### Estimated Boardings by Bus Stop

Daily bus stop boardings were estimated using a 22-day sample of weekday APC boardings, 4-day sample of Saturday APC Boardings, and 4-day sample of Sunday APC boardings.

Metro's APC data is pending certification by the Federal Transit Administration.

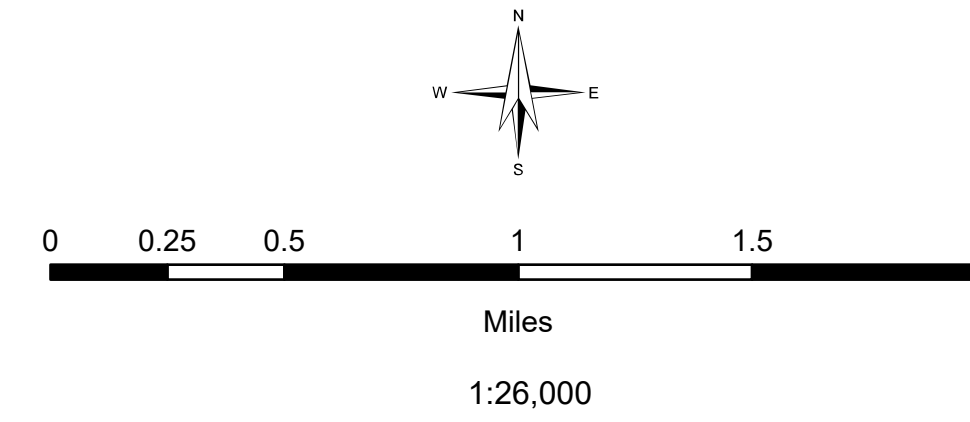

Caution should be exercised when attempting to compare data from individual stops; ridership data should be considered in the context of the system as a whole.

Bus stops were assigned to each boarding event given the estimated location of the bus at the time of the farebox transaction.
