

Building Inspection

Agency Overview

Agency Mission

The mission of Building Inspection is to ensure the wellbeing of people through ensuring the safety of property. The agency seeks to maintain public trust and confidence by improving the construction and maintenance of structures and property, administering codes and ordinances, continually improving codes, procedures, and regulations, providing information to its customers, and providing high quality services.

Agency Overview

The Agency is responsible for inspection, zoning and code enforcement, and consumer protection. The goal of Building Inspection is to ensure services are efficiently delivered and accessible to residents. Building Inspection will advance this goal by reviewing and updating Madison General Ordinances, proactively completing field observations of blighted areas, maximizing capacity by utilizing inspectors for less traditional roles, and standardizing processes.

Budget Service Changes

As part of the 2025 budget process, all agencies evaluated the budget service structure and had the opportunity to propose updates to services. Building Inspection's 2025 budget service structure has been changed from the 2024 adopted budget. Since there were changes to services, the budget does not show a full history at the service level. The budget does show a full history at the agency level by fund and by major expenditure category.

The 2024 Adopted Budget included the following services:

- Consumer Protection
- Health and Welfare
- Inspection
- Systematic Code Enforcement
- Zoning and Signs

The 2025 Executive Budget has been updated to the following services:

- Building Permits & Inspections
- Home & Property
- Weights & Measures
- Zoning and Signs
