# Engineering - Major Streets 2026 Capital Budget Request Summary

# Capital Improvement Plan 2025 Adopted vs. 2026 Request

# Major Changes

Bridge Repair

• Funding in 2026 increased by \$130,000 and changed from General Fund GO Borrowing to TIF Borrowing (TID 51) for adding sidewalk to the Badger Road bridge. This reflects a 48.1% increase in 2026.

# High Point/Raymond/MidTown

• No major changes compared to 2025 Adopted CIP.

# Hoepker Road/Portage Road

- New project. Request includes \$10.8 million in General Fund GO Borrowing from 2027-2031.
- \$1.8 million in funding in 2027 is for design, \$2.0 million in funding in 2030 is for land acquisition, and \$7.0 million in funding in 2031 is for construction.
- Request assumes \$10.5 million in federal funding administered by the Wisconsin Department of Transportation which is not secured at this time.

# John Nolen Drive

- Project budget increased by \$3.0 million in General Fund GO Borrowing in 2026 due to increased cost estimates and inability to use federal funding on railroad crossing and signal expenses.
- Project budget decreased by \$4.0 million in General Fund GO Borrowing in 2030 and increased by \$12.5 million in General Fund GO Borrowing in 2031 due to a revised estimate for the underpass project of \$25.0 million, which assumes a 50% federal match.

# **Mineral Point Road**

- Project budget increased by \$1.2 million in General Fund GO Borrowing, \$200,000 in special assessments, and decreased by \$100,000 in Non-General Fund GO Borrowing (Stormwater) in 2026. This reflects a 25.5% increase.
- The 2024 Adopted CIP included \$1.1 million in General Fund GO Borrowing which was inadvertently removed from the project during the budget development process last year.

# Engineering - Major Streets

# 2026 Capital Budget Request Summary

# **Major Changes (Continued)**

**Pavement Management** 

- Program budget decreased by \$6.0 million from 2026-2030 due to changes in Sewer and Stormwater funding from Engineering's updated project plan.
- Program funding changes consist of a \$3.8 million decrease in Revenue Bonds from 2026-2030, a \$1.6 million decrease in Reserves Applied Sewer from 2026-2030, a \$700,000 decrease in Special Assessment Sewer from 2026-2030, a \$125,000 decrease in in Special Assessment Stormwater from 2026-2028, a \$50,000 decrease in Reserves Applied Stormwater in 2026, and a \$265,000 increase in Non-General Fund GO Borrowing (Stormwater) from 2026-2029.

Pleasant View Rd Phase 2

• No major changes compared to 2025 Adopted CIP.

**Reconstruction Streets** 

- Program budget decreased by \$686,000 from 2026-2030. This reflects a 0.7% decrease compared to the 2025 Adopted CIP.
- Program budget increased by \$500,000 in Non-General Fund GO Borrowing (TID 50) for the Hawthorne Ct minor project in 2026.
- Sewer Utility funding sources decreased by \$2.0 million in 2026 comprised of a \$1.8 million decrease in Revenue Bonds, a \$237,000 decrease in Special Assessments (Sewer), and a \$28,000 increase in Reserves Applied Sewer.
- Stormwater Utility funding sources increased by \$575,000 from 2026-2030 comprised of an increase of \$350,000 in Stormwater Borrowing, a \$480,000 increase in Special Assessments (Stormwater), and a \$255,000 decrease in Reserves Applied - Stormwater.

# **Regent Street**

- Project was delayed from 2026 to 2027 due to coordination with John Nolen Dr. and Park Street projects.
- \$200,000 in design funding remained in 2026 due to unavailability of federal funding for design.

# Milwaukee Street

• Project moved to Horizon List. The 2025 Adopted CIP included \$6.7 million in funding in 2030.

# Perry St Overpass

• Project moved to Horizon List. The 2025 Adopted CIP included \$2.0 million in funding in 2030.

> Financial Manager Steven B. Danner-Rivers

Summary of Changes from 2025 Capital Improvement Plan

The Major Streets Budget is comprised of 6 Projects and 3 Programs. The overall budget was within the guidelines for 2026 borrowing, 2027-2031 borrowing of programs, and new project requests in 2031. Two projects from the 2025 capital budget are proposed for the horizon list.

- No Change: The Reconstruct Streets and Pavement Management programs remain unchanged from a GF GO perspective, but funding from the utilities may have changed within these programs to accommodate the current list of planned projects. These changes are described in the memos for the utilities. High Point/Raymond/Mid Town and Pleasant View Ph 2 projects remain unchanged.
- Budget Neutral Changes or Reductions
  - Milwaukee St project moved to horizon list.
  - Perry St Overpass project moved to horizon list.
- Increases or New Projects:
  - Bridge Repair: proposing \$130k additional funds in 2026 and changing funding from GF GO Borrowing to TID 51 borrowing to be used to create a new sidewalks on the Badger Road bridge over the railroad to coincide with new sidewalks be installed in the area through development and Safe Streets Madison to provide connected pedestrian facilities.
  - John Nolen Dr: proposing \$3m additional funds in 2026 for Ph 1. The funding is required due to the inability to use federal funds for railroad improvements on the project, as well as new stormwater & tree improvements planned in conjunction with the Madison Lakeway Project. John Nolen Dr. Ph2 & 3 remain unchanged. The underpass project in 2031 has a significantly higher estimate than 2025 budget, federal funds are not secured, and may be a candidate to move to horizon list.
  - Mineral Point Road: The GO portion of the project funding was mistakenly removed in the 2025 CIP and we are proposing to add it back in. \$900k TID funding showing in Major Streets in the 2025 CIP was moved back to Stormwater Utility.
  - Regent St: Propose to delay to 2027 construction, while leaving some funding for design in 2026. In 2025, it was anticipated that federal funds would be available to hire a consultant to complete design work, but that no longer seems to be the case. Specific construction timing is dependent on coordination with other planned projects on John Nolen Dr. and Park St. (BRT N/S).
  - Hoepker Rd/Portage Rd: This is a new project request to add a total of \$10.75m between
     2027 and 2031 to improve roads on the North East side of Madison in anticipation of an

interchange project at Hoepker/I39 that WisDOT is constructing. Local funding for the interchange project is within the Department of Transportation Capital Budget.

# Risk Assessment of Federal Funding

- The following projects have federal funds awarded and grant agreements executed:
  - o John Nolen Dr
  - High Point portion of High Point/Raymond/Mid Town
  - o Mineral Point Rd
- The following projects are future requests from the MPO formula STBG funds:
  - Raymond/Mid Town portion of High Point/Raymond/Mid Town
  - o Pleasant View Rd Ph2
  - Hoepker Rd/Portage Rd

We have not heard of any changes in funding of approved projects, and the majority of the funding through these programs is more formulaic and that funding for more basic transportation infrastructure will remain a priority. With that in mind, we anticipate these projects will continue as proposed. We believe the proposed projects that anticipate future federal funds will score well within these programs and anticipate funding. If they are not awarded funds, we could look at delaying or implementing smaller portions of the projects with the local funds. It is possible that a portion of them could be funded now in a phase 1, and include a phase 2 project later (as is happening in 2026 with High Point Rd).

# Prioritized List of Capital Requests

- 1. John Nolen Dr 11860
- 2. High Point/Raymond/Mid Town 15401
- 3. Mineral Point Rd 11131
- 4. Pavement Management 10540
- 5. Reconstruct Streets 10226
- 6. Bridge Repair 10538
- 7. Regent St 15233
- 8. Pleasant View Rd Ph 2\* 12630
- 9. Hoepker Rd/Portage Rd\* New

\* In the event that these projects do not receive funding we would look to either add components to increase their scoring for fed funding, spread the project into phases to reduce federal funding, phase to include only local funding, or delay the project.

James M. Wolfe, P.E., City Engineer

**Program Budget Proposal** 

# **Identifying Information** New or Existing Engineering - Major Streets Project Existing Agency Project Type Program Bridge Repair **Proposal Name** 2026 Project Number 15791 Project Number 10538

**Project Description** 

This program is for repair, replacement and painting of bridges to maintain a safe condition and extend service. The goal of this program is to provide safe bridges measured by routine evaluation. Project funding in this program typically includes minor bridge repairs, painting, and resurfacing. Funding in 2026 is for adding sidewalk to the Badger Road Bridge over the Railroad.

Explain any changes from the 2025 CIP in the proposed funding for this project/program

We have proposed to increase 2026 funds by 130K, for adding sidewalk to the Badger Road bridge. This funding is also changed from GF GO to TID 51 borrowing. This will allow for continuous path and sidewalk along Badger Road to prepare for the new Center for Black Excellence development.

| TIF funding is included in this request:  | Yes |
|---|-----|
| Impact Fees are included in this request: | No  |

Request includes TIF or Impact Fees. Proceed to Supplemental Budget Info.

# **Project Schedule and Location**

Complete the table below for each year of requested funding. If detailed project plans are not available, explain why and when this information will be available.

• For programs, detail the minor projects that will occur and provide location detail when necessary.

• For projects, detail costs across the major project phases (planning, design, or construction/implementation).

| Year |      | Phase/Project Name                          | Cost |         | Location  | Alder District |
|------|------|---|------|---------|-----------|----------------|
|      |      | Badger Road Bridge sidewalk addition        | \$   | 400,000 | Badger Rd | 14             |
|      |      | Epoxy Coating of Decks and Concrete/Railing | \$   | 280,000 | city wide | city wide      |
|      |      | Epoxy Coating of Decks and Concrete/Railing | \$   | 290,000 | city wide | city wide      |
|      |      | Epoxy Coating of Decks and Concrete/Railing | \$   | 300,000 | city wide | city wide      |
|      |      | Epoxy Coating of Decks and Concrete/Railing | \$   | 315,000 | city wide | city wide      |
|      | 2031 | Epoxy Coating of Decks and Concrete/Railing | \$   | 331,000 | city wide | city wide      |
|      |      |   |      |         |           |                |

# **Additional Information**

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance?
- Software or software licenses?
- Vehicle setup or maintenance costs?
- External management or consulting contracts?
- Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance? Percent for Art requirements detailed in MGO Section 4.30

Project/Program: High Point/Raymond/MidTown

# **Project Schedule and Location**

Complete the table below for each year of requested funding. If detailed project plans are not available, explain why and when this information will be available.

• For programs, detail the minor projects that will occur and provide location detail when necessary.

• For projects, detail costs across the major project phases (planning, design, or construction/implementation).

| Year |      | Phase/Project Name                | Cost |            | Location                            | Alder District |
|------|------|-----------------------------------|------|------------|-------------------------------------|----------------|
|      | 2026 | Construction - High Point Rd      | \$   |            | Midpoint Meadows Plat to Raymond Rd | 1&7            |
|      | 2029 | Land Acquisition                  | \$   |            | Waldorff to Muir Field              | 1&7            |
|      | 2030 | Construction - Mid Town & Raymond | \$   | 14,900,000 | Waldorff to Muir Field              | 1&7            |
|      |      |                                   |      |            |                                     |                |
|      |      |                                   |      |            |                                     |                |
|      |      |                                   |      |            |                                     |                |
|      |      |                                   |      |            |                                     |                |
|      |      |                                   |      |            |                                     |                |

# **Additional Information**

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance?
  - Software or software licenses?
  - Vehicle setup or maintenance costs?
  - External management or consulting contracts?

Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance?

Percent for Art requirements detailed in MGO Section 4.30

Please provide additional information in the following section.

| No |  |  |
|----|--|--|
|    |  |  |

|     | Yes |  |
|-----|-----|--|
|     | No  |  |
|     |     |  |
| Yes |     |  |
|     |     |  |

#### Agency: Engineering - Major Streets Project/Program: High Point/Raymond/MidTown

# **Additional Information (Continued)**

If you answered "Yes" to any of the "Additional Information" questions above, please provide additional details in the next section. If a specific section is not relevant, you can enter "N/A"

#### **Facility Expenses**

If the proposal includes City site/building/facility expenses, has the proposal been reviewed by City Engineering Facilities?

Explain how you developed the facilities cost estimate for the budget request.

#### Technology

Technology components may include:

- Electronic hardware that will be connected to a City device (e.g. wireless, bluetooth, cable, NFC)
- A new website or changes to an existing website
- Changes to existing software or processes, including upgrades or additional modules
- Technology-related operating costs (e.g. software licenses, Software as a Service subscriptions)

If the proposal includes a technology component, have you worked with your IT Project Portfolio Manager to discuss the project?

If no, please reach out to your Project Portfolio Manager so that their business analysis can be included in the request.

Do you believe any of the hardware or software to be considered surveillance technology? <u>Surveillance technology is defined in MGO Sec. 23.63(2).</u>

If yes, please reach out to Sarah Edgerton prior to submitting your budget request.

The Government Accounting Standards Board (GASB) recently issued a statement (GASB 96) for subscription-based information technology arrangements (SBITAs). Per GASB 96, ongoing licensing and subscription costs, including software as a service (SaaS) expenses should be budgeted as an operating expense. Software costs should **not** be requested in your capital budget. Answer the questions below so the Finance Department is aware of your software needs for the operating budget request process.

Does your project or program require purchasing software licenses? Does your project or program require purchasing implementation services or other one-time costs?

#### **Operating Expenses**

| Estimate the project/program annual operating costs. Include software costs if applicable.                               |              |
|--|--------------|
| Description - please detail operating costs by major where available   | Annual Costs |
|  |              |
| A new path will require maintenance. New arterial paths cost approximately \$15,000 per mile to maintain. It is expected |              |
| that the additional maintenance could be absorbed in the current operating budget funding. In the future, as the city    |              |
| continues to expand its bicycle path network over time, additional resources may be required.                            | 12500        |
|  |              |
| A new street will require maintenance. New 2 lane roadways cost approximately \$23,000 per mile to maintain. It is       |              |
| expected that the additional maintenance could be absorbed in the current operating budget funding.                      | 26000        |

#### Percent for Art

If your project is required to meet the Percent for Art ordinance, is this expense included in the expense table on the "Project Information" tab?

N/A

N/A

N/A

Project Budget Proposal

A portion of this route is within the 20<br>convenient access to the new UW Hospital on East Park Blvd. | nendation?)<br>t to a significant r<br>long the corridors | number of<br>5. Improvements      |

**Agency: Engineering - Major Streets** 

Project/Program: Hoepker Road/Portage Road

# **Budget Information**

Agencies may submit requests for new projects under the following circumstances: 1) Project is primarily funded by non-general obligation borrowing funding sources, 2) the project meets an emergency need not anticipated in 2025, 3) the project is currently on the Horizon List and is ready to be advanced, or 4) the project is planned for the last year of the CIP (2031).

What "New Project" criteria does your proposal meet? Select "Yes" for all that apply.

- 1) Primarily funded by non- GO sources
- 2) Meets emergency need
- 3) Currently on horizon list
- 4) Proposed for last year of CIP

| No<br>No | Yes |  |
|----------|-----|--|
| No       | No  |  |
| 110      | No  |  |
| No       | No  |  |

Describe how the proposal meets the criteria above. Why is this project needed in the 2026 CIP?

This project is proposed to be federally funded by 60% through the Federal Funds within the STBG program. Federal funding is administered by WisDOT, so the budget proposal does not show federal funding. Federal Funds do not pass through the City and the City will just be invoiced the local share. The majority of funding is proposed for 2031.

## Requested 2026 Budget by Funding Source

| Funding Source    | 2026    | 2027            | 2028 | 3  | 2029 | 2030            | 2031            |

Agency: Engineering - Major Streets

Project/Program: Hoepker Road/Portage Road

# **Project Schedule and Location**

Complete the table below for each year of requested funding. If detailed project plans are not available, explain why and when this information will be available.

- For programs, detail the minor projects that will occur and provide location detail when necessary.
- For projects, detail costs across the major project phases (planning, design, or construction/implementation).

| Year | Phase/Project Name | Cost |           | Location                          | Alder District |
|------|--------------------|------|-----------|-----------------------------------|----------------|
| 2027 | Design             | \$   |           | 139 to Portage, Hoepker to Hanson | 17             |
| 2030 | Land Acquisition   | \$   | 2,000,000 | 139 to Portage, Hoepker to Hanson | 17             |
| 2031 | Construction       | \$   | 7,000,000 | 139 to Portage, Hoepker to Hanson | 17             |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |
|      |                    |      |           |                                   |                |

|      |                    |      |           |                                   |                |

# **Additional Information**

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance?
- Software or software licenses?
- Vehicle setup or maintenance costs?
- External management or consulting contracts?
- Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance? <u>Percent for Art requirements detailed in MGO Section 4.30</u>

Please provide additional information in the following section.

No

|     | Yes |  |
|-----|-----|--|
|     | No  |  |
|     |     |  |
| Yes |     |  |

#### Agency: Engineering - Major Streets Project/Program: Hoepker Road/Portage Road

# **Additional Information (Continued)**

# If you answered "Yes" to any of the "Additional Information" questions above, please provide additional details in the next section. If a specific section is not relevant, you can enter "N/A"

# **Facility Expenses**

If the proposal includes City site/building/facility expenses, has the proposal been reviewed by City Engineering Facilities?

Explain how you developed the facilities cost estimate for the budget request.

### Technology

Technology components may include:

- Electronic hardware that will be connected to a City device (e.g. wireless, bluetooth, cable, NFC)
- A new website or changes to an existing website
- Changes to existing software or processes, including upgrades or additional modules
- Technology-related operating costs (e.g. software licenses, Software as a Service subscriptions)

If the proposal includes a technology component, have you worked with your IT Project Portfolio Manager to discuss the project?

If no, please reach out to your Project Portfolio Manager so that their business analysis can be included in the request.

Do you believe any of the hardware or software to be considered surveillance technology? Surveillance technology is defined in MGO Sec. 23.63(2).

If yes, please reach out to Sarah Edgerton prior to submitting your budget request.

The Government Accounting Standards Board (GASB) recently issued a statement (GASB 96) for subscription-based information technology arrangements (SBITAs). Per GASB 96, ongoing licensing and subscription costs, including software as a service (SaaS) expenses should be budgeted as an operating expense. Software costs should **not** be requested in your capital budget. Answer the questions below so the Finance Department is aware of your software needs for the operating budget request process.

Does your project or program require purchasing software licenses?

Does your project or program require purchasing implementation services or other one-time costs?

#### **Operating Expenses**

Estimate the project/program annual operating costs. Include software costs if applicable.

| Description - please detail operating costs by major where available   | Annual Costs |
|--|--------------|
| A new path will require maintenance. New arterial paths cost approximately \$15,000 per mile to maintain. It is      |              |
| expected that the additional maintenance could be absorbed in the current operating budget funding. In the future,   |              |
| as the city continues to expand its bicycle path network over time, additional resources may be required or level of |              |
| service for path maintenance reduced.  | 15000        |

#### Percent for Art

If your project is required to meet the Percent for Art ordinance, is this expense included in the expense table on the Yes "Project Information" tab?

**Project Budget Proposal** 

# Identifying Information Agency Engineering - Major Streets New or Existing Project Existing Proposal Name John Nolen Drive Project Type Project Project Number 11860 Project Description Project is for John Nolen Drive. The first phase includes replacing the causeway and bridges on John Nolen Drive between North Shore Drive and Lakeside Street. The goal of the project is to improve the transportation safety for this corridor for pedestrians, bicycles and motor vehicles. The project's scope includes replacing the six bridges on the John Nolen Drive causeway, which are approaching the end of their service life. The multi-use path is also planned to be reconstructed to create additional space for bike and pedestrian traffic, particularly where it is partow over waterways. Pavement is planned for replacement in the corridor. The first phase of construction is

particularly where it is narrow over waterways. Pavement is planned for replacement in the corridor. The first phase of construction is scheduled for 2025-2026. \$42.6 million in Federal funding for the first phase has been approved and will be administered by the State. Funding in 2028 and 2029 is planned for Lakeside to Olin Avenue. Funding in 2031 is planned for the Pedestrian Bicycle Underpass. Federal funding is not secured for this project component at this time.

Explain any changes from the 2025 CIP in the proposed funding for this project/program

We are proposing a 3M increase to 2026 for the Phase 1 project. This is due to increased cost estimates as well as an inability to use federal funding on railroad crossing and signal expenses. We also are implementing new stormwater green infrastructure improvements in coordination with the Madison Lakeway Project. We also are proposing a 1 year delay to the underpass project moving from 2030 to 2031. The underpass project has a current revised cost estimate of 25M. We are assuming 50% federal funds, which are not secured. 12.5 M of federal funds are currently higher than any of our standard federal fund sources we typically utilize. It may be appropriate to place the underpass portion on the horizon list, until the scope is further developed.

# **Additional Information**

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance?
- Software or software licenses?
- Vehicle setup or maintenance costs?
- External management or consulting contracts? Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance?

Percent for Art requirements detailed in MGO Section 4.30

| This project funds the re   | construction of Mineral Point Road from the Beltline (USH 12/18) to High Poin | t Road. The project | is proposed to be |  |  |  |  |  |  |  |  |  |
| reconstructed with new pavement, median, and multi-use path. Safety enhancements are proposed for the Mineral Point Road and High |   |                     |                   |  |  |  |  |  |  |  |  |  |

reconstructed with new pavement, median, and multi-use path. Safety enhancements are proposed for the Mineral Point Road and High Point Road intersection. The goal of the project is to provide new pavement and enhance safety for pedestrians and bicyclists. The project also includes a large storm box culvert to provide flood relief for the roadway. \$5.3 million in Federal funding has been secured and will be administered by the State.

Explain any changes from the 2025 CIP in the proposed funding for this project/program

We are proposing a 1.3M increase from the 2025 CIP for 2026. The 2024 CIP included this amount. When we added the TIF funds in the 2025 CIP, \$900k of funding was moved from Storm to Major Streets, and the GF GO component was mistakenly removed. We are proposing to add it back in and shifting the \$900k TID funding back to Storm.

| TIF funding is included in this request:  | Yes |

Agency: Engineering - Major Streets Project/Program: Mineral Point Road

# **Project Schedule and Location**

Complete the table below for each year of requested funding. If detailed project plans are not available, explain why and when this information will be available.

• For programs, detail the minor projects that will occur and provide location detail when necessary.

• For projects, detail costs across the major project phases (planning, design, or construction/implementation).

| Year | Phase/Project Name | Cost |           | Location                  | Alder District |
|------|--------------------|------|-----------|---------------------------|----------------|
| 2026 | Construciton       | \$   | 6,400,000 | Beltline to High Point Rd | 9              |
|      |                    |      |           |                           |                |

# **Additional Information**

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance? Software or software licenses?
- Vehicle setup or maintenance costs?
- External management or consulting contracts?
- Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance? Percent for Art requirements detailed in MGO Section 4.30

Please provide additional information in the following section.

| No  |  |
|-----|--|
| No  |  |
| No  |  |
| No  |  |
| No  |  |
|     |  |
| Yes |  |
|     |  |

# Project Information Agency: Engineering - Major Streets

Project/Program: Mineral Point Road

# Additional Information (Continued)

If you answered "Yes" to any of the "Additional Information" questions above, please provide additional details in the next section. If a specific section is not relevant, you can enter "N/A"

# Facility Expenses

If the proposal includes City site/building/facility expenses, has the proposal been reviewed by City Engineering Facilities?

Explain how you developed the facilities cost estimate for the budget request.

# Technology

Technology components may include:

- Electronic hardware that will be connected to a City device (e.g. wireless, bluetooth, cable, NFC)
- A new website or changes to an existing website
- Changes to existing software or processes, including upgrades or additional modules
- Technology-related operating costs (e.g. software licenses, Software as a Service subscriptions)

If the proposal includes a technology component, have you worked with your IT Project Portfolio Manager to discuss the project?

If no, please reach out to your Project Portfolio Manager so that their business analysis can be included in the request.

Do you believe any of the hardware or software to be considered surveillance technology? <u>Surveillance technology is defined in MGO Sec. 23.63(2)</u>.

If yes, please reach out to Sarah Edgerton prior to submitting your budget request.

The Government Accounting Standards Board (GASB) recently issued a statement (GASB 96) for subscription-based information technology arrangements (SBITAs). Per GASB 96, ongoing licensing and subscription costs, including software as a service (SaaS) expenses should be budgeted as an operating expense. Software costs should **not** be requested in your capital budget. Answer the questions below so the Finance Department is aware of your software needs for the operating budget request process.

Does your project or program require purchasing software licenses? Does your project or program require purchasing implementation services or other one-time costs?

# **Operating Expenses**

Estimate the project/program annual operating costs. Include software costs if applicable.

| Annual Costs |
|--------------|
| 0            |
|              |
|              |
|              |
|              |
|              |
|              |
|              |

### Percent for Art

If your project is required to meet the Percent for Art ordinance, is this expense included in the expense table on Yes the "Project Information" tab?

N/A

N/A

#### Project Description

This program is for resurfacing, repairing, crack sealing and chip sealing on existing streets. The goal of the program is to extend the life of existing streets. Each year the program resurfaces 5-10 miles, chip seals approximately 75 miles and crack seals approximately 75 miles. Projects planned in 2026 include: Chip and Crack Seal, Patching, N Lake & W Dayton, Virginia & Norwood, Midvale, Dondee, Pioneer & Meadow, Parman, Rimrock, Waubesa.

# **Additional Information**

# **Facility Expenses**

Does the proposal include facility expenses?

# Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance?
- Software or software licenses?
- Vehicle setup or maintenance costs?
- External management or consulting contracts?
- Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance? Percent for Art requirements detailed in MGO Section 4.30

End of Proposal Form.

**Project Budget Proposal** 

# Identifying Information Agency Engineering - Major Streets Proposal Name Pleasant View Rd Phase 2 Project Number 12630 Project Description

This project is for reconstructing Pleasant View Road from Mineral Point Road to Old Sauk Road. The goal of this project is to expand the existing roadway, provide pedestrian and bicycle facilities, and improve the pavement quality. The project's scope includes construction of a four lane street with multi-use path and sidewalk to replace the existing two lane roadway, consistent with prior phases of construction on Pleasant View. Construction is planned for 2030.

|      |                    |      |           |                           |                |
|      |                    |      |           |                           |                |
|      |                    |      |           |                           |                |
|      |                    |      |           |                           |                |
|      |                    |      |           |                           |                |
|      |                    |      |           |                           |                |
|      |                    |      |           |                           |                |
|      |                    |      |           |                           |                |

# Additional Information

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance? Software or software licenses?
- Vehicle setup or maintenance costs?
- External management or consulting contracts?
- Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance? Percent for Art requirements detailed in MGO Section 4.30

Please provide additional information in the following section.

No

| Yes |  |
|-----|--|
| No  |  |

Agency: Engineering - Major Streets Project/Program: Pleasant View Rd Phase 2

# **Additional Information (Continued)**

If you answered "Yes" to any of the "Additional Information" questions above, please provide additional details in the next section. If a specific section is not relevant, you can enter "N/A"

# **Facility Expenses**

If the proposal includes City site/building/facility expenses, has the proposal been reviewed by City Engineering Facilities?

Explain how you developed the facilities cost estimate for the budget request.

# Technology

Technology components may include:

- Electronic hardware that will be connected to a City device (e.g. wireless, bluetooth, cable, NFC)
- A new website or changes to an existing website
- Changes to existing software or processes, including upgrades or additional modules
- Technology-related operating costs (e.g. software licenses, Software as a Service subscriptions)

If the proposal includes a technology component, have you worked with your IT Project Portfolio Manager to discuss the project?

If no, please reach out to your Project Portfolio Manager so that their business analysis can be included in the request.

Do you believe any of the hardware or software to be considered surveillance technology? <u>Surveillance technology is defined in MGO Sec. 23.63(2).</u>

If yes, please reach out to Sarah Edgerton prior to submitting your budget request.

The Government Accounting Standards Board (GASB) recently issued a statement (GASB 96) for subscription-based information technology arrangements (SBITAs). Per GASB 96, ongoing licensing and subscription costs, including software as a service (SaaS) expenses should be budgeted as an operating expense. Software costs should **not** be requested in your capital budget. Answer the questions below so the Finance Department is aware of your software needs for the operating budget request process.

Does your project or program require purchasing software licenses? Does your project or program require purchasing implementation services or other one-time costs?

### **Operating Expenses**

Estimate the project/program annual operating costs. Include software costs if applicable.

| Description - please detail operating costs by major where available  | Annual Costs |
|---|--------------|
| A new path will require mainetance. New arterial paths cost approximately \$15,000 per mile to maintain. It is      |              |
| expected that the additional maintenance could be absorbeed in the current operating budget funding. In the         |              |
| future, as the city continues to expand its bicycle path network over time, additional resources may be required or |              |
| level of service for path maintenance reduced.  | 15000        |

### Percent for Art

If your project is required to meet the Percent for Art ordinance, is this expense included in the expense table on the "Project Information" tab?

N/A

N/A

Program Budget Proposal

# Identifying Information Agency Engineering - Major Streets New or Existing Project Existing Proposal Name Reconstruction Streets Project Type Program Project Number 10226 2026 Project Number 15793

#### Project Description

This program is for replacing deteriorated streets to maintain neighborhood roadways. Projects funded include those where a full street replacement is necessary. Streets planned in 2026 include portions of: MacArthur, Larson, Sycamore, Birge, Elmside, Sommers, Center, Norman, Wood, Sherman, McGuire, Euclid, Birch, Milwaukee, W Mifflin Plaza, Hawthorne.

Explain any changes from the 2025 CIP in the proposed funding for this project/program

We are proposing 500K TIF borrowing for the Hawthorne Ct minor project in 2026. Sewer Utility budget was reduced by \$2m in 2026. Stormwater budget had various budget shifts between 2026-2030.

| TIF funding is included in this request:  | Yes |
|---|-----|
| Impact Fees are included in this request: | No  |

Request includes TIF or Impact Fees. Proceed to Supplemental Budget Info.

# Additional Information

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance?
- Software or software licenses?
- Vehicle setup or maintenance costs?

External management or consulting contracts?

Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance? Percent for Art requirements detailed in MGO Section 4.30

End of Proposal Form.

**Project Budget Proposal** 

# Identifying Information Agency Engineering - Major Streets New or Existing Project Existing Proposal Name Regent Street Project Type Project Project Number 15233

#### Project Description

This project is for reconstructing Regent Street from Randall Ave to Park St. The goal of this project is to improve the pavement quality and enhance pedestrian and bicycle connections. The project's scope includes construction of the pavement, curb and gutter, sidewalk, terraces and pavement markings. The existing storm sewer box culvert is in poor condition and will be constructed under the street and sized per watershed study recommendations. Construction is planned for 2027.

Explain any changes from the 2025 CIP in the proposed funding for this project/program

We are proposing to move the project from 2026 to 2027 while leaving \$200k for design funding in 2026, due to the unreliability of the federal funding for design.

Agency: Engineering - Major Streets Project/Program: Regent Street

# **Project Schedule and Location**

Complete the table below for each year of requested funding. If detailed project plans are not available, explain why and when this information will be available.

• For programs, detail the minor projects that will occur and provide location detail when necessary.

• For projects, detail costs across the major project phases (planning, design, or construction/implementation).

| Year | Phase/Project Name | Cost |            | Location        | Alder District |
|------|--------------------|------|------------|-----------------|----------------|
| 2026 | Design             | \$   | 200,000    | Randall to Park | 5, 8           |
| 2027 | Construction       | \$   | 17,275,000 | Randall to Park | 5, 8           |
|      |                    |      |            |                 |                |
|      |                    |      |            |                 |                |

# **Additional Information**

#### **Facility Expenses**

Does the proposal include facility expenses?

#### Technology

Does the proposal include a technology component (e.g. electronic hardware, upgrades or migrations of existing systems, website changes, technology-related operating costs such as software licenses)?

Over the next six years, will the project/program require any of the following operating expenses:

- Facilities or land maintenance? Software or software licenses?
- Vehicle setup or maintenance costs?
- External management or consulting contracts?
- Additional FTE positions for ongoing operations of this project/program?

Is this project/program required to meet the Percent for Arts ordinance? Percent for Art requirements detailed in MGO Section 4.30

Please provide additional information in the following section.

No

| No  |
|-----|
| No  |
| No  |
| No  |
| No  |
|     |
| Yes |

# Agency: Engineering - Major Streets Project/Program: Regent Street

**Project Information** 

# **Additional Information (Continued)**

If you answered "Yes" to any of the "Additional Information" questions above, please provide additional details in the next section. If a specific section is not relevant, you can enter "N/A"

# **Facility Expenses**

If the proposal includes City site/building/facility expenses, has the proposal been reviewed by City Engineering Facilities?

Explain how you developed the facilities cost estimate for the budget request.

### Technology

Technology components may include:

- Electronic hardware that will be connected to a City device (e.g. wireless, bluetooth, cable, NFC)
- A new website or changes to an existing website
- Changes to existing software or processes, including upgrades or additional modules
- Technology-related operating costs (e.g. software licenses, Software as a Service subscriptions)

If the proposal includes a technology component, have you worked with your IT Project Portfolio Manager to discuss the project?

If no, please reach out to your Project Portfolio Manager so that their business analysis can be included in the request.

Do you believe any of the hardware or software to be considered surveillance technology? <u>Surveillance technology is defined in MGO Sec. 23.63(2).</u>

If yes, please reach out to Sarah Edgerton prior to submitting your budget request.

The Government Accounting Standards Board (GASB) recently issued a statement (GASB 96) for subscription-based information technology arrangements (SBITAs). Per GASB 96, ongoing licensing and subscription costs, including software as a service (SaaS) expenses should be budgeted as an operating expense. Software costs should **not** be requested in your capital budget. Answer the questions below so the Finance Department is aware of your software needs for the operating budget request process.

Does your project or program require purchasing software licenses? Does your project or program require purchasing implementation services or other one-time costs?

# **Operating Expenses**

Estimate the project/program annual operating costs. Include software costs if applicable.

| Description - please detail operating costs by major where available | Annual Costs |
|--|--------------|
| None   | 0            |
|  |              |
|  |              |
|  |              |
|  |              |
|  |              |
|  |              |

#### Percent for Art

If your project is required to meet the Percent for Art ordinance, is this expense included in the expense table on the "Project Information" tab?

N/A

N/A

N/A
