Project Name: City of Madison Revenue Replacement

Project Identification Number	13970
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.1-Provision of Government Services
Status To Completion	Completed
Adopted Budget	\$31,746,518.84
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$31,746,518.84
Total Cumulative Expenditures	\$31,746,518.84
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	The City of Madison will be allocating revenue replacement funds to government services, primarily wages for public health emergency workers. These services being covered by SLFRF Funds will enable the City to maintain a balanced general fund budget and to stabilize the Monona Terrace Community and Convention Center and the room tax fund. Using the prescribed formula, it would be allowable to allocate the full \$47.2 million on revenue replacement. However, the City has decided to allocate approx. \$24.4 million to government services.

Project Name: Non Profit Support

Project Description	This funding will be used to support non profit agencies.

Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	10 Imp NPs that experienced a negative economic impact specify
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	These agencies were disproportionately impacted by the pandemic as they were some of the first to respond to households that were the most impacted by the pandemic. The agencies have increased their services and connected with more households than pre-pandemic through some of their basic services, for example the food pantry. The funding specifically helps NP agencies maintain their spaces and staff so that they can continue to provide a high level of service and programs.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	This project is a reasonable and proportional response to the negative economic impacts of the pandemic felt by both the agencies and the communities they serve. Agencies ensure this is proportionate because it is informed by feedback from residents/households that access their services. Not only do agencies seek to have staff that match the demographics of those they serve, but also have staff that relate to residents and understand the needs of those who come to their centers.

Project Description	<p>This project seeks to meet the needs of people in the community who are experiencing homelessness and who are unsheltered. The challenges around unsheltered homelessness in Madison are not new but, like in communities around the country, they have been made worse by the COVID-19 pandemic. One of the issues the City is struggling with is a growing reluctance to use group shelter settings, in part, for fear of exposure to COVID. As a result, more and more people experiencing homelessness are choosing to live outdoors, in conditions that are both unsafe and unsustainable.</p> <p>Funds provided are intended to support one or more strategies for people currently living outdoors. The funds could be used for such things as purchasing property for use as an encampment, installing basic services like running water, bathrooms or electricity, establishing “tiny homes” or similar structures for use by campers, emergency hotel shelter and supportive services and paying for on-site staff to support and monitor an encampment site.</p>

	<p>This project will provide funds to support the establishment of a permanent facility providing emergency shelter and supportive services to men in our community experiencing homelessness. This need is a direct consequence of the COVID-19 pandemic, in that the pandemic forced the closure of the previous men's shelter because it could not safely serve guests due to space limitations and</p>

Project Description	<p>corresponding public health risks. Since March of 2020, other City-owned buildings have been used as temporary shelter spaces but are needed for their intended uses.</p> <p>For years, men experiencing homelessness have been sheltered in church basements in the City's downtown. The sites were not intended for such use and proved challenging in meeting client needs. When the pandemic emerged, the venue was deemed unable to meet public health protocols and was closed.</p> <p>The project's intended purpose is the development of a new men's shelter with an anticipated capacity to serve 200 individuals. The facility will provide safe and humane accommodations for men experiencing homelessness. Funds provided will support costs associated with the planned acquisition of property and the renovation/construction of a structure to house the shelter. The selection of a site, and the design and construction of a facility, are subject to approval by the Madison Common Council. A site recommendation, and authorization to purchase, is anticipated by the end of September 2022, with the hope of opening the new shelter in 2025. Other funding sources, including contributions from Dane County and City general obligation borrowing, have been committed to the project.</p>
Does this project include a capital expenditure?	Yes

Capital Expenditure Justification	This City of Madison is braiding multiple funding sources, both federal and local, to support costs associated with the acquisition of property, design, and construction of the City's first purpose built shelter with a planned capacity of 250 maximum. The selection of the site, design of the planned facility, selection of a construction contractor and appropriation of funds to build the facility have been approved by the Madison Common Council and competitively bid.

Project Name: Occupy Madison (OM) Solar Project

Project Identification Number	13983
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.34-Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted)
Status To Completion	Completed
Adopted Budget	\$129,917.18
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$129,917.18
Total Cumulative Expenditures	\$129,917.18
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The issue this project seeks to address is meeting the needs of people in the community who are experiencing homelessness by supporting Occupy Madison's tiny house village. Occupy Madison operating costs range from \$60,000-\$80,000 a year. The biggest burden of operating both sites is the cost of electricity, as utilities for all of the tiny houses are connected to electric. Installing solar at both locations would help reduce operating expenses significantly. Currently, the OM Village on North Third Street relies on a 14KW system and the OM Village on Aberg uses a 28KW system. This is the maximum amount of energy production possible given space limitations but capacity could be increased with installation of decentralized panels on each home. OM officials suggest placing solar panels on centralized/community properties rather than each house. These systems could produce 50,000 kwh of power each year and offset 45,000 lbs of CO2 per year.</p> <p>Funds will be used to purchase solar panels and pay for installation at OM villages.</p> <p>Funds will be disbursed through a sole source grant to Occupy Madison (OM). OM is the operator of the tiny house villages, so a sole source process is most appropriate process for disbursing funds. The City is currently working with OM to develop a plan and timeline for this project.</p>
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	4 Imp HHs that experienced increased food or housing insecurity

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Funds will be used to purchase solar panels and pay for installation at OM villages. Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The Efficiency Navigator program structure provides complimentary efficiency assessments, step-by-step navigation and funding for implementation. The objective is to equitably address climate change, City energy goals and COVID recovery efforts by reducing energy use and energy cost burden long term for those most affected by the COVID-19 pandemic. Measures of impact include reducing energy use by approximately 20% per building and total greenhouse gas emissions by estimated 114 metric tons.
	Many Madison residents living in multifamily rental

Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	affordable housing have been adversely affected by COVID-19 as well as historically exclusionary housing practices through federal and local government policy and private lending. While inequities in housing affordability and health/safety quality have existed before the pandemic, COVID-19 has increased this gap and led to financial hardships for tenants of multifamily naturally occurring affordable housing (NOAH).

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Agencies provide direct assistance to the undocumented immigrant population who have been profoundly impacted by the pandemic and often unable to access resources. Assistance includes connections to basic needs including, but not limited to utility bills, bus passes, gas cards, food assistance, etc. Assistance also includes connections to legal assistance and employment.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The project addresses the need to support programming, services and outreach for immigrant members of the community who are undocumented. The pandemic has had a profound impact on undocumented residents particularly around employment and housing. These residents are not eligible, in some cases, to receive direct assistance provided by Federal and State governments, and have been reluctant, or unable, to access resources for which they are eligible.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	City-funded services for older adults (including those at the MSC) are underutilized and are not reaching a diverse group. We need to gather community input to determine why this is the case and determine what we might do about it.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	By hiring a consultant we hope to gather information from our target populations (older adults within BIPOC, lower income, LGBTQ+ communities) that will be useful in crafting strategies to better serve those groups.

Project Description	<p>CARES, a novel program housed within the Madison Fire Department and supported by a staff member within PHMDC to provide project coordination, seeks to provide an alternative response to mental health and behavioral health calls for service. Currently these calls are routed to law enforcement services. This pilot program intends to route these calls for service to a response team made up a community paramedic and a mental health specialist. This proposal will use funding to support the development of a CARES specific service in the PHMDC electronic health record system and will support external evaluation for the project.</p> <p>With the CSLFRF funding we are creating a service line within PHMDC's electronic health record system in order to track client encounters with the program. This will aid the pilot project in identifying trends, support quality and service improvements and provide a consistent platform for all partners to input data on. We are currently working with</p>

	PHMDC's electronic health record vendor to better understand timeline and needs for implementing the service line and expending the funds. The addition of this service line is classified as a purchased service and will be sole sourced.

Project Description	COVID-19 has and will continue to have a devastating impact on small businesses and our neighborhood business districts who supports these small businesses. Many of these organizations went above and beyond to help our community and businesses during the pandemic by assisting the community with immediate needs, helping small businesses access financial support, taking steps to educate and assist businesses in reopening, etc. Neighborhood Business District Support will help these organizations continue their important work by building their capacity to assist small businesses as they recover from the pandemic. It is also our goal to help support organizations run by or serving historically disadvantage individuals that have not been fully active within some of these neighborhood districts in the past. Funds can be used to support neighborhood

Project Description	<p>The Madison Public Market was originally scheduled to be under construction in Fall of 2020. COVID-19 and other related delays place the start of construction now in Fall of 2022. The Madison Public Market Foundation has been a key partner in the planning of the Public Market and they will be the non-profit entity that will run the Public Market. To date, the Foundation has assisted with business planning, fundraising, design, the MarketReady Program, and community engagement. Around the time that construction begins, the Foundation will hire a full time Executive Director in preparation for running the Market once it opens about a year later. The two year delay in construction has negatively impacted the operating finances of the Foundation. Simply put, the Foundation did not budget for ongoing fundraising and project management contracts for an additional two years. Further, the Foundation has devoted a portion of its operating reserves for consultant support of the project's EDA Grant application. Most of the financial support pledged to the Foundation can only be used for construction, not operations. This funding will assist the Foundation with operations through the start of construction, including hiring an Executive Director.</p>

Project Description	<p>COVID-19 will have longer-term impact on retail brick-and-mortar shopping. Due to the pandemic, we have seen historically high vacancies in our downtown State Street storefronts. In addition, many of these businesses have not recovered from damages caused during the civil unrest. The Downtown Vacant Storefront Art Program can help support local artists who lost income due to COVID-19 and help make downtown more vibrant and inviting for our community.</p> <p>Funds will likely be used to hire a program coordinator, pay artists, and other miscellaneous expenses. Description	The City of Madison (“City” or “Client”) manages the “Madison-area Out-of-School Time website (“MOST”), found online at https://mostmadison.org . The current site is hosted by the City, and built upon an older CMS (version 7 of Drupal). Due to an impending “end of life” support for this older version of Drupal, the Client would like to upgrade and migrate the site to the latest version of Drupal (version 10).

Estimated Revenue Loss Due to Covid-19 Public Health Emergency	\$44,649,062.00
Were Fiscal Recovery Funds used to make a deposit into a pension fund?	No
Please provide an explanation of how revenue replacement funds were allocated to government services	Using the prescribed formula, it would be allowable to allocate the full \$47.2 million on revenue replacement. However, the City of Madison has decided to allocate approx. \$24.4 million to government services. This allocation will be used to balance the general fund budget, to avoid using the fund balance in 2022, and to stabilize the Monona Terrace Community and Convention Center and the room tax fund. The City will be allocating revenue replacement funds to government services, primarily wages for public health emergency workers, out of the second tranche.

2021
