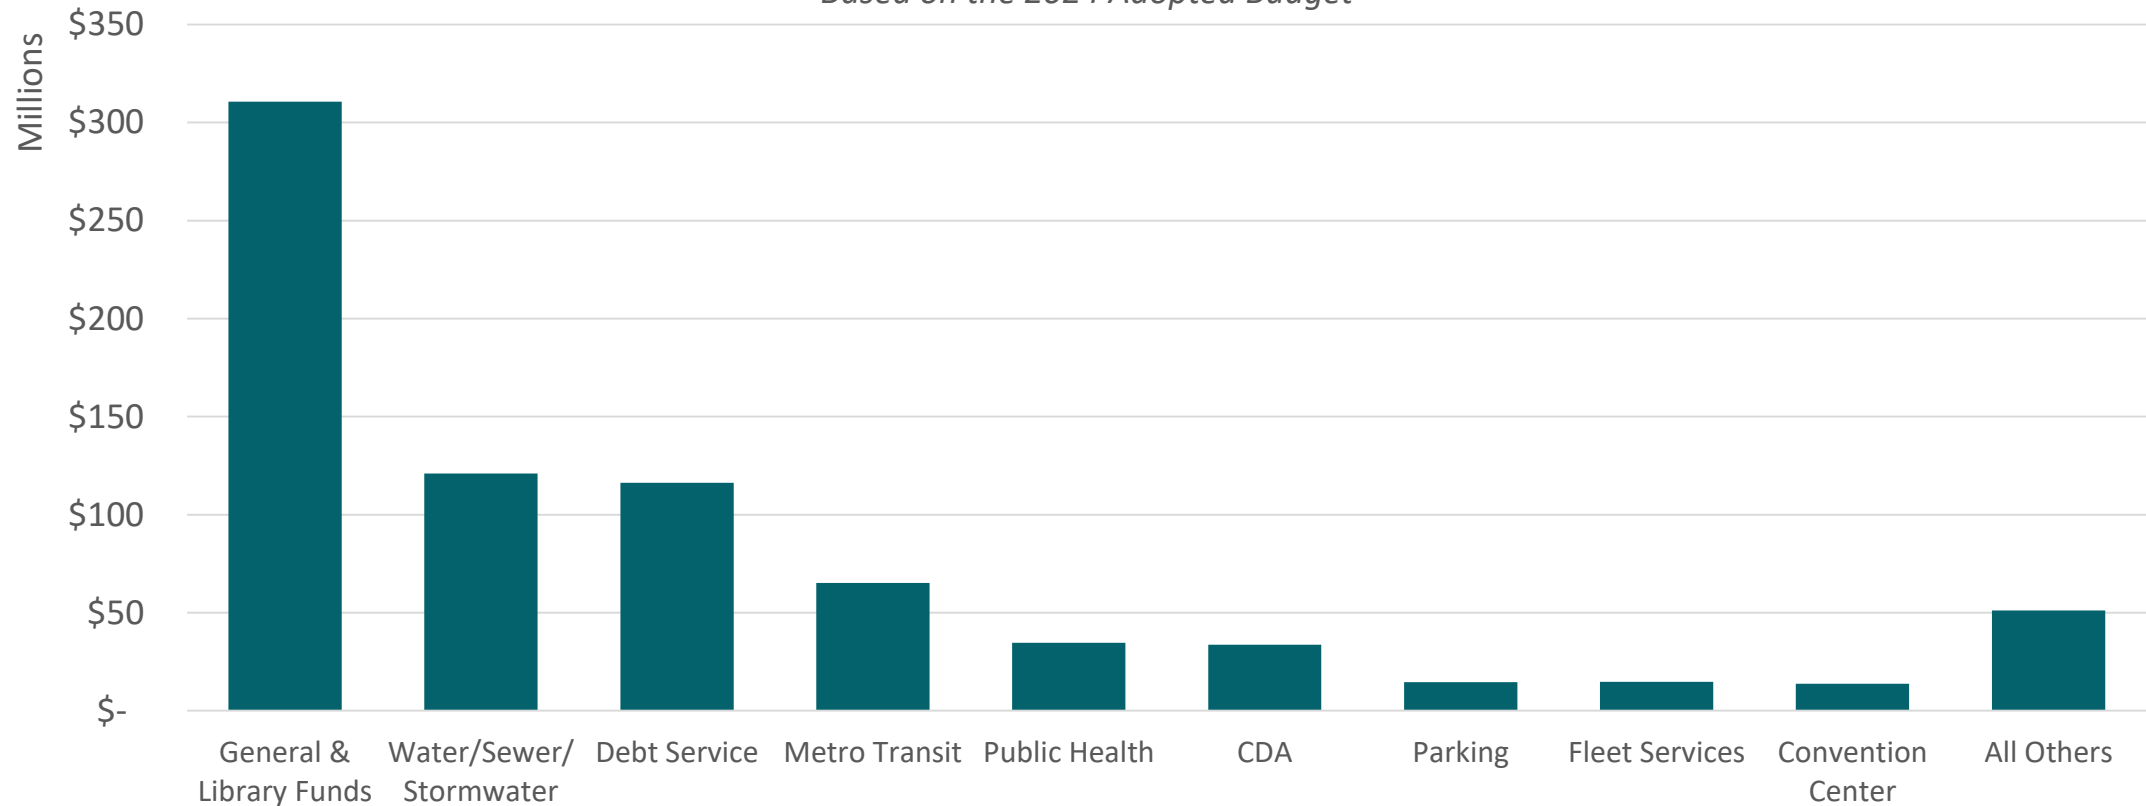

- Revenues raised by other Funds cover the direct and indirect costs of providing a service and are not used to generate a profit.
- Transfers from these funds are regulated and can only be used in specific circumstances.

“Wisconsin municipalities depend on the property tax more than their peers in any other Midwestern state” (Wisconsin Policy Forum, 2019)

- In most states, cities have local sales and/or income tax authority.
- In Wisconsin, the state collects income and sales taxes and “shares” it with cities.
- “Shared revenues” reduced between 2003 to 2011. Increase in recent state budget well below inflation since 2000.
- State has focused aid to local governments through school aid (“two-thirds” goal).
- **Result** -- city budgets are much more reliant on property taxes than peers in other states.
