<b>Program Description:</b> MADISON POLICE DEPARTMENT
<b>Laws &amp; Requirements:</b> Wis. Stat. § 62.13 - Police and Fire Departments Madison General Ordinance Chapter 5 – Police
<b>Electronic Systems:</b> Law Enforcement Records Management System (LERMS) AIM, IA PRO, Arbitrator, AS400 Parking Module (from AutoCite) Keyscan, Mobile, Sharepoint, Telestaff, TraCS, Access, Mideo, Winscribe. AIMS

### Official Records & Copies:

- **Official Record:** A complete, final, and authorized version of a record, often containing an original signature or seal.
- **Working Copies:** Staff may generally destroy rough draft materials that are subsequently finalized and maintained as part of the official record. However, staff should retain significant drafts when needed to document the decision-making process within the official record.
- **Reference or Convenience Copies:** Staff may maintain duplicate or working copies of records described in this schedule for reference and/or convenience purposes. Copies may be retained for as long as needed, but they should not be kept longer than the time specified in the approved RDA for the official record in this schedule. Do not maintain **unnecessary** duplicate copies. When retained for convenience or reference only, copies are considered non-records under Wis. Stat. § 16.61(2). Do **not** send copies to storage or retain them for longer than the retention periods specified for the official copy.

### Confidentiality of Records:

Most records are not confidential and are open to public disclosure, however, there are exceptions. This retention schedule will identify any record series that may contain information required by law to be kept confidential or specifically required to be protected from public access, identifying the state or federal statute, administrative rule, or other legal authority that so requires. If in doubt as to whether or not a specific record, or content in that record, is confidential, check with your agency legal counsel. A record series should be identified as confidential even if not all records in the series contain confidential information and not all parts of records covered by the series are confidential.
