

Boarding with Fast Fare

Fast Fare Rules

1. Do not throw your Fast Fare card away! These cards are meant for long-term, continued use.
2. Do not damage or hole-punch the cards. This will ruin the card and it will no longer work. Metro is not responsible for damaged cards.
3. Metro is not responsible for lost cards/value that are not associated with an organization or a personal Fast Fare account.
4. Riders must create a Fast Fare account to be eligible for reduced fare pricing (youth, senior, disabled, low income).

Where to Place Your Payment

Find the nearest fare reader, located at every door—front, middle, and rear of the bus.

How To Scan Your Mobile Barcode:

- Sign in to the Metro Transit Fast Fare app or learn how to download at [MyMetroBus.com/Mobile-App](https://www.mymetrobus.com/mobile-app).
- Point the QR code toward the center of the reader.
- Hold phone four fingers length away.
- Wait for the green—listen for the beep!

Fast Fare Cards, Credit Cards, & Virtual Wallets

- Scan cards or virtual wallets in the lower part of the reader with the contactless payment symbol. 
- Do not hold up a wallet or purse with multiple cards.
- Wait for the green—listen for the beep!

Adding Funds to Your Account

Using a debit or credit card to add funds to your account online before you ride. You can also add funds using cash at Metro's Administration Office, Bus Rapid Transit (BRT) station vending machines, or at participating sales outlets, including Kwik Trip, Metro Market, Walgreens, Walmart, and other locations! Learn more at [MyMetroBus/SalesOutlets](https://www.mymetrobus.com/sales-outlets).
